

ASSICURAZIONI GENERALI S.p.A.

(incorporated with limited liability under the laws of the Republic of Italy)

€15,000,000,000

Euro Medium Term Note Programme

Assicurazioni Generali S.p.A. (“**Assicurazioni Generali**” or the “**Issuer**”) has established a Euro Medium Term Note Programme (the “**Programme**”) for the issuance of €15,000,000,000 in aggregate principal amount of notes (the “**Notes**”). Under the Programme as described in this Base Prospectus, Assicurazioni Generali may from time to time issue Notes in bearer form denominated in any currency, as described in further detail herein. Notes to be issued under the Programme may comprise (i) unsubordinated Notes (the “**Senior Notes**”), (ii) tier 3 notes referred to as “**More Senior Dated Subordinated Notes**” which are subordinated and with a maturity date as described herein (the “**Tier 3 Notes**”), (iii) senior dated subordinated notes which are subordinated and with a maturity date as described herein (the “**Senior Dated Subordinated Notes**”) and (iv) deeply subordinated notes which are deeply subordinated and with, or without, a maturity date as described herein (the “**Deeply Subordinated Notes**”) and together with the Senior Dated Subordinated Notes, the “**Tier 2 Notes**” and, together with the Tier 3 Notes, the “**Subordinated Notes**”). Notes issued under the Programme will not have denominations of less than €100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency). Subject thereto, Notes will be issued in such denominations as may be specified in the relevant Final Terms, subject to compliance with all applicable legal and/or regulatory and/or central bank requirements.

Notice of the aggregate nominal amount of any tranche of Notes, the interest (if any) payable, the issue price and any other information relating to the Notes which is not known at the date of this base prospectus (the “**Base Prospectus**”) and which can only be determined at the time of an individual issue of a Tranche of Notes will be set out in the relevant Final Terms (as defined below) or, as the case may be, the Drawdown Prospectus.

Application has been made to the Commission de Surveillance du Secteur Financier (the “**CSSF**”) in its capacity as competent authority in Luxembourg to approve this document as a base prospectus under the Luxembourg Law of 16 July 2019 on Prospectuses for Securities (the “**Luxembourg Prospectus Law**”). The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 6(4) of the Luxembourg Prospectus Law and only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by Regulation (EU) 2017/1129, as amended (the “**Prospectus Regulation**”). Application has been made to the Luxembourg Stock Exchange for Notes issued under this Base Prospectus to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and for the Notes to be displayed on the Professional Segment or on the Luxembourg Green Exchange Platform (the “**LGX Platform**”) of the Regulated Market of the Luxembourg Stock Exchange and to be listed on the Official List of the Luxembourg Stock Exchange during the period of 12 months after the date hereof. The obligation to supplement this Prospectus in the event of significant new factors, material mistakes or material inaccuracies will not apply following the expiry of that period. The Luxembourg Stock Exchange’s regulated market (the “**Regulated Market**”) is a regulated market for the purposes of the Markets in Financial Investments Directive, as amended (Directive 2014/65/EC) (as amended, “**MIFID II**”). The CSSF gives no undertaking as to the economic or financial opportuneness of the transaction or the quality and solvency of the Issuer in line with the provisions of article 6(4) of the Luxembourg Prospectus Law.

This Base Prospectus has been approved by the CSSF, as competent authority under the Prospectus Regulation. The CSSF only

approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Notes that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Notes.

This Base Prospectus shall be valid for admission to trading of Notes on a regulated market for the purposes of MiFID II for 12 months after the approval by the CSSF and shall expire on 25 May 2023 (included), provided that it is completed by any supplement, pursuant to Article 23 of the Prospectus Regulation, following the occurrence of a significant new factor, a material mistake or a material inaccuracy relating to the information included (including incorporated by reference) in this Base Prospectus which may affect the assessment of the Notes. After such date, the Base Prospectus will expire and the obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies will no longer apply.

The Programme also allows for Notes to be unlisted or to be admitted to listing, trading and/or quotation by such other or further listing authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer (including on the professional segment (ExtraMOT PRO) of the multi-lateral trading facility (ExtraMOT Market) organised and managed by Borsa Italiana S.p.A.). Under the Luxembourg Prospectus Law, prospectuses relating to money market instruments having a maturity at issue of less than 12 months which fall within the definition of securities are not subject to the approval provisions of Part II of such law, but are subject to the approval provisions of Part III of the Luxembourg Prospectus Law, which requires the approval of an alleviated prospectus. No money market instruments having a maturity at issue of less than 12 months will be offered to the public or admitted to trading on a regulated market under this Base Prospectus.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks, see “*Risk Factors*” on page 20.

Under current legislation in Italy, payments of interest, premium or other income relating to the Notes are subject to substitute tax (*imposta sostitutiva*) at a rate of 26 per cent., regardless of maturity. The Issuer will not be liable to pay any additional amounts to Noteholders in relation to any such substitute tax or withholding. For further information, see “*Taxation*” on page 334.

Amounts payable under the Notes may be calculated by reference to benchmarks including (i) the Euro-zone interbank offered rate (“**EURIBOR**”); (ii) the Singapore interbank offered rate (“**SIBOR**”); (iii) the Tokyo interbank offered rate (“**TIBOR**”); (iv) the Hong Kong interbank offered rate (“**HIBOR**”); (v) the sterling overnight index average rate (“**SONIA**”); (vi) the secured overnight financing rate (“**SOFR**”); (vii) the constant maturity swap rate (“**CMS**”); and (viii) the Daily Euro Short-term Rate (the “**CSTR**”) and amounts payable on Floating Rate Notes and Reset Notes issued under the Programme may, in certain circumstances, be determined in part by reference to such indices, each as specified in the relevant Final Terms. Each such index constitutes a benchmark for the purposes of the Benchmark Regulation (Regulation (EU) 2016/1011), as amended (the “**EU Benchmark Regulation**”). As at the date of this Base Prospectus, from the above-named list of benchmarks, only the administrators of EURIBOR, the European Money Markets Institute (“**EMMI**”), and of SIBOR, ABS Benchmarks Administration Co Pte Ltd., are included on the register of administrators and benchmarks established and maintained by the the European Securities and Markets Authority (“**ESMA**”) pursuant to article 36 of the EU Benchmark Regulation. Furthermore, as far as the Issuer is aware, the administrators of SONIA, SOFR and CSTR are not required to be registered by virtue of Article 2 of the EU Benchmark Regulation (or of the EU Benchmark Regulation as it forms part of UK domestic law by virtue of the European Union (Withdrawal Act) 2018 (the “**EUWA**”) (the “**UK Benchmark Regulation**”), as the case may be). As far as the Issuer is aware, the transitional provisions in Article 51 of the EU Benchmark Regulation apply, such that ICE Benchmark Administration (as administrator of CMS) is not currently required to obtain authorization/registration under the EU Benchmark Regulation. Similarly, third country benchmarks (including TIBOR and HIBOR) already used in the European Union (the “**EU**”) prior to 31 December 2023 can still be used in the EU as a reference for financial instruments, financial contracts, or for measuring the performance of an investment fund before that date.

IMPORTANT NOTICES

This Base Prospectus comprises a base prospectus for the purposes of Article 8 of the Prospectus Regulation. For the avoidance of doubt, when used in this Base Prospectus, references to “Prospectus Regulation” means Regulation (EU) 2017/1129, as amended, and “**UK Prospectus Regulation**” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. For the avoidance of doubt, this Base Prospectus has been approved by the CSSF, as competent authority under the Prospectus Regulation and not as competent authority under the UK Prospectus Regulation.

The Issuer accepts responsibility for the information contained in this document and for the relevant Final Terms for each Tranche of Notes issued under the Programme and to the best of the knowledge of the Issuer, the information contained in this document and in the relevant Final Terms for each Tranche of Notes issued under the Programme is in accordance with the facts and this Base Prospectus makes no omission likely to affect the import of such information.

This Base Prospectus should be read and construed together with any supplements hereto and with any other documents incorporated by reference herein and, in relation to any Tranche (as defined herein) of Notes, should be read and construed together with the relevant Final Terms.

The Issuer has confirmed to the Dealers named under “*Subscription and Sale*” below that this Base Prospectus (including for this purpose, each relevant Final Terms) contains all information which according to the particular nature of the Issuer and the securities offered to the public or admitted to trading on a regulated market, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses, and the prospects of the Issuer and of any rights attaching to such securities and is (in the context of the Programme and the issue, offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme and the issue, offering and sale of the Notes, where applicable) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

No representation or warranty is made or implied by the Dealers or any of their respective affiliates (including parent companies), and neither the Dealers nor any of their respective affiliates (including parent companies) makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer since the date hereof or, if later, the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

This Base Prospectus may only be used for the purposes for which it has been published. The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. None of the Issuer, the Dealers or the Arranger or any of their respective affiliates (including parent companies) represents that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see “*Subscription and Sale*”. In particular, Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the “**Securities Act**”) and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document required by Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PRIIPs / IMPORTANT – UK RETAIL INVESTORS - If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the “**FSMA**”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled “**MiFID II Product Governance**” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in

relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET - The Final Terms in respect of any Notes will include a legend entitled “**UK MiFIR product governance**” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

SALES TO CANADIAN INVESTORS - The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Base Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of their respective affiliates (including parent companies) that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

Neither the Issuer, the Arranger nor any of the Dealers nor any of their respective affiliates (including parent companies) makes any representation as to the suitability of any Green Bonds, Social Bonds or Sustainability Bonds (each as defined herein) to fulfil any green, social or sustainability criteria required by any prospective investors. If any Green Bonds, Social Bonds or Sustainability Bonds will be admitted to listing (including the listing or admission to trading thereof on any dedicated ‘green’, ‘social’, ‘sustainable’ or other equivalently-labelled segment of any stock exchange or securities market), no representation or assurance is given by the Issuer, the Arranger or any of the Dealers nor any of their respective affiliates (including parent companies) that such listing or admission satisfies any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Neither the Arranger or the Dealers nor any of their respective affiliates (including parent companies) have undertaken, nor are they responsible for, any assessment of the eligibility criteria for Eligible Green Assets or

Eligible Social Assets (each as defined herein), any verification of whether such projects meet such criteria or the monitoring of the use of proceeds of any Green Bonds, Social Bonds or Sustainability Bonds (or amounts equal thereto). Investors should refer to the Issuer’s Sustainability Bond Framework (as defined herein) which the Issuer may publish from time to time, any second party opinion delivered in respect thereof, and any public reporting by or on behalf of the Issuer in respect of the application of the proceeds of any issue of Green Bonds, Social Bonds or Sustainability Bonds for further information. Any such green, social or sustainability framework and/or second party opinion and/or public reporting – which will be made available in the “investor relations” section of the Issuer’s website – will not constitute or form part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities and will not be incorporated by reference in this Base Prospectus, save in each case to the extent that any such information is expressly included or incorporated by reference in this Base Prospectus, and neither the Arranger nor any of the Dealers nor any of their respective affiliates (including parent companies) makes any representation as to the suitability or contents thereof.

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed €15,000,000,000 and, for this purpose, any Notes denominated in another currency shall be translated into euro at the date of the agreement to issue such Notes, calculated in accordance with the provisions of the Dealer Agreement (as defined under “**Subscription and Sale**”). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement.

Notes issued pursuant to the Programme may also be rated or unrated. Where an issue of Notes is rated, its rating will be specified in the relevant Final Terms. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Whether or not each credit rating applied for in relation to the relevant Series of Notes will be issued by a credit rating agency established in the European Economic Area and registered under Regulation (EC) No 1060/2009, as amended (the “**EU CRA Regulation**”) or established in the United Kingdom and registered under Regulation (EC) No 1060/2009 as it forms part of UK domestic law by virtue of the EUWA (the “**UK CRA Regulation**”) and, together with the EU CRA Regulation, the relevant “**CRA Regulation**”) will be disclosed in the relevant Final Terms. In general, European regulated investors are restricted under the EU CRA Regulation and UK regulated investors are restricted under the UK CRA Regulation from using a credit rating for regulatory purposes unless such rating is issued by a credit rating agency established in the EEA or the United Kingdom and registered under the relevant CRA Regulation (and such registration has not been withdrawn or superseded, subject to transitional provisions that apply in certain circumstances). Such general restriction will also apply in the case of credit ratings issued by non-EEA credit rating agencies or non-UK credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered or UK-registered credit rating agency or the relevant non-EEA (or non-UK) credit rating agency is certified in accordance with the relevant CRA Regulation (and such endorsement or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances).

ESMA is obliged to maintain on its website, <https://www.esma.europa.eu/supervision/credit-rating-agencies/risk> a list of credit rating agencies registered and certified in accordance with the EU CRA Regulation.

In this Base Prospectus, unless otherwise specified, references to “**EUR**”, “**euro**” or “**€**” are to the single currency introduced at the start of the third stage of European Economic and Monetary Union and as defined in Article 2 of Council Regulation (EC) No. 974/98 of 3 May 1998 on the introduction of the euro, as amended. Unless otherwise specified or where the context requires, references to laws and regulations are to the laws and regulations of Italy.

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the EEA (each, a “**Member State**”) will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of Notes and any offer of Notes in the UK will be made pursuant to an exemption under the UK Prospectus Regulation from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Member State or the UK of Notes which are the subject of an offering/placement contemplated in this Base Prospectus as completed by the relevant Final Terms or a Drawdown Prospectus in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation (or the UK Prospectus Regulation, as the case may be) or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation (or the UK Prospectus Regulation, as the case may be), in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State (or in the UK, as the case may be) and (in either case) published, all in accordance with the Prospectus Regulation (or the UK Prospectus Regulation, as the case may be), provided that any such prospectus has subsequently been completed by the relevant Final Terms or is a Drawdown Prospectus which specifies that offers may be made other than pursuant to Article 3(2) of the Prospectus Regulation (or the UK Prospectus Regulation, as the case may be) in that Member State (or in the UK as the case may be), such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms or drawdown prospectus, as applicable, and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall

portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Furthermore, the conditions of the Notes are governed by English law or, as the case may be, Italian law, in effect as of the date of this Base Prospectus, as specified in the relevant Final Terms. In the case of Subordinated Notes governed by English law, the provisions concerning the status of such Subordinated Notes will be governed by the laws of the Republic of Italy. No assurance can be given as to the impact of any possible judicial decision or change to applicable law or administrative practice after the date of this Base Prospectus.

Neither the Issuer, the Dealers, nor any of their respective affiliates (including parent companies) has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to the purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Singapore SFA Product Classification: In connection with Section 309B of the Securities and Futures Act 2001 of Singapore (the "SFA") and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "CMP Regulations 2018"), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are 'prescribed capital markets products' (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

STABILISATION

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISING MANAGER(S) (THE "STABILISING MANAGER(S)" (OR ANY PERSON ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN THE APPLICABLE SUBSCRIPTION AGREEMENT, MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE RELEVANT TRANCHE IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF NOTES. ANY

STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR ANY PERSON ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

MARKET STATISTICS

Information and statistics presented in this Base Prospectus regarding business trends, market trends, market volumes and the market share of the Issuer or the Generali Group (as defined herein) are either derived from, or are based on, internal data or publicly available data from various independent sources. Although the Issuer believes that the external sources used are reliable, the Issuer has not independently verified the information provided by such sources.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the industry in which the Group operates together with all other information contained in this Base Prospectus, including, in particular, the risk factors described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under this Programme. All these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view as to the likelihood of any such contingency occurring. Additional risks and uncertainties relating to the Issuer that are not currently known to the Issuer, or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

RISK FACTORS RELATING TO THE ISSUER

1. Financial and investment risks

Financial results may be affected by fluctuations in the financial markets

Market levels and investment returns are an important part of determining the Generali Group’s overall profitability and fluctuations in the financial markets such as the fixed income, equity, property and foreign exchange markets can have a material effect on its consolidated results of operations. Changes in these factors can be very difficult to predict. Any adverse changes in the economies and/or financial markets in which funds under management are invested could have a material adverse effect on the Generali Group’s consolidated financial condition, results of operations and cash flows.

Fluctuations in interest rates may affect returns on the Group’s fixed income investments and their market value. Generally, investment income may be reduced during sustained periods of lower interest rates as higher yielding fixed income securities are called, mature or are sold and the proceeds are reinvested at lower rates even though prices of fixed income securities tend to rise and gains realised upon their sale tend to increase. During periods of rising interest rates, prices of fixed income securities tend to fall and gains made upon their sale are lower or the losses made are greater.

In addition, the Generali Group invests a substantial portion of its assets in equities and real estate, which are generally subject to greater risks and more volatility than fixed income securities. General economic conditions, stock market conditions, level of disposable income and many other factors beyond the control of the Generali Group can adversely affect the equity and property markets and therefore, the value of the Group’s investments.

Investment returns are also susceptible to changes in the general creditworthiness of the issuer of the debt securities and equity securities held in the businesses' portfolios of the Group. The value of fixed income securities may be affected by, amongst other things, changes in the issuer's credit rating. Where the credit rating of a debt security drops, the value of the security may also decline.

The current dislocation in the global and Italian capital markets and credit conditions has led to the most severe examination of the banking system's capacity to absorb sudden significant changes in the funding and liquidity environment in recent history, and has had an impact on the wider economy. Should the Generali Group be in a situation where it has to source a sustainable funding in a stressed market environment, the Generali Group's ability to fund its financial obligations at a competitive cost, or at all, could be adversely affected.

In addition to the general insurance and shareholder portfolios, the Generali Group has substantial exposure to fixed income securities, equities and real estate within its life assurance portfolios worldwide. The investment risk on life assurance portfolios is often shared in whole or in part with policyholders, depending on the product sold. Fluctuations in the fixed income, equity and property markets will directly affect the financial results of life assurance operations and will also have indirect effects, through their impact on the value of technical provisions, which in most cases are related to the value of the assets backing the policy liabilities. Should the credit rating of the issuer of the fixed income securities drop to a level such that regulatory guidelines prohibit the holding of such securities to back insurance liabilities, the resulting disposal may lead to a loss (the materiality of which is directly proportional to the relevant exposure of the Group) on the Generali Group's investment.

The revenues of the Generali Group's asset management businesses around the world are derived primarily from investment management fees, which are based primarily on the market value of funds under management. Consequently, the asset management business's financial results depend on changes in the economic conditions and financial markets in which the funds under management are invested.

For further considerations relating to interest rates, currency and credit risks, please refer to the risk factors: "*Financial results may be affected by interest rates*", "*Financial results may be affected by fluctuations in exchange rates*" and "*The Generali Group is subject to credit risk*" and "*Financial Risk and Credit Risk*" (pages 152-154) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

Financial results may be affected by interest rates

Significant changes in interest rates could materially and adversely affect the Generali Group's business, results of operation and financial performance. The level of and changes in interest rates (including changes in the difference between the levels of prevailing short term and long term rates) can affect the Generali Group's life insurance, banking and assets management results and interest payable on debt. In particular, interest rates can affect the availability of disposable income for investment in life assurance and other savings products, asset values, levels of bad debts, levels of investment income gains and losses on investments, funding costs and interest margins. Whilst interest rates increase the margin spread potential for the banking business, they are also likely to result in a decrease in fixed income asset values for life insurance companies. Generally, the impact of rising interest rates on the Group's asset management business is driven by the change in value of funds under management.

Fluctuations in interest rates (and returns from equity markets) also have an impact on consumer behaviour, especially in the Group's life and asset accumulation businesses, where demand for fixed income products may decline when interest rates fall and equity markets are performing well. Consumer demand for the Group's general insurance products, particularly commercial lines, can also vary with the

overall level of economic activity. See further “*Financial Risk and Credit Risk – Financial Risk*” (pages 153-154) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

Financial results may be affected by fluctuations in exchange rates

The Generali Group presents its consolidated financial statements in Euro but a substantial proportion of its operations are accounted for in currencies other than Euro principally the Swiss franc, the Czech crown and the US dollar. As a result of the accounting for operations in currencies other than Euro, fluctuations in the relevant value of the Euro to the Swiss franc, the US dollar, the Czech crown and other currencies could be significant because, amongst other things, these fluctuations could cause the Generali Group’s earnings to fluctuate and affect the comparability between results in one financial period and those in the preceding financial period. See further “*Financial Risk and Credit Risk – Financial Risk*” (pages 153-154) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

The Generali Group is subject to credit risk

The Generali Group is subject to counterparty risk in relation to third parties. A failure by its counterparties to meet their obligations could have a material impact on its financial position. Moreover, the Generali Group is exposed to credit risk arising from changes in value of its holdings of fixed income instruments and other investments.

Additionally, the Generali Group’s general insurance businesses has substantial exposure to reinsurers through reinsurance arrangements. With regards to its life assurance business, the Generali Group mostly acts as an internal reinsurer of its subsidiaries, with the aim of pooling risks and, consequently, mitigating local credit counterparty risk. Under such arrangements, other insurers assume a portion of the costs, losses and expenses associated with policy claims and maturities and reported and unreported losses in exchange for a portion of policy premiums. The availability, amount and cost of reinsurance depend on general market conditions and may vary significantly year on year. Any decrease in the amount of reinsurance cover purchased will increase the Generali Group’s risk of loss. When reinsurance is obtained, the Generali Group is still liable for those transferred risks if the reinsurer does not meet its obligations. Therefore, the inability or failure of reinsurers to meet their financial obligations and any development that could, directly or indirectly, affect their ability to perform (including any deterioration in their creditworthiness) could materially affect the Generali Group’s operations and financial condition.

A default by an institution or even concerns as to its creditworthiness could lead to significant liquidity problems, losses or defaults by other institutions because the stability of many financial institutions may be closely linked to credit, trading, clearing or other relationships between institutions. This risk may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges with which the Generali Group interacts on a daily basis and therefore could adversely affect the Generali Group. See further “*Financial Risk and Credit Risk – Credit Risk*” (page 154) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

2. Insurance risk

Financial results may be affected by insurance risk

Underwriting performance, for both the life and non-life businesses, represents an important part of the Generali Group's overall profitability and fluctuations in the frequency and severity of insurance claims can have a material effect on the consolidated results of operations. In addition, any adverse changes in the rate of claims inflation or in the cost of reinsurance protection could have a material adverse effect on the Generali Group's consolidated financial condition, results of operations and cash flows. Changes in these factors can be very difficult to predict. See further "*Life Underwriting Risk*" and "*Non-Life Underwriting Risk*" (pages 149-152) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

3. Operational and liquidity risks

The Generali Group is subject to operational risk

The Generali Group, like all financial services groups, is exposed to many types of operational risk. Solvency II defines operational risk as the risk of loss, arising from inadequate or failed internal processes, personnel or systems, or from external events.

The operational risk also includes financial reporting risk (being the risk of a transaction error, which could entail an untrue and incorrect representation of the situation of the assets, liabilities, profit and loss in the financial statements) and compliance risk (defined as the risk of legal and regulatory sanctions). In addition to the material financial losses, considerations are also made regarding potential reputational and strategic impacts, usually indirect consequence of operational risks (e.g. reputational damage that Assicurazioni Generali may suffer as a result of not complying with laws, regulations and administrative provisions applicable to its business). The main operational risks may derive from internal fraud, external fraud (including cyber-attack), employment practices, clients and products, damage to physical assets, business disruption and system failure, execution and process management. The Group has established specialised units with the scope of dealing with specific threats (e.g. cyber risk, fraud, financial reporting risk) that work in close collaboration with the Risk Management Function at Group level.

The Generali Group's systems and processes are designed to ensure that the operational risks (and related adverse effects) associated with the Generali Group's activities are appropriately monitored, contained and mitigated. Any failure or weakness in these systems or processes, or the occurrence of certain unforeseeable events, wholly or partly out of the Generali Group's control, however, could adversely affect the Generali Group's operating results, financial performance and business activities, as well as its reputation. See further "*Operational Risk*" (page 155) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

The Generali Group is subject to liquidity risk

Liquidity risk is defined as the uncertainty, arising from business operations, investment or financing activities, over the ability of the Group and its legal entities to meet payment obligations in a full and timely manner, in a current or stressed environment. The Group is exposed to liquidity risk from its insurance and reinsurance operating activity, due to the potential mismatches between the cash inflows and the cash outflows deriving from the business. Liquidity risk can also stem from investing activity, due to potential liquidity gaps deriving from the management of the asset portfolio as well as from a potentially insufficient level of liquidity in case of disposals (e.g. capacity to sell adequate amounts at a

fair price and within a reasonable timeframe). Liquidity risk from financing activity is related to the potential difficulties in accessing external funding or in paying excessive financing costs. The Group can also be exposed to liquidity outflows related to issued guarantees, commitments, derivative contract margin calls or regulatory constraints. Inability by the Group to accurately measure, monitor and manage its liquidity risk could adversely affect the Group's operating results and financial condition. See further "*Other Material Risks - Liquidity Risk*" (page 156) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

4. Regulatory related risks

Regulatory compliance and regulatory changes

The Generali Group's insurance, asset management and banking subsidiaries are subject to government regulation in the jurisdictions in which they conduct business. Regulatory agencies – in particular, the Italian insurance authority IVASS (in the case of the Generali Group's insurance activities) – have broad jurisdiction over many aspects of these businesses, which may include capital adequacy, premium rates, marketing and selling practices, advertising, licensing agents, policy forms, terms of business and permitted investments.

In the European Union, risk-based capital requirements have been introduced pursuant to Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance (Solvency II) (the "**Solvency II Directive**"). The Solvency II framework – which has introduced new requirements as to own funds, the calculation of technical provisions, valuation of assets and liabilities, governance structure, regulatory reporting and disclosure as well as governance of insurance companies – became effective on 1 January 2016. In Italy, the Solvency II Directive was incorporated into national law by Legislative Decree No. 74 of 12 May 2015, which amended and supplemented Legislative Decree No 209 of 7 September 2005 (the "**Italian Code of Private Insurance**") and by IVASS implementing regulations.

The Solvency II Directive, together with the accompanying level 2 implementing measures, such as Commission Delegated Regulation 2015/35 (as amended, the "**Delegated Regulation**"), as well as level 2.5 Commission implementing regulations laying down implementing technical standards and associated level 3 guidelines developed by the European Insurance and Occupational Pensions Authority ("**EIOPA**"), create a stricter and more comprehensive regulatory framework (compared to the previous supervisory and solvency regime) for insurance and reinsurance undertakings within the European Union. In several cases, the solvency capital requirements for insurance and reinsurance undertakings increase as opposed to the previous solvency regime, and capital ratios have become more volatile in general.

The Solvency II framework has been the subject of recent and on-going review by the European Commission and EIOPA. In particular, amendments have been introduced by Commission Delegated Regulation (EU) 2019/981 of 8 March 2019 which, building on the technical advice received from EIOPA, are intended to enhance the proportionality of the Solvency II framework and its consistency with other EU financial legislation, improve the risk sensitivity of the solvency capital requirement (SCR) standard formula, remove unjustified constraints on the financing of the economy and increase transparency and reliability. With specific reference to Tier 2 and Tier 3 basic own-fund items in particular, Commission Delegated Regulation (EU) 2019/981 of 8 March 2019 has amended Article 73 (*Tier 2 Basic own-funds – Features determining classification*) and Article 77 (*Tier 3 Basic own-funds – Features determining classification*) of Commission Delegated Regulation 2015/35 to allow for repayment and redemption before 5 years for tax and regulatory reasons, subject to satisfaction of

specific conditions as further set out in Condition 10.7 (*Redemption of Subordinated Notes prior to fifth anniversary from Issue Date*) of the Tier 2 Conditions and the Tier 3 Conditions.

Further modifications are expected as part of the comprehensive Solvency II review, in connection with which the European Commission issued a formal call for advice to EIOPA in February 2019 (the “**Call for Advice**”) and EIOPA published its opinion on 17 December 2020 setting out a number of key proposals. Following up on the EIOPA opinion, on 22 September 2021, the European Commission published its comprehensive package of proposals and related documentation regarding the Solvency II review (the “**Review Package**”). The package consists of a legislative proposal to amend the Solvency II Directive, with amendments entailing (*inter alia*):

- changes to the long-term guarantee measures to improve risk sensitivity and better mitigate undue volatility;
- making prudential rules more proportional by allowing smaller insurers to be exempted from Solvency II rules and by creating a more suitable framework for insurers with low risk profile;
- refining rules on transparency to better adapt disclosures required from (re)insurers to the information needed by recipients;
- improving the quality of supervision in relation to ongoing compliance with prudential rules, cross-border (re)insurance business and (re)insurance groups;
- introducing new requirements on long-term climate change scenario analysis;
- introducing new requirements for insurers to develop liquidity risk indicators in order to monitor liquidity risk; and
- reviewing the assessment of the consolidated group Solvency Capital Requirement for groups in order to include insurance holding companies and mixed financial holding companies within the overall framework.

In addition, Delegated Regulation (EU) 2021/1256 of 21 April 2021 amends the Delegated Regulation, applying from 2 August 2022, as regards the integration of sustainability risks in the governance of insurance and reinsurance undertakings.

The European Commission has stated that it intends to introduce delegated acts to supplement the amendments to the Solvency II Directive, including on topics such as long-term equity investments, risk margin, volatility adjustment, matching adjustment, diversification benefits, extrapolation, capital requirement for interest rate risk, further recognition of risk-mitigation techniques within the standard formula, effect of state aid compatible guarantees/reinsurance, mortgage loans and sustainable finance requirements.

The Review Package includes also a legislative proposal for a new Insurance Recovery and Resolution Directive (“**IRRD**”), which sets out the recovery and resolution regime for insurers and reinsurers. This proposal lays out a comprehensive set of measures, which aim to ensure that:

- national resolution authorities are designated in each Member State;
- preventive tools and powers, complementary to the existing Solvency II intervention ladder, are clarified in order to ensure that national supervisory authorities are able to deal in an efficient manner with deteriorating financial positions or breaches of regulatory requirements of (re)insurers without introducing any new intervention threshold;

- (re)insurers and national supervisory and resolution authorities are adequately prepared for any crisis;
- national resolution authorities have harmonised resolution tools and powers to take rapid and effective action when an (re)insurer's failure cannot be avoided;
- national resolution authorities cooperate effectively across borders, including with third country authorities.

Under the proposed IRRD, an (re)insurer will become subject to resolution when (i) it breaches or is likely to breach its Minimum Capital Requirement or is likely to be balance-sheet or cash-flow insolvent; (ii) all other intervention measures (such as the preventive measures set out in the IRRD or other recovery measures under the Solvency II Directive) or private sector measures have been exhausted; and (iii) winding-up the undertaking under normal insolvency proceedings would risk prolonged financial instability or a worse outcome for policyholders. The resolution tools under proposal in the proposed IRRD include:

- write-down or conversion of capital instruments, debt instruments and other eligible liabilities (bail-in);
- solvent run-off (whereby the authorisation of a (re)insurer to conclude new insurance or reinsurance contracts is withdrawn in order to limit its activity to the administration of its existing portfolio, thereby maximising the coverage of insurance claims by existing assets);
- sale of business, whereby all or parts of an (re)insurer's business can be sold on commercial terms, without complying with procedural requirements that would otherwise apply;
- bridge undertaking, whereby all or part of an (re)insurer's business can be transferred to a publicly controlled entity that will be eventually sold to a private purchaser when market conditions are appropriate; and
- asset and liability separation, a tool to be used in conjunction with another resolution tool, whereby impaired or problem assets and/or liabilities can be transferred to a management vehicle to allow them to be managed and worked out over time.

The changes to be introduced under the proposed IRRD are far reaching. If the bail-in powers proposed in the draft IRRD are enacted and if the Issuer or the Generali Group were to be subject to resolution, the exercise of the bail-in power in respect of Notes issued under the Programme could adversely affect the rights of the Noteholders and result in the loss of their entire investment in the Notes.

The next step is for the European Parliament and the Member States in the Council to negotiate the final legislative texts on the basis of the Review Package. At the date of this Base Prospectus, it is not known when these negotiations will conclude, and there can be no guarantee that the final version of the IRRD and of the Solvency II Directive amendments approved and implemented will remain substantially the same as the text of the proposals published in the Review Package.

Accordingly, it is not possible to foresee exactly how, or when, the key proposals of the Review Package will translate into changes to the current framework and their precise impact on Assicurazioni Generali and other insurance undertakings in Europe, and on regulatory capital instruments issued by Assicurazioni Generali (including Notes issued under the Programme upon their issuance).

Other possible reviews in the future may result in other modifications to the Solvency II framework, including adjustments to methods, assumptions and parameters, changes in policy options, more stringent capital requirements and/or decrease in available capital, some of which modifications may

lead to increased burdens in terms of compliance and costs. In particular, there is a risk that instruments issued, and to be issued, by Assicurazioni Generali or the Generali Group will no longer be (fully or partly) eligible as own funds and/or will not be sufficient to comply with the capital requirements from time to time required under Solvency II or otherwise. In such cases, the Issuer might have to refinance existing debt or raise additional capital as own funds. There is a risk that refinancing existing debt or raising additional capital would be expensive, difficult or impossible on adequate terms, with consequential potential negative effects on the Generali Group's capital adequacy, business and/or financial condition. The risk of any sudden, material adverse impact on the Generali Group is likely to be addressed in the context of the continuous dialogue with IVASS, both on an on-going basis and as part of the process when applying for IVASS' approval for the redemption and, where required, issuance of subordinated instruments, with a view to mitigating any possible effect.

The Generali Group uses its Partial Internal Model (PIM), which has been approved by IVASS for the calculation of its capital requirements to better reflect its risk profile. Following the IVASS authorisation received in December 2020 for the extension to operational risks, the Generali Group's PIM covers all quantifiable risks of the Generali Group. See further the paragraph headed "*Group Partial Internal Model (Group PIM)*" (pages 148-149) in Part C (*Solvency Position*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus. The solvency ratio is calculated with the Internal Model (IM) for the Generali Group legal entities for which authorisation has been granted, while other insurance entities adopt the standard formula. Solvency II requires insurance undertakings to continue to satisfy a number of post-approval requirements. In case of non-compliance with these requirements provoking material effects, the supervisory authorities may require insurance undertakings to revert to calculating their Solvency Capital Requirement in accordance with the standard formula. The Review Package furthermore contains amending provisions to require undertakings using an internal model to report regularly to the supervisors an estimation of the Solvency Capital Requirement calculated with the standard formula.

Furthermore, the Generali Group activated an IMAP (Internal Model Approval Process) procedure in 2021 with the aim of including a minor legal entity in Germany within the Internal Model. The scope of application of the Internal Model has been extended to include also this entity (counterbalanced by the impact of local model changes) towards the end of 2021 after all necessary approvals from the college of supervisors have been obtained, with a limited impact in terms of Solvency Capital Requirement as well as Solvency Ratio.

More broadly, recent turmoil in the financial markets has resulted in significant regulatory changes affecting financial institutions, including insurance and reinsurance undertakings, as well as reforms and new regulatory actions aimed at addressing the issue of systemic risk and the perceived gaps in the regulatory framework viewed to have contributed to the financial crisis. Initiatives aimed at crisis prevention and facilitating the resolution of failing institutions include the publication by the Financial Stability Board ("**FSB**") in November 2011 of "Key Attributes of Effective Resolution Regimes for Financial Institutions", supplemented first in October 2014 and then in June 2016 with additional guidance - applicable to systematically important insurances - on how these key attributes should be applied to the insurance sector, and the on-going development of recovery and resolutions standards by the International Association of Insurance Supervisors ("**IAIS**", which is among others a member of the FSB). In Europe, in addition to the recently published legislative proposal for the IRRD described above, there have been discussions on the harmonisation of national insurance guarantee schemes ("**IGSs**"). Although the European Commission has communicated - when publishing the Review Package - its conclusion that action to align rules for IGSs is not appropriate at this juncture, the

European Commission has confirmed that it is committed to reassessing the appropriateness and timing of alignment in the future.

Other regulatory initiatives, including increasing regulatory and law enforcement scrutiny by EU and its member countries on anti-money laundering (such as the Anti-Money Laundering Directive – see “*The entry into force at national level of the Anti-Money Laundering Directive could adversely affect Generali Group’s business, results of operations and financial conditions*” below), counterterrorist-financing and international sanctions requirements, directives concerning corruption, insider trading, market abuses, ICT management and resilience, data protection (such as the General Data Protection Regulation – see “*The application of the General Data Protection Regulation could adversely affect Generali Group’s business, results of operations and financial conditions*” below) and protection for retail investors (such as the PRIIPs Regulation – see “*The application of the EU Regulation on key information documents for packaged retail and insurance-based investment products could adversely affect Generali Group’s business, results of operations and financial conditions*” below and any subsequent IVASS regulation on this topic) and more stringent regulatory requirements as well as legislation concerning the asset management and insurance industries (such as the Insurance Distribution Directive) as a whole, could increase the cost of doing business or affect the competitive balance in general. The evolving EU regulatory framework on sustainable finance - such as the Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088), in relation to which the level 2 measures are expected to be implemented by 1 January 2023, which introduces new obligations as regards the disclosure of sustainability related information with respect to investment services provided and financial products offered to clients, and the Taxonomy Regulation (Regulation (EU) 2020/852) which supplements the Non-Financial Reporting Directive by stipulating additional disclosure obligations – is progressively imposing additional compliance obligations on (re)insurance undertakings in Europe, including the Generali Group. Regulatory scrutiny and proceedings as a result of non-compliance with applicable regulations or failure to undertake corrective action could result in adverse publicity for, or negative perceptions regarding, the regulated entity, as well as diverting management’s attention away from the day-to-day management of the business. A significant regulatory action against a member of the Generali Group could have a material adverse effect on the business of the Generali Group, its results of operations and/or financial condition. In addition, changes in government policy, legislation or regulatory interpretation applying to the financial services industry in the markets in which the Generali Group operates may adversely affect its product range, distribution channels, capital requirements and, consequently, its results and financing requirements. These changes, which may occur at any time, include possible changes in government pension requirements and policies, the regulation of selling practices and solvency requirements.

Supervisory requirements and policy measures developed by the IAIS may increase capital requirements and impose a more stringent level of regulatory scrutiny

The IAIS has developed three tiers of supervisory requirements and actions applicable to the insurance industry. These include:

- Insurance Core Principles (“**ICPs**”) that are intended to apply to the supervision of all insurers and insurance groups, regardless of size, complexity or systemic importance; and
- a common framework (“**ComFrame**”) for the supervision of internationally active insurance groups (“**IAIGs**”). The ComFrame aims to introduce a risk based, global insurance capital standard (the Insurance Capital Standard, “**ICS**”) applying to IAIGs, to be enforced by national regulators.

The IAIS formally adopted ComFrame and ICS Version 2.0 in November 2019. Implementation of ICS Version 2.0 will be conducted in two phases: firstly, ICS Version 2.0 will be used for confidential reporting to group-wide supervisors and discussion in supervisory colleges during a “monitoring period”

that will last for five years (2020-2024). The ICS will not be used as a prescribed capital requirement in this phase; secondly, ICS will be implemented as a group-wide prescribed capital requirement. Assicurazioni Generali's status as an IAIG will result in enhanced supervision and regulation under the ComFrame.

The IAIS has furthermore adopted the holistic framework for assessment and mitigation of systemic risk in the insurance sector, for implementation from the beginning of 2020. The framework consists of an enhanced set of supervisory policy measures and powers of intervention, an annual IAIS global monitoring exercise, and collective discussion on the outcomes and appropriate supervisory responses, along with a robust implementation assessment. The holistic framework provides for certain elements of the policy measures developed by the IAIS for Global Systematically Important Insurers ("G-SIIs") to be integrated into the revised ICPs and ComFrame material and potentially applied, subject to the proportionality principle, to a larger set of insurers than those insurers that have been identified as G-SIIs in the past. Designation of G-SIIs by the FSB has been suspended as from the beginning of 2020, subject to review in November 2022 by the FSB in consultation with the IAIS and national authorities. Assicurazioni Generali was designated as a G-SII in FSB's 2013 and 2014 assessments, and future policy changes in this area could potentially affect the Group.

These and other measures and policies adopted by the IAIS from time to time could have a significant effect on the Generali Group's business, financial condition (including the recognition of capital instruments issued by the Issuer as Tier 2 capital resources (including Tier 2 Notes issued under the Programme) or Tier 1 capital resources) or results of operations, and impact the Generali Group's capital requirements and its competitive position *vis-à-vis* other insurance groups that are not subject to these more stringent policy measures.

The application of the General Data Protection Regulation could adversely affect Generali Group's business, results of operations and financial conditions

The General Data Protection Regulation (EU Regulation No. 2016/679; the "GDPR") repealed the Data Protection Directive (95/46/EC) and is aimed at providing a consistent and harmonised regulatory framework for the processing of personal data within the European Union. The GDPR was adopted in 2016 and has applied since 25 May 2018. The Italian government approved Legislative Decree No. 101 of 10 August 2018 for the purpose of harmonizing the existing legal framework with the new GDPR provisions and implementing those requirements addressed to Member States. The GDPR applies whenever personal data (i.e., any information directly or indirectly related to an identified or identifiable natural person) is processed within the European Union and, additionally, where personal data is processed outside the European Union in relation to: (i) the offer of goods or services to individuals in the European Union, or (ii) the monitoring of behaviour if taken place within the European Union; therefore, the GDPR applies even to organisations processing personal data in the European Union even if they have no presence within the EU.

Broadly, the GDPR regulation covers the following areas: (i) a single regulation across the EU; (ii) increased enforcement powers for the data protection Authorities with the ability to impose fines of up to 4% of global annual turnover (or up to 2% for breach of certain provisions); (iii) the introduction of a new EU-wide advisory body, the European Data Protection Board, replacing the Article 29 of the Data Protection Directive (95/46/EC) Working Party; (iv) a single lead supervisory Authority for handling issues connected with data processing operations performed in multiple jurisdictions of the EU; (v) the introduction of new principles, such as the principle of accountability; (vi) the obligation, under certain circumstances, to appoint an independent Data Protection Officer; (vii) new rights for individuals,

including the “right to be forgotten” and the right to data portability; and (viii) provisions for mandatory data breach notification to the Supervisory Authorities and, in certain cases, the affected individuals.

The changes introduced by the GDPR (and any future integrations and amendments) have important impacts on Generali Group as well as the European insurance market in general, as a result of, *inter alia*, an increase in compliance costs and obligations.

The transposition of the Insurance Distribution Directive could adversely affect Generali Group’s business, results of operations and financial conditions

The Insurance Distribution Directive ((EU) 2016/97) (“**IDD**”), which is the recast of Directive 2002/92/EC, as amended or superseded (the Insurance Mediation Directive, “**IMD**”), was adopted by the European Parliament and the Council on 20 January 2016 and was incorporated into Italian law by Legislative Decree No. 68 of 21 May 2018, which amended and supplemented the Italian Code of Private Insurance and Legislative Decree No. 58/1998.

Broadly, the IDD which is a minimum harmonisation directive, introduced, *inter alia*, the following changes: (i) extended scope to cover the distribution of insurance and reinsurance products, whether directly by an insurance undertaking or indirectly by an insurance intermediary or, provided that a number of conditions are met, an ancillary insurance intermediary; (ii) more stringent disclosure and transparency requirements, including information on remuneration and introduction of a standardised information document for non-life insurance products (the Insurance Product Information Document, “**IPID**”); (iii) introduction by Member States of rules to ensure that distributors are not remunerated and do not remunerate or assess the performance of their employees in a way that conflicts with the duty to act in the best interests of customers; (iv) enhanced professional knowledge and competence requirements for persons involved in distribution activities; (v) introduction of new rules on product oversight and governance; (vi) information requirements on cross-selling and bundling; and (vii) additional specific disclosure and transparency requirements and conduct of business rules (including rules on conflicts of interests; inducements; assessment of suitability and appropriateness; and rules applicable to non-complex insurance products) for insurance-based investment products.

Certain elements of the IDD have been further specified in two delegated regulations adopted by the European Commission on 21 September 2017, namely, Commission Delegated Regulation (EU) 2017/2358 of 21 September 2017 supplementing IDD with regard to product oversight and governance requirements for insurance undertakings and insurance distributors and Commission Delegated Regulation (EU) 2017/2359 of 21 September 2017, supplementing IDD with regard to information requirements and conduct of business rules applicable to the distribution of insurance-based investment products (the “**IDD Delegated Regulations**”). The IDD Delegated Regulations are supplemented by related guidelines, technical advices and measures, such as Commission Implementing Regulation (EU) 2017/1469 of 11 August 2017 laying down a standardized presentation format for the IPID, EIOPA’s October 2017 “Guidelines on insurance-based investment products that incorporate a structure which makes it difficult for the customer to understand the risks involved” (complex insurance products) and its Technical Advice of April 2019 concerning the integration of sustainability risks and factors in investment decision and insurance distribution processes as well as measures from IVASS in implementation of the IDD, such as the recently adopted IVASS Regulation no. 45 of 4 August 2020.

The changes introduced by the IDD (and any future integrations and amendments) are likely to have a significant effect on Generali Group as well as the European insurance market, including, *inter alia*, increase of costs, compliance obligations regarding distribution requirements, information disclosure and business practices, and an impact on distribution channels.

The application of the EU Regulation on key information documents for packaged retail and insurance-based investment products could adversely affect Generali Group's business, results of operations and financial conditions

The EU Regulation No. 1286/2014 on key information documents for packaged retail and insurance-based investment products (as amended, the “**PRIIPs Regulation**”) is aimed at providing a consistent regulatory framework for ensuring that retail investors are provided with standard information included under a dedicated key information document (“**KID**”) whose format and standard has been harmonised in order to enable retail investors to understand and compare the key features and risks of the PRIIPs. The PRIIPs Regulation, as supplemented by Commission Delegated Regulation (EU) 2017/653 laying down regulatory technical standards with regard to the presentation, content, review and revision of key information documents and the conditions for fulfilling the requirement to provide such documents, was directly applicable in all EU Member States as of 1 January 2018, save for UCITS and relevant non-UCITS funds who are exempted from application until 31 December 2021. Guidelines and clarifications have been published by the European Commission and the European Supervisory Authorities (“**ESAs**”) in order to promote common supervisory approaches and practices in the implementation of the KID.

Broadly, the key information to be included under the KID which will require specific attention and, possibly, the implementation of calculating models or dedicated processes are the followings: (i) the summary risk indicator, aimed at expressing in a short and easily comprehensible way the level of risk associated with the product; (ii) the possible maximum loss of invested capital and the appropriate performance scenarios together with the connected assumptions, functional to understand the possible return of the product; (iii) the direct and indirect costs associated with the product including, to allow comparability, the total aggregate costs; (iv) the holding period, including an indication of the recommended and, where applicable, the required minimum holding period. Specific issues may arise in connection with the drafting of the KID for multi-option products considering their peculiar structure which imply that information to be considered may also refer to a very large number of underlying options.

The rules introduced by the PRIIPs framework (and potential modifications thereto following on-going and future consultation processes) are likely to have a significant effect on Generali Group as well as the European insurance market in general. Specifically, the KID and relating requirements affect the manner in which the Group conducts its businesses involving packaged retail and insurance-based investment products, and will likely result in more stringent selling practices and increase in compliance costs and obligations.

Risk related to non-compliance with the Anti-Money Laundering and Counter Terrorism Financing laws and regulations

Directive (EU) 2018/843 of the European Parliament and of the Council of 30 May 2018 on the prevention of the use of the financial system for the purposes of money laundering or terrorist financing (“**5AMLD**”) has further amended the Fourth Anti-Money Laundering Directive (2015/849/EU) (“**4AMLD**”) which introduced increased enforcement powers for supervisory authorities with the ability to impose fines on financial institutions up to 10% of total annual consolidated turnover. The 5AMLD has been implemented in Italy by Legislative Decree No. 125 of 4 October 2019, which came into effect on 10 October 2019 and amended in several significant ways certain elements of the 4AMLD, including in relation to the following areas: (i) wider scope of regulation; (ii) increased responsibility for the ultimate parent company of financial groups; (iii) broader access and establishment of a centralised national register of beneficial owners information; and (iv) enhanced due diligence for high-risk third countries. Furthermore, Commission Delegated Regulation (EU) 2019/578 of 31 January 2019 supplementing the 4AMLD introduced further limitation to European financial groups operating in third

countries whose law does not permit the implementation of group-wide policies and procedures of the 4AMLD, by requiring additional measures to mitigate money laundering and terrorist financing risks at the level of branches/subsidiaries of the group established in such third countries.

The changes introduced by the 4AMLD, as amended by the 5AMLD, and by the Italian implementing legislation are likely to have a significant impact on Assicurazioni Generali as well as the European insurance market in general, as a result of the more stringent requirements that will lead to increased costs of compliance.

Recent money laundering scandals following the implementation of the 5AMLD, involving mostly European credit institutions, have highlighted the urgent need for additional actions at EU level to enhance the effectiveness of the global fight against money laundering and terrorism financing. In response to these events and in line with the more general objective of a broader “European integration”, the European Commission presented on 7 May 2020 an “Action Plan” for an integrated Union policy relating to anti-money laundering and countering the financing of terrorism (“**AML/CFT**”), articulated on “six pillars”. In this respect, four legislative proposals have been defined (the so-called “single rule book”) and published on 20 July 2021 by the European Commission that are expected to enter into force by three years from the publication:

- a new regulation on AML/CFT, encompassing directly applicable AML/CFT rules, including a revised EU list of entities subject to AML/CFT rules (known as Obligated Entities), with the objective of addressing the fragmented implementation and application of EU AML/CFT rules;
- a regulation establishing a new EU AML/CFT Authority (“**AMLA**”) in the form of a decentralized EU regulatory agency;
- a sixth Directive on AML/CFT (“**6AMLD**”), replacing the existing 4AMLD as amended by 5AMLD; and
- a recast of the 2015 Regulation on Transfers of Funds (Regulation (EU) 2015/847) expanding traceability requirements to transfers of crypto-assets done by crypto-assets service providers.

The Generali Group is fully committed to the highest standards of AML/CFT, including the prevention, suppression and disruption of proliferation of weapons of mass destruction and its financing. Internal rules and regulations have been implemented by the Group aimed at:

- preventing all Group Entities from being misused for money laundering (“**ML**”) and terrorism financing (“**TF**”) purposes (including the prevention from being misused for the financing of the proliferation of weapons of mass destruction), by establishing and keeping updated a robust global framework with common group-wide standards;
- protecting the Group and its employees against any corporate or personal liability arising under AML/CFT laws and regulations; and
- protecting the reputation and brand of the Generali Group by minimising ML and TF risks.

Risks related to international sanctions with regard to sanctioned countries and to investigations and/or proceedings by the competent authorities

Assicurazioni Generali and the Group as a whole are firmly committed to compliance with relevant international financial and trade sanctions’ legal and regulatory requirements in jurisdictions in which they operate. In accordance with such sanction regimes, Assicurazioni Generali and the relevant Group companies must comply with financial or economic sanctions imposed by, *inter alia*, the United States of America, the European Union and the United Nations on certain countries (the “**Relevant Sanctioned**

Countries”) and on certain persons, in each case, to the extent applicable to, and does not otherwise result in a violation by, Assicurazioni Generali or the relevant Group company, of legislation of mandatory application such as Council Regulation (EC) No. 2271/96 (the “**EU Blocking Regulation**”) and implementing acts thereof. Sanctions imposed by different jurisdictions may vary in scope and, in certain cases such as sanctions imposed by the United States, have extra-territorial application. Applicable sanction regimes, in particular sanctions imposed by the United States, are subject to changes (for example, revoking u-turn transactions with a sanctioned country, reinforcing sanctions on specific regimes) that are difficult to predict and may limit the ability of Assicurazioni Generali and the Group to continue to transact and conduct business with certain clients or to maintain commercial relationships with specific counterparties, if sanctioned, and/or counterparties that are located in Relevant Sanctioned Countries. Failure to comply with applicable sanctions laws would not only constitute a breach of the relevant legal and/or regulatory requirements, but could also potentially result in significant reputational, financial and criminal damages to the Group companies, directors and senior management. As of the date of this Base Prospectus, Assicurazioni Generali and the Group have limited commercial relationships with certain counterparties connected to Relevant Sanctioned Countries which are constantly monitored by Assicurazioni Generali internally and are in any case conducted in compliance with applicable laws and regulations. See also risk factor “*Risks associated with exposure to Russia*” below.

5. Internal control risk and other business risks

Risk management policies, procedures and methods may leave the Generali Group exposed to unidentified or unanticipated risks

The Generali Group has devoted significant resources to developing policies, procedures and assessment methods to manage market, credit, liquidity and operating risks and intends to continue to do so in the future. See further Part B (*Group Risk Management System*) (pages 141-143) of the Risk Report in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus. Nonetheless, the Generali Group’s risk management techniques and strategies may not be fully effective in mitigating its risk exposure in all market environments or against all types of risks, including risks that the Generali Group fails to identify or anticipate. If existing or potential customers believe that the Generali Group’s risk management policies and procedures are inadequate, the Issuer’s revenues and profits may be negatively affected.

The Generali Group is subject to reputational risk

Reputational risk refers to potential losses arising from deterioration or a negative perception of the Generali Group among its customers and stakeholders. Within the Group’s Reputational Risk Guideline, reputational risks are mostly considered second order risks, directly referring to Environmental, Social and Governance related transactions or consequent to operational risks. The occurrence of any of the foregoing could damage the Group’s brands and reputation, lead to negative publicity and increased scrutiny by regulators as well as adversely impact perception of the Group by the market, rating agencies, customers, media and other stakeholders. These could, in turn, have an adverse effect on the Group’s performance, financial condition and prospects. See further “*Other Material Risks – Reputational, Emerging and ESG Risk*” (page 157) in Part D (*Risk Profile*) of the Risk Report contained in the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

The Generali Group may be affected by increased competition

The Italian insurance market has experienced significant changes in recent years due to the introduction of several laws and regulations as a result of the implementation of a number of insurance directives issued by the European Union (EU). As a result, direct marketing of non-life and life insurance may be carried out on a cross-border basis and therefore for insurance companies it is much easier to operate outside their home state. The development of a single European market together with the reduction of regulatory restrictions is also facilitating the growth of new distribution systems, partially replacing the traditional reliance on insurance intermediaries such as agents. Changes in the regulatory regime and consolidation in the insurance industry have also increased (and will likely increase) competitive pressure on insurance companies in the Italian market in general and in other markets in which the Group operates. There is no assurance that the Generali Group will be always able to compete successfully in the future against existing or potential competitors or that the Generali Group's business, financial condition and results of operations will not be adversely affected by increased competition.

As primarily a holding company, Assicurazioni Generali depends on the earnings and cash flows of its operating subsidiaries, which may not be sufficient to meet its debt service obligations

As primarily a holding company, Assicurazioni Generali is dependent on the earnings and cash flows of, and dividends and distributions from, its operating subsidiaries to pay expenses and to meet its debt service obligations including the payment of interests and repayment of principal on Notes issued under the Programme. Significant cash or cash equivalent balances may be held from time to time at Assicurazioni Generali's operating subsidiaries. Some of these operating subsidiaries will also have debt outstanding or may be subject to acquisition agreements that impose restrictions on such operating subsidiaries' ability to pay dividends, but these restrictions are not expected to be significant in the context of Assicurazioni Generali's overall liquidity. If earnings and cash flows of its operating subsidiaries are substantially reduced, Assicurazioni Generali may not be in a position to meet its operational needs or to meet interest payment or principal redemption obligations in respect of Notes issued under the Programme.

Risks associated with the Group's exposure to Russia

Sanctions were imposed by the United States, the European Union and Canada against Russian Federation, Russian entities or Russian individuals in 2014. In 2017 the U.S. Countering America's Adversaries Through Sanctions Act (CAATSA) introduced new financial sanctions targeting a wide range of Russian activity and requested the United States Administration to evaluate the introduction of sanctions on "*senior political figures and oligarchs in the Russian Federation*". On 6 April 2018, US Treasury designated on the SDNs list Russian oligarchs, officials and entities including, among others, Oleg Deripaska, who is a minority shareholder of the Russian insurer Ingosstrakh, in which Assicurazioni Generali has an investment stake of 38.5%. Following the start of the war in Ukraine in February 2022, governments in the United States, European Union, United Kingdom, and many other countries imposed economic sanctions on certain Russian individuals, politicians, Russian corporate entities and banking institutions. On 10 March 2022, the United Kingdom designated Oleg Deripaska as a sanctioned person, followed by the EU on 8 April 2022. Other broader sanctions have been introduced on Russia, limiting the access of Russia to the Western financial system. Generali has been closely monitoring the situation and implications for operations and financial markets.

On 3 March 2022, Generali announced: (i) that it will close its Moscow representative office; (ii) its decision to resign from positions held on the board of Ingosstrakh and as a result, Generali has no influence on operations of the Russian insurer; and (iii) its decision to wind down the business of Europe Assistance in Russia. Generali's minor exposure to the Russian market in terms of investments and insurance business is also under constant evaluation and fully compliant with all applicable sanctions;

however, any further negative impact of Russia's actions in Ukraine and of the related sanctions, export controls and similar actions or laws on the General Group (including Assicurazioni Generali) could adversely affect the Generali Group's results of operations, business and financial condition (see the risk factor "*Difficult market and economic conditions, instability in (and the United Kingdom's withdrawal from) the European Union together with the risk of potential sovereign debt credit deterioration and political conflicts, have had (or have), and may continue to have, an adverse effect on the Generali Group's results of operations, business and financial condition*" below).

Risks relating to the Cattolica transaction

Settlement of Assicurazioni Generali's tender offer for Società Cattolica di Assicurazioni S.p.A. ("**Cattolica**") took place on 5 November 2021, and taking into account the Cattolica shares already owned by Generali, Generali held, following settlement of the tender offer, 84.475% of Cattolica's share capital. Although management believes that there is a limited execution risk thanks to the strategic partnership already in place between Generali and Cattolica and Assicurazioni Generali's proven record in the management of previous industrial integrations, integrating Cattolica into the Group may take longer, be more difficult than originally envisaged, and may fail to generate the expected gains, or Generali may not be able to successfully integrate the acquired businesses or staff. In particular, there is a risk that the operating cost synergies that Generali expects to achieve from the integration of Cattolica cannot be achieved, or that there will be goodwill recognition for an amount significantly in excess of that estimated by Generali when evaluating the Offer. The Group may furthermore be exposed to significant undisclosed liabilities relating to Cattolica, and may experience difficulties in achieving the envisaged business plan objectives on the basis of which the investment decision was based. Should one or more of these risks occur, it could have a material adverse effect on the Group's business, results of operations and financial position or on the Group's ability to achieve some of its strategic objectives. See further the paragraph headed "*Recent developments – Voluntary tender offer on Cattolica*" in the "*Description of the Issuer*" section.

6. Risks relating to the market and macro-economic conditions and other emerging risks

Difficult market and economic conditions, instability in (and the United Kingdom's withdrawal from) the European Union together with the risk of potential sovereign debt credit deterioration and political conflicts, have had (or have), and may continue to have, an adverse effect on the Generali Group's results of operations, business and financial condition

The Issuer is subject to the risk of potential sovereign debt credit deterioration on the amounts of Italian and other sovereign debt obligations held in its investment portfolio. Factors such as deterioration of the economic conditions in Europe and in other parts of the world, geopolitical tensions and/or financial market volatility or a downgrading of those sovereigns to which the Generali Group is exposed could all have a negative impact on the Issuer's financial condition, results of operations or cost of risk in general. Other factors such as political crises, armed conflict involving major world powers (such as the ongoing Russia-Ukraine conflict) and other unexpected events can also cause disruption, uncertainty and volatility in global financial markets and consequently have an adverse impact on Generali's business, financial condition and results of operations.

The hostilities in Ukraine and the sanctions imposed on Russia, resulting trade restrictions, disruptions to global supply chains, and elevated energy and raw material prices in general, since the outbreak of the conflict in Ukraine have negatively affected markets and businesses worldwide. The protraction, and potential further escalation, of the conflict could result in elevated and extended periods of geopolitical instability and have a significant adverse impact on the regional and global economic environment.

Persistent market tensions might affect negatively the funding costs and economic outlook of some euro member countries. In particular, after the United Kingdom left the European Union (“**Brexit**”), there remains a number of areas of uncertainty in connection with the future of the UK and its relationship with the EU, notwithstanding the signing of the Trade and Cooperation Agreement, including in relation to ongoing negotiations between the UK and the EU regarding the Northern Ireland Protocol. Accordingly, there remains significant uncertainties with regard to the overall ultimate effects of Brexit on the economic outlook of both the United Kingdom and the European Union, and its implications on the legal rights and obligations of commercial parties across all industries and in the services sector.

The possible withdrawal from the EU of any other EU Member State could have far-reaching and unpredictable consequences for the financial markets and the real economy, resulting in, *inter alia*, financial market turbulences including a widening of spreads, which could adversely affect the Generali Group’s business and results of operations and financial position.

Furthermore, other geopolitical developments can all influence the economic outlook of Italy in particular and of the European Union in general as well as impact the local and global financial markets. Lingering market tensions as a result of adverse geopolitical developments might affect negatively the global economy and hamper the recovery of the euro area. Moreover, the premature tightening of fiscal policy by some countries might weigh on households’ disposable income and on corporate profits with negative implications for the Generali Group’s business, results and financial position. See further the subparagraph headed “*Geopolitical and Financial Instability*” (page 24) in the paragraph “*Challenges and Opportunities of the Market Context*” of the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

The insurance sector is mostly vulnerable to financial markets and the macro-economic landscape. Generali has proven to be resilient to both financial risks and credit risks. Nevertheless, financial instability and the prevailing low interest rate environment (even though rates are expected to moderately increase from current levels) still represent the key challenges for the insurance sector and Generali Group as well, in a context of increasing uncertainty such as that observed with the Covid-19 pandemic since early 2020.

Any deterioration, or delay in the recovery, of the Italian economy, and any downgrade of the Italian sovereign credit rating and its consequential impact on the financial markets, could have a material adverse effect on the Generali Group’s business, in light of the Generali Group’s significant exposure to the Italian economy. In addition, if any of the countries in which the Generali Group operates witnessed a significant deterioration in economic activity, the Generali Group’s results of operations, business and financial condition would be materially and adversely affected.

The coronavirus outbreak could adversely affect social and economic environment, financial markets as well as the Group’s operations

The coronavirus pandemic outbreak has a significant impact on the macroeconomic environment, both at present and into the near future, and new virus mutations might extend the negative fallout even further. It has resulted in unprecedented volatility as well as economic and financial disruptions in Italy and worldwide. In particular, prolonged stress in financial market conditions as a consequence of the outbreak has negatively affected market liquidity, and interventions by governments and central banks may prove ineffective or inadequate. Restrictions and quarantines introduced have led to social and economic shocks in multiple business segments, including those in which the Group operates, with potentially long-lasting effects. Containment measures may also result in business disruptions, and affect the financial conditions, of the Group’s suppliers, customers and counterparties. Regulatory authorities

may extend the moratorium measures put in place to cushion the impact of the pandemic. This could limit the ability of the Group's financial institutions to enforce debts, or capital conservation measures that prohibit the payment of dividends by the Group's subsidiaries to the parent company. All these factors may have an adverse impact on the Group's business operations, its funding and liquidity as well as the market value of its assets.

The coronavirus pandemic has had and will continue to have significant and persistent consequences for a long time to come both in the economic and social spheres. To address these consequences, extraordinary efforts were being put in place by local governments and the European Union to boost economic recovery (such as the Next Generation EU). The Generali Group has promptly implemented a series of initiatives to ensure business continuity and continues to pursue diligently its activities and to execute its strategy, and is working to significantly reduce costs in order to reduce the negative impact of the pandemic on its business and confirm its solidity. A daily monitoring process of the Group and local solvency position implemented in 2020 has allowed to provide timely and constant information on the solvency position with respect to the evolution of the financial markets resulting from the impact of the pandemic. Furthermore, the immediate implementation of remote working involving over 90% of the Group's administrative employees worldwide and forward-looking investments made over the past years in digitalisation has enabled Generali to guarantee full operating continuity and provide maximum support to its customers, in line with its ambition to be their Lifetime Partner. For a further description of the effects of the coronavirus pandemic on the Generali Group, including actions implemented in individual business segments to address these effects, see the subparagraphs headed "*Pandemics and Extreme Events*" (pages 25-28) in the paragraph "*Challenges and Opportunities of the Market Context – Pandemics and Extreme Events*" of the Management Report of the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus. See also the paragraph "*Impact of the Covid-19 pandemic*" in "*Description of the Issuer*" section below. Despite measures put in place by the Group and the resilience of the Generali 2021 strategy, the negative repercussions of the coronavirus pandemic on the global economy have had a negative impact on Generali's operating result for 2020. See further the paragraph headed "*Disclosure on the quantitative impacts of Covid-19 on the Group*" (page 70) of the Management Report of the 2020 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus. See also paragraph 51 headed "*Information about Covid-19*" (page 325) of the section "*Information on Consolidation Area and Group Companies*" in the Notes to the 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus. The extent to which the pandemic and the related economic crisis will continue to affect Generali's business, results of operation and financial condition, as well as its capital and liquidity over time, will depend on future developments, that are highly uncertain and cannot be predicted, including the scope and duration of the pandemic (affected, in turn, also by developments relating to variants of the virus and roll-out of the vaccines) and the effectiveness of the economic stimulus package put in place.

Inflation pressures become entrenched via second-round effects of higher wage demands and rising inflation expectations, potentially giving way to a prolonged inflation overshoot

The strong rebound in global demand, global supply disruptions and soaring energy and commodity prices have propelled inflation to record levels in decades in the United States as well as in Europe, even though a substantial part of this surge is likely to prove transitory. Annual inflation prints are exacerbated by base effects (depressed 2020 prices, VAT cut in Germany) and extraordinary weather and supply conditions (wind shortages, depleted gas storages) have added to pressures on oil and gas prices amid quickly recovering demand. Supply chain disruptions (especially in the microchip sector) are set to

ease with production facilities gradually being expanded while crowded global demand for goods is likely to shift towards reopening sectors, including tourism and hospitality, helping to ease price pressures in manufacturing.

Yet risks are mounting that the inflation surge will prove less transitory than thought. This holds in particular for the United States, where wage pressures are building amid persistent shortages on the labour markets and the sustained rising in house prices will likely spill over to the very relevant shelter component of consumers prices. Private demand in the United States and Europe may outpace supply for longer with consumers still sitting on a large pile of excess savings accumulated over the pandemic, also thanks to very generous fiscal support and furlough schemes. Inflation expectations are drifting up, especially in the United States and risk becoming entrenched, which could add further upside to price rises.

Uncertainties about policy responses complicate the picture further. Both the FED (the Federal Reserve System, the central bank and monetary authority of the United States) and the European Central Bank have revised their policy frameworks, which now allow for a more patient policy approach amid rising price pressures. While the European Central Bank is committed to steering inflation, high public and private leverage bears the risk of adverse market impacts from rising yields, strengthening the case for central banks to err on the side of caution before tightening monetary policy.

Structural factors add to the risks, with headwinds to globalisation (reshoring of supply chains after the pandemic and rising US/China rivalry), ‘greenflation’ (higher energy prices amid underinvested fossil fuels production and rising carbon emission taxes) and a stronger societal focus on mitigating inequality adding to structural price pressures.

This means that after more than a decade of ‘lowflation’, price pressures may overshoot central banks’ target for longer.

Higher inflation would affect insurance companies both in life and non-life, through higher yields on the one hand and higher cost of claims on the other. For what concerns life insurance, a gradual yield increase would help mitigate reducing asset-liability duration mismatches and reduce the negative spread of investment yields to guaranteed policy rates. However a stress scenario with a strong increase in bond yields and/or widening of corporate spreads could enhance policy surrenders. Notwithstanding protections against lapses (exit penalties, accumulated bonuses embedded in guarantees and tax disincentives), policyholders may surrender their policies for new ones or more appealing financial products, forcing life insurers to liquidate investments. Life insurers with longer durations and an allocation tilted more towards riskier corporate bonds could be hit the hardest by a sudden increase in yields. Non-life insurance assets too are held mainly in fixed income instruments: selling bonds and investing in newer, higher-yielding bonds will generate book losses; moreover, the ultimate values of the underlying claims are increasing, creating a mismatch between assets and liabilities, reducing insurer’s surplus. Higher-than-expected inflation has adverse effects on non-life insurers: firstly, in long-tailed lines of business future payments will be higher than expected; secondly, in the short term, if inflation is not properly incorporated in client premiums, insurers may not have sufficient funds to pay claims.

Climate change may have an impact on the Generali Group’s business

Climate change is a material risk with possibly more limited effects over the short term, however potentially catastrophic over the long term. Associated with this risk is a high degree of uncertainty in accurately determining a time frame and magnitude of the impacts, especially at the local level. The identified impacts on the Group can be classified as physical risks and transition risks (from which litigation risks might potentially emerge).

The physical risks are determined by the change or intensification of weather phenomena (including extreme natural events such as storms and cyclones, flooding, fires and a rise in sea level) which affect pricing risk and natural catastrophic risk in the Group's non-life business, impacting – conditions being equal – the number and cost of the claims and their management expenses, as well as reinsurance costs. The Group's life segment might also be affected due to worsening of the expected mortality and morbidity rates caused by (*inter alia*) intensification of the heat waves and the expansion of the habitats suitable for hosting carriers of tropical diseases. Although the Group has defined processes and tools to manage and mitigate physical risks (including monitoring the adequacy of its actuarial models to assess and rate physical risks, recourse to risk transfer mechanisms, periodical analysis of its investments, product and service innovation processes, development of partnerships in the sector to identify system solutions), these processes and tools may not be fully effective in mitigating Group's exposure in such risks or against all risks falling into this category, including risks that the Generali Group fails to identify or anticipate.

Transition risk is associated with the decarbonisation of the economy, with consequential changes in domestic and international public policies, technologies and consumer preferences which might affect the value of the Group's investments linked to activities, sectors or countries having a high carbon footprint. This risk may also manifest as reputation risk resulting from trade relations with companies of the coal sector. As a result, the policies put in place by the Group may not be fully effective in mitigating Group's exposure to transition risk or against all risks falling into this category, including risks that the Generali Group fails to identify or anticipate due to the high degree of uncertainty, such as political, social and market dynamics and technological changes.

Finally, given the relevance of the risk, Group Risk Management is leading a cross-functional "Climate Change Risk Project" with the purpose of setting a Risk Management Framework structured as a four-step approach: Identification, Measurement, Management and Reporting. The major focus during the initial steps of the project have been climate scenario selection and a scenario analysis of the corporate investment portfolio and the P&C underwriting business.

See further the paragraph headed "*Climate Change*" (pages 31-36) in the paragraph "*Challenges and Opportunities of the Market Context*" of the Management Report of 2021 Annual Integrated Report and Consolidated Financial Statements of the Generali Group, incorporated by reference in this Base Prospectus.

RISKS RELATING TO THE NOTES

1. Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common features:

Notes subject to optional redemption by the Issuer

In case the relevant Final Terms specifies that the Notes are redeemable at the option of the Issuer pursuant to Condition 8.2 (*Redemption for tax reasons*), Condition 8.3 (*Redemption at the option of the Issuer*) or Condition 8.4A (*Clean-up Call Option*) of the Senior Notes, or Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the Issuer*), Condition 10.4 (*Optional Redemption due to a Regulatory Event*), Condition 10.5 (*Optional Redemption due to a Rating Event*), Condition 10.6 (*Optional Redemption due to an Accounting Event*) or Condition 10.6A (*Clean-up Call Option*) of the Tier 2 Conditions or the Tier 3 Conditions, the Issuer may – on the relevant Optional Redemption Date (Call) or, as the case may be, upon occurrence of the relevant event – elect to exercise

such option to redeem the Notes subject to, in the case of Tier 2 Notes or Tier 3 Notes, satisfaction of the Conditions for Redemption and Purchase and any other regulatory requirements applicable to such redemption. The Issuer shall determine at its sole discretion whether or not to exercise such early redemption option and is not, under any circumstances, obliged to exercise any such early redemption option.

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, or be perceived to be likely to exercise its option to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in the light of other investments available at that time.

Redemption for tax reasons

In the event that the Issuer has or will become obliged - as a result of any change in or amendment or clarification to, the laws, regulations or other rules of the Republic of Italy or of any political subdivision or any authority thereof or therein having power to tax, or as a result of any change in, or amendment or clarification to, the application of official or generally published interpretation (or application or interpretation made for the first time) of such laws, regulations or other rules, including the publication or pronouncement of any decision or interpretation by any competent court or authority providing for a position with respect to such laws, regulations or other rules that differs from the previously generally accepted position or otherwise differs from prior written confirmation given by the competent authority in respect of tax treatment of the Notes, which change, amendment or clarification becomes effective on or after the date of issue of the relevant Notes - to pay additional amounts in respect of such Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Italy or any political subdivision thereof or any authority therein or thereof having power to tax, and such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer may redeem all outstanding Notes in accordance with the relevant Conditions.

In addition, in the case of Subordinated Notes and, if early redemption for tax non-deductibility is specified in the Final Terms of the Senior Notes, Senior Notes, in the event that interest payable by the Issuer in respect of the Notes is no longer, or will no longer be, deductible by the Issuer for Italian income tax purposes, or such deductibility is materially reduced, as a result of any change in, or amendment or clarification to, the laws or regulations or applicable accounting standards of the Republic of Italy, or any political subdivision or any authority thereof or therein having power to tax, or as a result of any change in, or amendment or clarification to, the application of official or generally published interpretation (or application or interpretation made for the first time) of such laws, regulations or applicable accounting standards, including the publication or pronouncement of any decision or interpretation by any competent court or authority providing for a position with respect to such laws, regulations or other rules that differs from the previously generally accepted position or otherwise differs from prior written confirmation given by the competent authority in respect of tax treatment of the Notes, which change, amendment or clarification becomes effective on or after the date of issue of the Notes, and such non-deductibility cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer may redeem all outstanding Notes in accordance with the relevant Conditions.

Based on Italian tax law, as currently in force, any interest on Notes issued by Assicurazioni Generali will only be deductible up to 96 per cent. when determining the taxable income of Assicurazioni Generali for corporate income tax purposes. See also the risk factor headed “*Notes subject to optional redemption by the Issuer*”.

Redemption due to other reasons

If specified as being applicable in the relevant Final Terms, if the Issuer determines that a Rating Event, an Accounting Event or a Regulatory Event (each as defined in the relevant Terms and Conditions) has occurred, the Issuer may redeem all relevant outstanding Notes in accordance with the relevant Conditions.

In the event that the Notes are redeemed due to a Rating Event, an Accounting Event or a Regulatory Event, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes. See also the risk factor headed “*Notes subject to optional redemption by the Issuer*”.

SONIA Linked Interest Notes, SOFR Linked Notes, CMS Linked Interest Notes and €STR Notes

The Issuer may issue Notes with interest determined by reference to SONIA, the SOFR, the CMS Rate and €STR which determine the amount of interest (each, a “**relevant factor**”). Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) a relevant factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; and
- (iv) the timing of changes in a relevant factor may affect the actual yield to investors, even if the average level is consistent with their expectations.

EU reform of “benchmarks” (including EURIBOR and other interest rate index and equity, commodity and foreign exchange rate indices)

The Euro Interbank Offered Rate (“**EURIBOR**”) and other indices which are deemed “**benchmarks**” (“**Benchmarks**”) are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence or any other consequential changes to Benchmarks as a result of EU, UK, or any other proposals for reform or other initiatives or investigations, or any further uncertainty in relation to the timing and manner of implementation of such changes could have a material adverse effect on any Notes linked to a Benchmark.

Key international reforms of Benchmarks include IOSCO’s proposed Principles for Financial Benchmarks (July 2013) (the “**IOSCO Benchmark Principles**”) and the EU Benchmark Regulation. The UK Benchmark Regulation applies to the provision of Benchmarks and the use of a Benchmark in the UK. Similarly it prohibits the use in the UK by UK supervised entities of Benchmarks of administrators that are not authorised by the UK Financial Conduct Authority (the “**FCA**”) or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The IOSCO Benchmark Principles aim to create an overarching framework of principles for Benchmarks to be used in financial markets, specifically covering governance and accountability, as

well as the quality and transparency of Benchmark design and methodologies. A review published in February 2015 on the status of the voluntary market adoption of the IOSCO Benchmark Principles noted that, as the Benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future, but that it is too early to determine what those steps should be. The review noted that there has been a significant market reaction to the publication of the IOSCO Benchmark Principles, and widespread efforts being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed.

On 17 May 2016, the Council of the European Union adopted the EU Benchmark Regulation. The EU Benchmark Regulation was published in the Official Journal on 29 June 2016 and entered into force on 30 June 2016. Subject to various transitional provisions, the EU Benchmark Regulation applies from 1 January 2018, except that the regime for “critical” Benchmark has applied from 30 June 2016 and certain amendments to Regulation (EU) No 596/2014 (the “**Market Abuse Regulation**”) have applied from 3 July 2016. Subject to the transitional provisions set out in Article 51 of the EU Benchmark Regulation, the EU Benchmark Regulation would apply to “contributors”, “administrators” and “users of” Benchmarks in the EU, and would, among other things, (i) require Benchmark administrators to be authorised (or, if non-EU-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of Benchmarks and (ii) ban the use of Benchmarks of unauthorised administrators. The scope of the EU Benchmark Regulation is wide and, in addition to applying to so-called “critical benchmark” indices such as EURIBOR, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including “proprietary” indices or strategies) which are referenced in listed financial instruments (including listed Notes), financial contracts and investment funds. The transitional period under the EU Benchmark Regulation has been extended for two years for critical benchmarks and third country benchmarks by Regulation (EU) 2019/2089 of 27 November 2019. Accordingly, providers of critical benchmarks (such as EURIBOR) have until 31 December 2023 to comply with the new EU Benchmark Regulation requirements.

The EU Benchmark Regulation and/or the UK Benchmarks Regulation, as applicable, could also have a material impact on any listed Notes linked to an index based on a Benchmark, including in any of the following circumstances: (i) an index which is a Benchmark may not be used as such if its administrator does not obtain appropriate EU/UK authorisations or is based in a non-EU/UK jurisdiction, as applicable, which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be adjusted or otherwise impacted; (ii) the methodology or other terms of the Benchmark related to a series of Notes could be changed in order to comply with the terms of the EU Benchmark Regulation and/or UK Benchmarks Regulation, and such changes could have the effect of reducing or increasing the rate or level of the Benchmark or of affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Notes.

Workstreams have been developed in Europe over recent years to reform EURIBOR using a hybrid methodology and to provide fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended €STR as the new risk-free rate. €STR was published by the European Central Bank (the “**ECB**”) on 2 October 2019. In addition, on 21 January 2019, the euro risk-free rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds) and on 6 November 2019 such working group issued high-level recommendations for fallback provisions in contracts referencing EURIBOR, which include a

recommendation that market participants incorporate fallback provisions in all new financial instruments and contracts referencing EURIBOR.

Furthermore, in order to address systemic risk, on 2 February 2021 the Council of the European Union approved the final text of the Regulation (EU) 2021/168 amending the Regulation (EU) 2016/1011 as regards the exemption of certain third-country spot foreign exchange Benchmarks and the designation of replacements for certain Benchmarks in cessation, and amending Regulation (EU) No 648/2012. The new framework delegates the European Commission to designate a replacement for Benchmarks qualified as critical under the Regulation 2016/2011, where the cessation or wind-down of such a Benchmark might significantly disrupt the functioning of financial markets within the European Union. In particular, the designation of a replacement for a Benchmark should apply to any contract and any financial instrument as defined in MiFID II that is subject to the law of a relevant state. In addition, with respect to supervised entities, Regulation (EU) 2021/168 extends the transitional period for the use of third-country Benchmarks until 2023 and the Commission may further extend this period until 2025 by a delegated act to be passed before 15 July 2023. On 10 February 2021 the Council of the European Union adopted the Regulation (EU) 2021/168 that was published in the Official Journal on 12 February 2021 and entered into force on the following day.

Any of the international, national or other reforms (or proposals for reform) or the general increased regulatory scrutiny of Benchmarks could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks.

As at the date of this Base Prospectus, the European Money Markets Institute appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to article 36 of the EU Benchmark Regulation.

Investors should be aware that if a Benchmark were discontinued or otherwise unavailable, the rate of interest on Reset Notes and Floating Rate Notes which are linked to or which reference such Benchmark will be determined for the relevant period in accordance with the fall-back provisions applicable to such Notes. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

The “*Terms and Conditions of the Senior Notes*”, the “*Terms and Conditions of the Tier 2 Notes*” and the “*Terms and Conditions of the Tier 3 Notes*” provide for certain fallback arrangements in the event that a published Benchmark, including an inter-bank offered rate such as EURIBOR or other relevant reference rates (including, without limitation, mid-swap rates), or any page on which such Benchmark may be published (or any successor service) becomes unavailable. In certain circumstances the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page or, in the case of Fixed Rate Reset Notes, the application of the Reset Rate for a preceding Reset Period or, in the case of Fixed Rate Reset Notes or Fixed-to-Floating Rate Notes, the application of the initial Rate of Interest applicable to such Notes on the Interest Commencement Date or (in the case of Fixed Rate Reset Notes), as applicable, the sum of the relevant Margin and the Reference Rate that most recently appeared on the Relevant Screen Page. The relevant Terms and Conditions furthermore provide for certain fallback arrangements in case a Benchmark Event otherwise occurs, including the possibility that the rate of interest could be set by reference to a successor rate or an alternative reference rate and

that such successor rate or alternative reference rate may be adjusted (if required) in order to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of the relevant Benchmark, all as determined by the Issuer (acting in good faith and in consultation with an Independent Adviser). However, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

In addition, pursuant to Condition 6.4 of the “Terms and Conditions of the Senior Notes”, Condition 8.4 of the “Terms and Conditions of the Tier 2 Notes” and Condition 8.4 of the “Terms and Conditions of the Tier 3 Notes”, if a successor rate, alternative rate or adjustment spread is to be applied following the occurrence of a Benchmark Event, certain changes may be made to the interest calculation provisions of the Floating Rate Notes or Fixed Rate Reset Notes without the requirement for consent of the Noteholders, if the Issuer - following consultation with the Independent Adviser and acting in good faith - determines that such amendments are necessary to ensure the proper operation of the successor rate, alternative rate and/or adjustment spread, save where, in the case of Subordinated Notes, such amendments could reasonably be expected to prejudice the qualification of the relevant Notes as Tier 2 Notes or, as the case may be, Tier 3 Notes.

The market continues to develop in relation to risk free rates (including overnight rates) as a reference rate for Floating Rate Notes

Investors should be aware that the market continues to develop in relation to risk free rates, such as SONIA, SOFR and €STR as a reference rate in the capital markets for sterling, U.S. Dollar and Euro bonds, respectively, and their adoption as alternatives to the relevant interbank offered rates. In particular, market participants and relevant working groups are exploring alternative reference rates based on risk free rates, including term SONIA, SOFR and €STR reference rates (which seek to measure the market’s forward expectation of an average SONIA, SOFR or €STR rate over a designated term).

The market, or a significant part thereof, may adopt an application of risk free rates that differs (also significantly) from that set out in the Conditions and used in relation to Notes referenced to a reference rate under the Programme.

Interest on Notes which reference certain risk free rates is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference such risk free rate to reliably estimate the amount of interest which will be payable on such Notes. Furthermore, if the Notes become due and payable or are otherwise redeemed early on a date other than an Interest Payment Date, the Rate of Interest payable for the final Interest Period in respect of such Notes shall only be determined immediately prior to the date the Notes became due and payable and shall not be reset thereafter.

Since risk free rates are relatively new in the market, Notes linked to such rates may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities linked to SONIA, SOFR, €STR and/or any other risk free rate, such as the spread over the rate reflected in interest rate provisions, may evolve over time, and trading prices of any Notes linked to SONIA, SOFR, €STR and/or any other risk free rate may be lower than those of later-issued debt securities linked to the same rate as a result.

Investors should consider these matters when making their investment decision with respect to any such Floating Rate Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Reset Notes

Reset Notes will initially earn interest at the Initial Rate of Interest until (but excluding) the Reset Date (or, if there is more than one Reset Period, the first Reset Date). On the first Reset Date and on each subsequent Reset Date (if any) thereafter, the interest rate will be reset to the sum of the applicable Reset Reference Rate and the applicable Reset Margin (the "**Reset Rate**"), which could be less than the Initial Rate of Interest or the Reset Rate for prior Reset Periods, and could affect the market value of an investment in the Reset Notes.

Maximum/Minimum Rate of Interest

To the extent that a Minimum Rate of Interest applies, investors should consider that where the interest rate does not rise above the level of Minimum Rate of Interest, comparable investments in notes which pay interest based on a fixed rate which is higher than the Minimum Rate of Interest are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes might find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount.

To the extent that a Maximum Rate of Interest applies, investors should be aware that the Rate of Interest is capped at such Maximum Rate of Interest level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Special provisions relating to Subordinated Notes

If the Issuer is declared insolvent and a winding up is initiated, before it can make any payments on Subordinated Notes, it will be required to pay in full the holders of senior debt and meet its obligations to all its other unsubordinated creditors (including unsecured creditors) as well as any other subordinated creditors whose claims rank higher than the relevant Subordinated Notes. If this occurs, the Issuer may not have enough assets remaining after these payments to pay amounts due under the relevant Subordinated Notes. See further Condition 4 (*Status of the Notes*) of the Tier 3 Conditions and Condition 4.1 (*Status – Senior Dated Subordinated Notes*) and Condition 4.2 (*Status – Deeply Subordinated Notes*) of the Tier 2 Conditions.

In addition, Subordinated Notes are subject to special provisions, driven by regulatory capital requirements, which require the Issuer to defer payments to Noteholders of interest. See further

Condition 5.1 (*Mandatory Deferral of Interest*) of the Tier 3 Conditions and Condition 5.2 (*Mandatory Deferral of Interest*) of the Tier 2 Conditions. In the case of Tier 2 Notes, if the relevant Final Terms specify Optional Deferral of Interest as being applicable, such Notes will be furthermore subject to special provisions as set out in Condition 5.1 (*Optional Deferral of Interest*) of the Tier 2 Conditions, which entitle the Issuer to defer interest payments to Noteholders in the circumstances specified therein. As a result, any deferral of interest payments, or perception that the Issuer will exercise its deferral right, will likely have an adverse effect on the market price of the Notes. In addition, as a result of the interest deferral provisions of the Notes, the market price of the Notes may be more volatile than the market prices of other debt securities on which original issue discount or interest accrues that are not subject to such deferrals and may be more sensitive generally to adverse changes in the financial condition of the Issuer.

Furthermore, the redemption of Subordinated Notes is subject to the satisfaction of the Conditions for Redemption and Purchase, and the Conditions provide that the scheduled maturity date of Subordinated Notes with a specified maturity date or, in the case of an optional redemption of the Subordinated Notes, the relevant Optional Redemption Date, shall be postponed if the Conditions for Redemption and Purchase are not satisfied: see further Condition 6 (*Conditions for Redemption*), Condition 10.1 (*Redemption and Purchase - Redemption*), Condition 10.10 (*Redemption and Purchase - Postponement of optional redemption dates*) and Condition 10.11 (*Redemption and Purchase - Waiver of Redemption Suspension*) of the Tier 2 Conditions and Condition 6 (*Conditions for Redemption*), Condition 10.1 (*Redemption and Purchase - Scheduled redemption*), Condition 10.10 (*Redemption and Purchase - Postponement of optional redemption dates*) and Condition 10.11 (*Redemption and Purchase - Waiver of Redemption Suspension*) of the Tier 3 Conditions.

To the extent required under the Applicable Regulations in order for the Notes to be treated as regulatory capital, the Conditions for Redemption and Purchase will relate also to whether any insurance or reinsurance undertaking included in the scope of group supervision is in an insolvent winding-up at that time (see further sub-(iii) of the definition of “Conditions for Redemption and Purchase” set out in Condition 2 (*Interpretation*) of the Tier 2 Conditions and the Tier 3 Conditions). Where Optional Redemption due to a Regulatory Event is stated as being applicable in the relevant Final Terms, the Issuer has the right to redeem the Subordinated Notes early in the circumstances described, and subject to the conditions set forth, in Condition 10.4 (*Redemption and Purchase - Optional Redemption due to a Regulatory Event*) of the Tier 2 Conditions and the Tier 3 Conditions.

The subordination level of Senior Dated Subordinated Notes issued under the Tier 2 Conditions vis-à-vis More Senior Dated Subordinated Notes issued under the Tier 3 Conditions may vary

The More Senior Dated Subordinated Notes issued by Assicurazioni Generali under Condition 4.1 (*Status of More Senior Dated Subordinated Notes of Assicurazioni Generali*) of the Tier 3 Conditions rank (A) for so long as any Relevant Existing Indebtedness is outstanding, (x) *pari passu* with such Relevant Existing Indebtedness, and (y) at least *pari passu* with Senior Dated Subordinated Notes of Assicurazioni Generali (other than, for clarity, Relevant Existing Indebtedness); and (B) provided that no Relevant Existing Indebtedness is outstanding, senior to Senior Dated Subordinated Notes of Assicurazioni Generali.

The Senior Dated Subordinated Notes issued by Assicurazioni Generali under Condition 4.1 (*Status of Senior Dated Subordinated Notes of Assicurazioni Generali*) of the Tier 2 Conditions rank (A) for so long as any Relevant Existing Indebtedness is outstanding, *pari passu* with (x) such Relevant Existing Indebtedness, and (y) More Senior Dated Subordinated Notes of Assicurazioni Generali; and (B)

provided that no Relevant Existing Indebtedness is outstanding, junior to More Senior Dated Subordinated Notes of Assicurazioni Generali.

“**Relevant Existing Indebtedness**” is defined in the Tier 3 Conditions and the Tier 2 Conditions as “the following Dated Subordinated Obligations of Assicurazioni Generali if and for so long as their terms and conditions do not permit the Issuer to issue subordinated obligations ranking senior thereto:

- €750,000,000 Fixed/Floating Rate Notes due July 2042 (XS0802638642) issued in July 2012 (first call July 2022), in a principal amount outstanding of €301,600,000;
- €1,250,000,000 Fixed/Floating Rate Notes due December 2042 (XS0863907522) issued in December 2012 (first call December 2022), in a principal amount outstanding of €467,600,000;
- €1,000,000,000 Senior Dated Subordinated Notes due May 2026 (XS1062900912) issued in May 2014, in a principal amount outstanding of €1,000,000,000;
- €1,250,000,000 Fixed/Floating Rate Senior Dated Subordinated Notes due October 2047 (XS1311440082) issued in October 2015 (first call October 2027), in a principal amount outstanding of €1,250,000,000; and
- €850,000,000 Fixed/Floating Senior Dated Subordinated Notes due June 2048 (XS1428773763) issued in June 2016 (first call June 2028), in a principal amount outstanding of €850,000,000,

in each case, as at 25 May 2022”.

As a result, the subordination level of the Senior Dated Subordinated Notes issued under the Tier 2 Conditions and the subordination level of the More Senior Dated Subordinated Notes issued under the Tier 3 Conditions may vary, as for as long as there is any Relevant Existing Indebtedness outstanding, the Senior Dated Subordinated Notes will rank equally to the More Senior Dated Subordinated Notes, however, once no Relevant Existing Indebtedness is outstanding, the Senior Dated Subordinated Notes will subsequently rank junior to the More Senior Dated Subordinated Notes.

The Notes may not be a suitable investment for all investors seeking exposure to sustainable assets, including “green” or “sustainable” bonds” and “social bonds”

The Final Terms relating to any specific Tranche of Senior Notes, Tier 2 Notes or, as the case may be, Tier 3 Notes may provide that it will be the Issuer’s intention to apply an amount equal to the net proceeds of those Notes specifically to finance and/or refinance Eligible Green Assets (as defined in the section “*Use of Proceeds*”), Eligible Social Assets (as defined in the section “*Use of Proceeds*” and together with Eligible Green Assets, “**Eligible Assets**”) or a mix of Eligible Green Assets and Eligible Social Assets (respectively, “**Green Bonds**”, “**Social Bonds**” and “**Sustainability Bonds**”), in each case, that satisfy the relevant criteria set out in the Issuer’s Sustainability Bond Framework (as defined in the section “*Use of Proceeds*”).

Prospective investors should determine for themselves the relevance of such information for the purpose of any investment in such Green Bonds, Sustainability Bonds or Social Bonds together with any other investigation such investor deems necessary. Any such Green Bonds, Sustainability Bonds or Social Bonds constituting Tier 2 Capital or Tier 3 Capital will be fully subject to the application of the Tier 2 Capital Requirements or, as the case may be, Tier 3 Capital Requirements, and proceeds from such bonds shall cover all losses in the balance sheet of the Issuer regardless of their “green”, “sustainable” or “social” label.

In connection with the issue of Green Bonds, Sustainability Bonds or Social Bonds under the Programme, the Issuer may request a sustainability rating agency or sustainability consulting firm to

issue an independent opinion (“**Opinion**”) confirming that the Green Bonds, the Social Bonds or, as the case may be, the Sustainability Bonds and the relevant Eligible Assets are in compliance with the International Capital Market Association (“**ICMA**”) Green Bond Principles, Social Bond Principles or, as the case may be, Sustainability Bond Guidelines. The ICMA Green Bond Principles, the ICMA Social Bond Principles and the ICMA Sustainability Bond Guidelines are a set of voluntary guidelines that recommend transparency and disclosure and promote integrity in the development of the green/social/sustainability bond market.

If an Opinion is issued, such an Opinion is not incorporated into and does not form part of this Base Prospectus. Further, the Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed here and other factors that may affect the value of the Green Bonds, the Social Bonds or the Sustainability Bonds, as the case may be.

Moreover, the Opinion providers and providers of similar opinions and certifications are not currently subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer, any member of the Generali Group, the Dealers, any Opinion providers or any other person to buy, sell or hold Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds. Noteholders have no recourse against the Issuer, any of the Dealers or the provider of any such opinion or certification for the contents of any such opinion or certification, which is only current as at the date it was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in the Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds. While it is the intention of the Issuer to apply an amount equal to the net proceeds of any Notes specified in the applicable Final Terms as Green Bonds, Social Bonds or Sustainability Bonds to finance and/or refinance Eligible Green Assets and/or, as the case may be, Eligible Social Assets, there can be no assurance that any the (re)financing in the relevant Eligible Assets will be capable of being implemented in or substantially in the intended manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally disbursed for the specified Eligible Green Assets and/or, as the case may be, Eligible Social Assets. Nor can there be any assurance that such Eligible Green Assets and/or, as the case may be, Eligible Social Assets will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment or social or sustainability projects) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an event of default under the Notes. Any such event or failure to apply the proceeds of any issue of Notes for any Eligible Green Assets and/or Eligible Social Assets as aforesaid, and/or any withdrawal of any such opinion or certification or any such opinion or certification attesting that the Generali Group is not complying in whole or in part with any matters for which such opinion or certification is opining on or certifying on may have a material adverse effect on the value of the Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Even if an Opinion is obtained in respect of any series of Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds, however, whilst any issue of Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds will be made in accordance with the ICMA Green Bond Principles, the ICMA Social Bond Principles and the ICMA Sustainability Bond Guidelines, respectively, as there is currently no clearly-defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a “green”, “social” or, as the case may be, “sustainable” or equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as “green”, “social” or, as the case may be, “sustainable”, no assurance is or can be given to investors by the Issuer, any other member

of the Generali Group, the Dealers, any Opinion providers that the Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds will meet any or all investor expectations regarding the Green Bonds, Social Bonds or, as the case may be, Sustainability Bonds or the Generali Group's targets qualifying as “green”, “social” or, as the case may be, “sustainable”, or that any adverse other impacts will not occur in connection with the Generali Group striving to achieve such targets.

A basis for the determination of the definitions of “green”, “sustainable” and “sustainability-linked” has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 (the “**Sustainable Finance Taxonomy Regulation**”) on the establishment of a framework to facilitate sustainable investment (the “**EU Sustainable Finance Taxonomy**”) and the final social taxonomy report on transition activities for the EU Sustainable Finance Taxonomy which was published by the Platform on Sustainable Finance on 28 February 2022. On 21 April 2021, the European Commission adopted the EU Taxonomy Climate Delegated Act, introducing the first set of technical screening criteria to define which activities contribute substantially to two of the environmental objectives under the EU Sustainable Finance Taxonomy: climate change adaptation and climate change mitigation (the “**Taxonomy Climate Delegated Act**”). The Taxonomy Climate Delegated Act entered into force on 1 January 2022. In addition, on 10 March 2022 the European Commission adopted the EU taxonomy Complementary Climate Delegated Act covering certain nuclear and gas activities, which is expected to enter into force in the coming months. Furthermore, on 6 April 2022 the European Commission adopted the Regulatory Technical Standards (RTS) to Regulation (EU) 2019/2088 (the “**Sustainable Finance Disclosure Regulation**”) which is expected to apply from 1 January 2023. Any further delegated act that is adopted by the EU Commission in implementation of the Sustainable Finance Taxonomy Regulation or the Sustainable Finance Disclosure Regulation may furthermore evolve over time with changes to the scope of activities and other amendments to reflect technological progress, resulting in regular review to the relating screening criteria. Accordingly, there can be no guarantee that the Eligible Assets financed and/or refinanced by the Issuer out of the proceeds of the Green Bonds, Social Bonds or Sustainability Bonds will fully align at all times with the EU Sustainable Finance Taxonomy or the Sustainable Finance Disclosure Regulation and the technical screening criteria established by the implementing delegated acts, as and when introduced and applicable from time to time.

Furthermore, if Green Bonds, Social Bonds or Sustainability Bonds are listed, displayed on or admitted to trading on any dedicated “green”, “social”, “sustainable” or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), including without limitation, the LGX, no representation or assurance is given by the Issuer, the Dealers or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Eligible Assets or the funding thereof by the Issuer. Additionally, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Furthermore, no representation or assurance is given or made by the Issuer, the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any Green Bonds, Social Bonds or Sustainability Bonds or, if obtained, that any such listing or admission to trading will be maintained during the life of such Green Bonds, Social Bonds or Sustainability Bonds. The criteria for acceptance onto any such market may change from time to time. In the event of any actual or anticipated removal of the Notes from any such market, or if access to any such market is sought and

refused, that could have a material adverse effect on the market price of any Green Bonds, Social Bonds or Sustainability Bonds.

Any of the aforementioned events could potentially affect the value of the relevant Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

No Events of Default

While it is the intention of the Issuer to apply an amount equal to the net proceeds of any Green Bonds, Social Bonds or Sustainability Bonds on a targeted basis for the purposes of financing and/or refinancing Eligible Green Assets and/or Eligible Social Assets (together, “**Eligible Assets**”), there can be no assurance that the project(s) or use(s) the subject of, or related to, any Eligible Assets will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such amounts will be totally or partially disbursed for such Eligible Assets. Nor can there be any assurance that such Eligible Assets will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer.

Any such event or failure by the Issuer to apply an amount equal to the net proceeds of any issue of Green Bonds, Social Bonds or Sustainability Bonds to finance and/or refinance any Eligible Assets and/or any withdrawal of any opinion or certification attesting that the Issuer is or is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any Green Bonds, Social Bonds or Sustainability Bonds no longer being listed or admitted to trading or displayed on any stock exchange or securities market, will not (i) give rise to any claim of a Noteholder against the Issuer (or the Arranger or any Dealer), (ii) constitute an Event of Default under any Green Bonds, Social Bonds or Sustainability Bonds or a breach or violation of any term thereof, or constitute a default by the Issuer for any other purpose or (iii) lead to a right or obligation of the Issuer to redeem any Green Bonds, Social Bonds or Sustainability Bonds or give any Noteholder the right to require redemption of its Notes.

Modification, waivers and substitution

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. Condition 15.4 (*Meetings of Noteholders; Modification and Waiver; Substitution – Substitution*) of the Senior Conditions and Condition 17.5 (*Meetings of Noteholders; Modification and Waiver; Modification and/or exchange following a Regulatory Event, Tax Event or Rating Event; Substitution – Substitution*) of the Tier 2 Conditions and the Tier 3 Conditions, also each provide – with reference to Notes whose Final Terms specify that the Substitution Provisions are applicable - that any duly incorporated Subsidiary of Assicurazioni Generali in good standing under the laws of its jurisdiction may, without the consent of the Noteholders, but with the prior written approval of Assicurazioni Generali, assume liability as the principal debtor in respect of the Notes, subject to the terms and conditions set out therein.

Variation of the terms and conditions of Subordinated Notes or Exchange of Subordinated Notes for Qualifying Securities

In relation to any series of Subordinated Notes, if the relevant Final Terms specify that the Regulatory/Tax/Rating/Accounting Event Modification Provisions or the

Regulatory/Tax/Rating/Accounting Event Exchange Provisions are applicable, then the Issuer may in certain circumstances modify the terms and conditions of such Subordinated Notes or, as applicable, exchange such Subordinated Notes for Qualifying Securities, without any requirement for the consent or approval of the Noteholders to the extent that such modification is reasonably necessary to ensure that no Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event would exist after such modification or would exist in relation to Qualifying Securities, provided that the relevant conditions set forth in Condition 17.4 (*Modification and/or Exchange following a Regulatory Event, Tax Event, Rating Event or Accounting Event*) of the Tier 2 Conditions and the Tier 3 Conditions are satisfied. As a result, there can be no assurance that such modification or exchange may not have an adverse impact on the price of, and/or the market for, the Notes or the circumstances of the individual Noteholders.

Risk relating to the governing law of the Notes

With reference to those Notes that are stated in the relevant Final Terms to be governed by Italian law, the relevant Conditions provide they shall be governed by, and construed in accordance with, Italian law. The Global Notes representing such Notes provide that all contractual and non-contractual obligations arising out of or in connection with the Global Notes representing such Notes are governed by Italian law, save for the form and transferability of the Global Notes which are governed by English law. Furthermore, the Temporary Global Notes and the Permanent Global Notes representing such Notes will be signed by the Issuer in the United Kingdom and hence the Notes would be deemed to be issued in England according to Italian law. Article 59 of Law No. 218 of 31 May 1995 (regarding the Italian international private law rules) provides that “other debt securities (*titoli di credito*) are governed by the law of the State in which the security was issued”.

In light of the foregoing, with reference to those Notes that are stated in the relevant Final Terms to be governed by Italian law, the Issuer cannot foresee the effect of any potential misalignment between the laws applicable to the Conditions and the Global Notes and the laws applicable to their transfer and circulation for any prospective investors in the Notes, and of any disputes which may arise in relation to (*inter alia*) the transfer of ownership in the Notes.

Potential conflict of interest of a Dealer acting as Calculation Agent

The Issuer may appoint a Dealer as Calculation Agent in respect of an issuance of Notes under the Programme. In such a case the Calculation Agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a Calculation Agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

2. Risks related to the market

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been

structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency equivalent value of the principal payable on the Notes and (iii) the Investor's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Notes where denominations involve integral multiples; definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination. If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

¹ Excluding the last paragraph commencing “*The Group confirms its commitment to pursue sustainable growth...*” on page 7 of the press release, which is not incorporated by reference in this Base Prospectus.

The non-incorporated parts of documents listed above are either not relevant for investors or covered elsewhere in this Base Prospectus and are not incorporated by reference in this Base Prospectus and shall not form part of this Base Prospectus. The information incorporated by reference that is not included in the cross-reference lists above is not incorporated by reference in this Base Prospectus and shall not form part of this Base Prospectus.

FINAL TERMS AND DRAWDOWN PROSPECTUS

In this section the expression “necessary information” means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer, and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Issuer has endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained either in the relevant Final Terms or in a Drawdown Prospectus. Such information will be contained in the relevant Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, will be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of relevant Final Terms, those relevant Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of relevant Final Terms are the Conditions as completed by the relevant Final Terms.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the relevant Notes or (2) by a registration document (the “**Registration Document**”) containing the necessary information relating to the Issuer, a securities note (the “**Securities Note**”) containing the necessary information relating to the relevant Notes and, if necessary, a summary note. In addition, if the Drawdown Prospectus is constituted by a Registration Document and a Securities Note, any significant new factor, material mistake or inaccuracy relating to the information included in the Registration Document which arises or is noted between the date of the Registration Document and the date of the Securities Note which is capable of affecting the assessment of the relevant Notes will be included in the Securities Note.

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest coupons, or a permanent global note (the “**Permanent Global Note**”), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is not intended to be issued in new global note (“**NGN**”) form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking, S.A., Luxembourg (“**Clearstream, Luxembourg**”) and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006, the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether Notes may be issued in circumstances so that United States Treasury Regulations §1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for the purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”)) (“**TEFRA D**”) will be applicable or whether TEFRA will not be applicable in relation to the Notes.

When Notes issued under the Programme are represented by one or more Global Notes, such Global Notes will be deposited with a common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg. While the Notes are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Temporary Global Note exchangeable for Permanent Global Note

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and

- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership, within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; *provided, however*, that in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies “in the limited circumstances described in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 11 (*Events of Default*) of the Senior Conditions or Condition 13 (*Events of Default*) of the Tier 2 Conditions or the Tier 3 Conditions, as the case may be, occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that TEFRA is not applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note” and also specifies that TEFRA D will be applicable, the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specifies “in the limited circumstances described in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 11 (*Events of Default*) of the Senior Conditions or Condition 13 (*Events of Default*) of the Tier 2 Conditions or the Tier 3 Conditions, as the case may be, occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “Terms and Conditions of the Senior Notes”, “Terms and Conditions of the Tier 2 Notes” or “Terms and Conditions of the Tier 3 Notes”, as the case may be, below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under “Overview of Provisions Relating to the Notes while in Global Form” below.

- (b) if Option B is indicated in the Final Terms, the Reset Rate shall be the Reset Reference Rate that most recently appeared on the Reset Rate Screen Page plus or minus (as appropriate) the applicable Reset Margin (if any), as determined by the Calculation Agent.

For the purpose of this Condition 6.2.4, “**Reference Banks**” means four (or, if the Principal Financial Centre is Helsinki, five) major banks selected by the Issuer or the Independent Adviser in the swap, money, securities or other market most closely connected with the Reset Reference Rate and “**Independent Adviser**” means an independent financial institution of international repute or an independent adviser of recognised standing with appropriate expertise appointed by the Issuer at its own expense for the purpose of this Condition 6.2.4.

- 6.2.5 **Calculation of Interest Amount:** The Calculation Agent will calculate the Interest Amount payable on the Reset Notes for each relevant period (in the case of Interest Periods falling after the Reset Date, as soon as practicable after the time at which the Reset Reference Rate is to be determined in relation to such Reset Interest Period) by applying the Initial Rate of Interest or the applicable Reset Rate (as the case may be) to the Calculation Amount and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Note comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.
- 6.2.6 **Publication:** The Calculation Agent will cause the Reset Rate and each Interest Amount for each Reset Period to be notified to the Issuer, the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders.
- 6.2.7 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

Condition 6.3 is applicable to the Notes (a) if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable; and (b) if the Fixed-Floating Rate Note Provisions are specified in the

relevant Final Terms as being applicable, in respect of those Interest Periods for which the Floating Rate Note Provisions are stated to apply.

6.3 Interest on Floating Rate Notes

6.3.1 **Accrual of interest:** The Notes bear interest from the Interest Commencement Date (or the applicable Interest Payment Date) at the Rate(s) of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

6.3.2 Rate of Interest

(a) Screen Rate Determination:

A. *Floating Rate Notes other than SONIA Linked Interest Notes, SOFR, CMS Linked Interest Notes or €STR Notes*

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a

period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

B. *Floating Rate Notes which are SONIA Linked Interest Notes*

Where the Reference Rate is specified as being SONIA, the Rate of Interest for each Interest Period will be, subject to Condition 6.4 (*Benchmark discontinuation*), Compounded Daily SONIA with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below.

For the purposes of this sub-paragraph B:

“**Compounded Daily SONIA**” means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the third decimal place, with 0.0005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Period;

“**d₀**” is the number of London Banking Days in the relevant Interest Period;

“**Observation Period**” means, in respect of each Interest Period, the period from and including the date falling “p” London Banking Days prior to the first day of the relevant Interest Period and ending on, but excluding, the date falling “p” London Banking Days prior to the end of such Interest Period (or the date falling “p” London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

“**p**” means for any Interest Period, the number of London Banking Days included in the Observation Period, as specified in the applicable Final Terms;

the “**SONIA reference rate**”, in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day); and

“**SONIA_{i-pLBD}**” means, in respect of any London Banking Day falling in the relevant Observation Period, the SONIA reference rate for the London Banking Day falling “p” London Banking Days prior to the relevant London Banking Day “i”.

If in respect of any London Banking Day in the relevant Observation Period, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) determines that the applicable SONIA reference rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, the SONIA reference rate in respect of such London Banking Day shall be: (A) (i) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on such London Banking Day; plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five days on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate, or (B) if such Bank Rate is not available, the SONIA reference rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA reference rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Where the SONIA reference rate is being determined in accordance with the paragraph above, in the event the Bank of England publishes guidance as to (i) how the SONIA reference rate is to be determined; or (ii) any rate that is to replace the SONIA reference rate, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA reference rate for any London Banking Day “i” for the purpose of the relevant Series of Notes for so long as the SONIA reference rate is not available or has not been published by the authorised distributors.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms), subject to Condition 6.4 (*Benchmark discontinuation*), the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to that last preceding Interest Period); or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (including applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

If the relevant Series of Notes become due and payable in accordance with Condition 11 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date

specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Notes remain outstanding, be that determined on such date.

C. *Floating Rate Notes which are SOFR Linked Interest Notes*

Where the Reference Rate is specified as being the SOFR, the Rate of Interest for each Interest Period will be, subject to Condition 6.4 (*Benchmark discontinuation*), USD-SOFR-COMPOUND with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below.

For the purposes of this sub-paragraph C:

“**SOFR Index Cessation Event**” means the occurrence of one or more of the following events:

- (a) a public statement by the Federal Reserve Bank of New York (or any successor administrator of the daily secured overnight financing rate) announcing that it has ceased or will cease to provide the daily secured overnight financing rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to provide a daily secured overnight financing rate; or

- (c) a public statement by a U.S. regulator or other U.S. official sector entity prohibiting the use of the daily secured overnight financing rate that applies to, but need not be limited to, all swap transactions, including existing swap transactions;

D. *Floating Rate Notes which are CMS Linked Interest Notes*

Where the Reference Rate is specified as being the CMS Reference Rate, the Rate of Interest for each Interest Period will be calculated by the Calculation Agent in accordance with the provisions set out below:

- (i) where “**CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

- (ii) where “**Leveraged CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (a) $L \times \text{CMS Rate} + M$

$$\text{Min} \{ [\text{max} (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C \}$$

or

(b) where "**Steeper CMS Reference Rate: Leveraged**" is specified in the applicable Final Terms:

$$\text{Min} \{ [\text{max} [L \times (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C \}$$

(iv) where "**Call Spread CMS Reference Rate**" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

where:

C = Cap (if applicable)

F = Floor

L = Leverage

M = Margin

As used above:

"**CMS Rate**" shall mean the Relevant Swap Rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity (expressed as a percentage rate per annum) which appears on the Relevant Screen Page as at the Relevant Time on the Interest Determination Date in question, all as determined by the Calculation Agent.

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its quotation for the Relevant Swap Rate (expressed as a percentage rate per annum) at approximately the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent such quotations, the CMS Rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the third decimal place, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each TARGET Business Day in the relevant Observation Period on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each TARGET Business Day in the relevant Observation Period occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above, will remain effective for the remaining term to maturity of the Notes.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date, (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each TARGET Business Day in the Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR, or (iii) if there no such preceding Interest Determination Date and there is no published ECB Recommended Rate or Modified EDFR available, the rate of €STR for each TARGET Business Day in the Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published €STR (though substituting, in each case, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Period).

“**€STR Index Cessation Event**” means the occurrence of one or more of the following events, as determined by the Issuer and notified by the Issuer to the Calculation Agent:

- a) a public statement or publication of information by or on behalf of the European Central Bank (or any successor administrator of €STR) announcing that it has ceased or will cease to provide €STR permanently or indefinitely, provided that, at the time of the statement or the publication, there is no successor administrator that will continue to provide €STR; or
- b) a public statement or publication of information by the regulatory supervisor for the administrator of €STR, the central bank for the currency of €STR, an insolvency official with jurisdiction over the administrator of €STR, a resolution authority with jurisdiction over the administrator of €STR or a court or an entity with similar insolvency or resolution authority over the administrator of €STR, which states that the administrator of €STR has ceased or will cease to provide €STR permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator that will continue to provide €STR;

“**€STR Index Cessation Effective Date**” means, in respect of an €STR Index Cessation Event, the first date on which €STR is no longer provided by the European Central Bank (or any successor administrator of €STR), as determined by the Issuer and notified by the Issuer to the Calculation Agent;

“**i**” is a series of whole numbers from one to d_o , each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day in:

- (i) where “Observation Look-Back” is specified as the Observation Method in the applicable Final Terms, the relevant Interest Period, to, but excluding, the Interest Payment Date corresponding to such Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the applicable Final Terms, the relevant Observation Period, to, but excluding, the Interest Payment Date corresponding to such Observation Period.

“**Modified EDFR**” means a reference rate equal to the EDFR plus the EDFR Spread;

“**n_i**” for any TARGET Business Day “i” is the number of calendar days from, and including, the relevant TARGET Business Day “i” up to, but excluding, the immediately following TARGET Business Day in the relevant Interest Period;

“**Observation Period**” means in respect of any Interest Period, the period from and including the date falling “p” TARGET Business Days prior to the first day of the relevant Interest Period (and the first Observation Period shall begin on and include the date falling “p” TARGET Business Days prior to the Interest Commencement Date) and ending on, but excluding, the date falling “p” TARGET Business

Day prior to the Interest Payment Date of such Interest Period (or the date falling “p” TARGET Business Day prior to such earlier date, if any, on which the Notes become due and payable);

“p” means:

- (i) where “Observation Look-Back” is specified as the Observation Method in the applicable Final Terms, in relation to any Interest Period, the number of TARGET Business Days included in the Observation Look-Back Period, as specified in the applicable Final Terms (or if no such number is specified, five TARGET Business Days); or
- (ii) where “Observation Shift” is specified as the Observation Method in the applicable Final Terms, in relation to any Interest Period, the number of TARGET Business Days included in the Observation Shift Period, as specified in the applicable Final Terms (or if no such number is specified, five TARGET Business Days).

“**Website of the European Central Bank**” means the website of the European Central Bank currently at <http://www.ecb.europa.eu> or any successor website officially designated by the European Central Bank.

(b) ISDA Determination:

If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where “ISDA Rate” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
- (iii) the relevant Reset Date (as defined in the ISDA Definitions) is the date specified in the relevant Final Terms.

6.3.3 **Linear Interpolation:** Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

“**Designated Maturity**” means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

6.3.4 **Maximum or Minimum Rate of Interest:** If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

6.3.5 **Calculation of Interest Amount:** The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period. The amount of interest payable in respect of any Note for any period will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

6.3.6 **Calculation of other amounts:** If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

6.3.7 **Publication:** The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.

6.3.8 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

6.3.9 For the purposes of this Condition 6.3, unless defined above,

“**Reference Banks**” means, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone interbank market; and in the case of a determination of a Reference Rate other than EURIBOR, the principal office in the Relevant Financial Centre of four major banks in the interbank market of the Relevant Financial Centre, in each case selected by the Calculation Agent.

“**Reference Rate**” means, as specified in the Final Terms, (i) the Euro-zone interbank offered rate (“**EURIBOR**”); (ii) the Singapore interbank offered rate (“**SIBOR**”); (iii) the Tokyo interbank offered rate (“**TIBOR**”); (iv) the Hong Kong interbank offered rate (“**HIBOR**”); (v) the bank rate of the Bank of England (the “**Bank of England Base Rate**”), in each case, for the relevant currency and for the relevant period (if applicable), as specified for each in the Final Terms, or otherwise specified in the Final Terms.

“**Relevant Financial Centre**” means the financial centre specified as such in the Final Terms or if none is so specified: (i) in the case of a determination of EURIBOR, Brussels; (ii) in the case of a determination of SIBOR, Singapore; (iii) in the case of a determination of TIBOR, Tokyo; (iv) in the case of a determination of HIBOR, Hong Kong; or (v) in the case of a determination of the Bank of England Base Rate, London.

6.4 **Benchmark discontinuation**

Notwithstanding the provisions above in Conditions 6.2 (*Interest on Reset Notes*) or 6.3 (*Interest on Floating Rate Notes*), if a Benchmark Event occurs in relation to an Original Reference Rate when any required Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions of this Condition 6.4 shall apply.

6.4.1 **Independent Adviser:** The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Issuer determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 6.4.2 (*Successor Rate or Alternative Rate*) below) and, in either case, an Adjustment Spread if any (in accordance with Condition 6.4.3 (*Adjustment Spread*) below) and any Benchmark Amendments (in accordance with Condition 6.4.4 (*Benchmark Amendments*) below).

The Independent Adviser appointed pursuant to this Condition 6.4 shall act in good faith and (in the absence of bad faith, gross negligence or fraud) shall have no liability whatsoever to the Fiscal Agent, the Paying Agents, or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition 6.4.

6.4.2 **Successor Rate or Alternative Rate:** If the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines that:

- (A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments

of interest on the Notes (subject to the further operation of this Condition 6.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 6.4.5 (*Notices, etc.*) below; or

- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 6.4.5 (*Notices, etc.*) below.

6.4.3 **Adjustment Spread:** The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be). If the Issuer, following consultation with the Independent Adviser is unable to determine the quantum of, or a formula or methodology for the determining, such Adjustment Spread, then the Successor Rate or Alternative Rate (as applicable) will apply without an Adjustment Spread.

6.4.4 **Benchmark Amendments**

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread (if any) is determined in accordance with this Condition 6.4 and the Issuer, following consultation with the Independent Adviser and acting in good faith and in commercially reasonable manner, determines (A) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread (if any) and/or necessary or appropriate to comply with applicable regulations or guidelines on the use of benchmarks or other related documents published by the competent regulatory authority (such amendments, the “**Benchmark Amendments**”) and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 6.4.5, without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments (subject to prior agreement with the Calculation Agent or Paying Agent, if required under the Agency Agreement) with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 6.4.4 the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

6.4.5 **Notices, etc.**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 6.4 will be notified at least 10 Business Days (or such shorter period as may be agreed between the Issuer and the Fiscal Agent, Calculation Agent and/or Paying Agents (as appropriate)) prior to the relevant Interest Determination Date by the Issuer to the Fiscal Agent, Calculation Agent, the Paying Agents and, in accordance with Condition 17 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify (*inter alia*) the date (or the Interest Period) from which the Successor Rate or, as the case may be, Alternative Rate shall take effect, whether any Adjustment Spread shall be applied to the Successor Rate or, as the case may be, Alternative Rate, and the effective date of the Benchmark Amendments, if any.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent, the Calculation Agent and the Paying Agents a certificate signed by an authorised signatory of the Issuer:

- (a) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate and, (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 6.4; and
- (b) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread.

The Fiscal Agent shall display such certificate at its offices, for inspection by the Noteholders at all reasonable times during normal business hours.

The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent's or the Calculation Agent's or the Paying Agents' ability to rely on such certificate as aforesaid) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 6.4, if following the determination of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (if any), in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 6.4, the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, willful default or fraud) to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, willful default or fraud) shall not incur any liability for not doing so.

6.4.6 ***Survival of Original Reference Rate***

Without prejudice to the obligations of the Issuer under Condition 6.4.1 (*Independent Adviser*) to 6.4.5 (*Notices, etc.*), the Original Reference Rate and the fallback provisions provided for in Condition 6.2 (*Interest on Reset Notes*) or Condition 6.3.2.(a) (*Interest on Floating Rate Notes – Screen Rate Determination*) as applicable will continue to apply unless and until the Fiscal Agent, the Calculation Agent and the Noteholders have been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 6.4.5 (*Notices, etc.*).

For the avoidance of doubt, if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by the Issuer fails to determine a Successor Rate or Alternative Rate (as applicable) on or before the date falling five Business Days prior to the Interest Determination Date (or Reset Determination Date) relating to the next Interest Period, or if a Successor Rate or an Alternative Rate is not determined or adopted pursuant to the operation of this Condition 6.4 prior to such date, then the Rate of Interest (or the Reset Rate of Interest) for the next Interest Period shall be determined by reference to the fallback provisions of Condition 6.2 (*Interest on Reset Notes*) or Condition 6.3 (*Interest on Floating Rate Notes*).

6.4.7 **Definitions**

For the purposes of this Condition 6.4, unless defined above:

“Adjustment Spread” means either (a) a spread (which may be positive, negative or zero), or (b) the formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) if no such recommendation has been made, or in the case of an Alternative Rate, the Issuer determines, following consultation with the Independent Adviser, is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (iii) if the Issuer determines that no such spread is customarily applied, the Issuer determines, following consultation with the Independent Adviser, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

“Alternative Rate” means an alternative benchmark or screen rate which the Issuer determines in accordance with Condition 6.4.2 (*Successor Rate or Alternative Rate*) is customarily applied in international debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) for a commensurate interest period and in the same Specified Currency as the Notes.

“Benchmark Amendments” has the meaning given to it in Condition 6.4.4 (*Benchmark Amendments*).

“Benchmark Event” means, with respect to an Original Reference Rate:

- (i) the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or

- (iii) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been or will be permanently or indefinitely discontinued; or
- (iv) the making of a public statement by the supervisor of the administrator of the Original Reference Rate, as a consequence of which the Original Reference Rate will be prohibited from being used either generally or in respect of the Notes; or
- (v) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market; or

- (vi) it has or will prior to the next Interest Determination Date or Reset Determination Date, as applicable, become unlawful for any Paying Agent, the Calculation Agent or the Issuer to calculate any payments due to be made to any Noteholder using the Original Reference Rate (including, without limitation, under the Benchmark Regulation (EU) 2016/1011, if applicable).

provided that the Benchmark Event shall be deemed to occur (a) in the case of sub-paragraphs (ii) and (iii) above, on the date of the cessation of publication of the Original Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (b) in the case of sub-paragraph (iv) above, on the date of the prohibition of use of the Original Reference Rate and (c) in the case of sub-paragraph (v) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement.

The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Fiscal Agent, the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Fiscal Agent, the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

“Relevant Nominating Body” means, in respect of a benchmark or screen rate (as applicable):

- (i) the European Commission, the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board, the European Systemic Risk Board, or any part thereof.

“Successor Rate” means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

Condition 7 is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.

7 ZERO COUPON NOTES

- (i) the Reference Price; and

- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

8 REDEMPTION AND PURCHASE

8.1 Scheduled redemption

Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date together with interest accrued (if any) to the date of redemption, subject as provided in Condition 9 (*Payments*).

8.2 Redemption for tax reasons

- (a) The Notes may be redeemed at the option of the Issuer (subject as mentioned below) in whole, but not in part, at any time, on giving not less than 15 nor more than 30 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), together with interest accrued (if any) to the date fixed for redemption, if:
 - (A) the Issuer (1) has or will become obliged to pay additional amounts as provided or referred to in Condition 10 (*Taxation*) as a result of any change in, or amendment or clarification to, the laws, regulations or other rules of the Republic of Italy or of any political subdivision or any authority thereof or therein having power to tax, or as a result of any change in, or amendment or clarification to, the application of official or generally published interpretation (or application or interpretation made for the first time) of such laws, regulations or other rules, including the publication or pronouncement of any decision or interpretation by any competent court or authority providing for a position with respect to such laws, regulations or other rules that differs from the previously generally accepted position or otherwise differs from prior written confirmation given by the competent authority in respect of tax treatment of the Notes, which change, amendment or clarification becomes effective on or after the date of issue of the first Tranche of the Notes; and (2) such obligation cannot be avoided by the Issuer taking reasonable measures it deems appropriate; or
 - (B) if early redemption for tax non-deductibility is specified in the relevant Final Terms, (1) deductibility of interest payable by the Issuer in respect of the Notes is materially reduced for Italian income tax purposes as a result of any change in, or amendment or clarification to, the laws or regulations or applicable accounting standards of the Republic of Italy or any political subdivision or any authority thereof or therein having power to tax, or as a result of any change in, or amendment or clarification to, the application of official or generally published interpretation (or application or interpretation made for the first time) of such laws, regulations or applicable accounting standards, including the publication or pronouncement of any decision or interpretation by any competent court or authority providing for a position with respect to such laws, regulations or other rules that differs from the previously generally accepted position or otherwise differs from prior written confirmation given by the competent authority in respect of tax treatment of the Notes, which change, amendment or clarification becomes effective on or after the date of issuance of the Notes; and (2) such non-deductibility cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due or, in the case of (B), be unable to deduct such amounts for Italian income tax purposes.

- (b) Prior to the publication of any notice of redemption pursuant to this Condition 8.2, the Issuer shall deliver or procure that there is delivered to the Fiscal Agent (1) a certificate signed by a duly authorised representative of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and (2) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts or, in the case of (B), is or will be unable to deduct such amounts for Italian income tax purposes, in each case, as a result of such change, amendment or clarification. Upon the expiry of any such notice as is referred to in this Condition 8.2, the Issuer shall redeem the Notes in accordance with this Condition 8.2.
- (c) The “**Early Redemption Amount (Tax)**” shall be: (i) if the Issuer’s Call Option is specified in the relevant Final Terms as being applicable and the Tax Event occurs on or after the Optional Redemption Date (Call), the principal amount outstanding of the Notes; or (ii) if the Tax Event occurs before the Optional Redemption Date (Call) or if the Issuer’s Call Option is specified in the relevant Final Terms as being not applicable, the principal amount outstanding of the Notes, their Make Whole Amount or such other amount as specified in the relevant Final Terms.

Condition 8.3 below is applicable if the Issuer’s Call Option is specified in the relevant Final Terms as being applicable.

8.3 Redemption at the option of the Issuer

- (a) The Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date at the relevant Optional Redemption Amount (Call) on the Issuer’s giving not less than 15 nor more than 30 days’ notice to the Noteholders, at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date. Upon the expiry of any such notice as is referred to in this Condition 8.3, the Issuer shall redeem the Notes or, as the case may be, the Notes specified in such notice, in accordance with this Condition 8.3.
- (b) *Partial redemption:* If the Notes are to be redeemed in part only on any date in accordance with Condition 8.3 (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be selected by the drawing of lots in such place as the Fiscal Agent approves and in such manner as the Fiscal Agent considers appropriate, subject to compliance with applicable law and the rules of each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation, and the notice to Noteholders referred to in Condition 8.3(a) shall specify the serial numbers of the Notes so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

Condition 8.4 is applicable if the Noteholders Put Option is specified in the relevant Final Terms as being applicable.

8.4 Redemption at the option of Noteholders

- (a) The Issuer shall, at the option of the holder of any Note redeem such Note on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date.

- (b) In order to exercise the option contained in this Condition 8.4, the holder of a Note must, not less than 30 nor more than 60 days before the relevant Optional Redemption Date (Put), deposit with any Paying Agent such Note together with all unmatured Coupons and unexchanged Talons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Noteholder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 8.4, may be withdrawn; *provided, however, that* if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Noteholder at such address as may have been given by such Noteholder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Noteholder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 8.4, the depositor of such Note and not such Paying Agent shall be deemed to be the holder of such Note for all purposes.

Condition 8.4A is applicable if the Clean-up Call Option is specified in the relevant Final Terms as being applicable.

8.4A Clean-up Call Option

In the event that at least 80% of the initial aggregate principal amount of the Notes has been purchased or redeemed by the Issuer, the Issuer may, at its option but subject to having given not more than thirty (30) nor less than fifteen (15) calendar days' irrevocable notice to the Noteholders in accordance with Condition 17 (*Notices*) redeem all, but not some only, of the outstanding Notes at their Early Redemption Amount (Clean-up) together with any interest accrued to the date set for redemption.

The "**Early Redemption Amount (Clean-up)**" means the amount specified in the relevant Final Terms.

8.5 Make Whole Amount

- (a) In relation to any early redemption of the Notes pursuant to Condition 8.2 (*Redemption for tax reasons*), the Early Redemption Amount (Tax) - if specified in the Final Terms to be the "**Make Whole Amount**" - shall be an amount calculated by the Calculation Agent equal to the higher of (x) 100 per cent. of the principal amount outstanding of the Notes to be redeemed; and (y) the sum of the present values of the principal amount outstanding of the Notes to be redeemed and the Remaining Term Interest on such Note (exclusive of interest accrued to the date of redemption) and such present values shall be calculated by discounting such amounts to the date of redemption on an annual basis (assuming a 360-day year consisting of twelve 30-day months or, in the case of an incomplete month, the number of days elapsed) at the Reference Bond Rate, plus the Redemption Margin.
- (b) For the purpose of this Condition 8.5:

"**FA Selected Bond**" means a government security or securities selected by the Calculation Agent as having an actual or interpolated maturity comparable with the remaining term to (i) the Maturity Date or (ii) if an Optional Redemption Date is specified in the Final Terms, the first Optional Redemption Date of the Notes, that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the Specified Currency and of a comparable maturity to the remaining term to (i) the Maturity Date or (ii) if an

The Issuer shall defer payment of all of the interest accrued to an Interest Payment Date in respect of the Notes upon the occurrence of a Solvency Capital Event (or, in the case where the payment of interest would itself result in the occurrence of a Solvency Capital Event, all or part of the interest amount that would result in such occurrence), in each case until the Solvency Capital Event has been remedied and any payment of Deferred Interest (as defined in Condition 5.2 below) would not lead to a Solvency Capital Event.

- 5.2.2 In addition, the Issuer shall defer any payment of interest accrued to an Interest Payment Date or arrears of interest if:

The Issuer shall give notice of such deferral of interest to the Noteholders pursuant to Condition 5.4 (*Notice of Interest Deferral*).

- 5.2.4 Notwithstanding the provisions set out in Conditions 5.2.1 and 5.2.2 above, interest accrued to an Interest Payment Date in respect of the Notes which the Issuer has deferred, or would otherwise be required to defer, upon the occurrence of a Solvency Capital Event may be paid by the Issuer if all of the following conditions are met:

- (i) the Lead Regulator has exceptionally waived the deferral of interest;
- (ii) the payment does not further weaken the solvency position of the Issuer as determined in accordance with the Applicable Regulations; and

Where this Condition 5.2.4 applies, the Issuer may make the relevant interest payment on the relevant Interest Payment Date or, if later, the date following satisfaction of all the aforementioned conditions (which date shall be specified by the Issuer in the notice to the Noteholders), provided that no additional interest shall be due from the Issuer even if such date falls after the relevant Interest Payment Date.

- (C) if “**Deferred Interest Payment Events Option C**” is indicated in the Final Terms, in relation to those Notes in respect of which the Final Terms state that Mandatory Deferral of Interest is applicable and the relevant Deferred Interest results from a mandatory deferral pursuant to the provisions of Condition 5.2.1 and/or Condition 5.2.2, the Fiscal Agent receives written notice from the Issuer stating that the event or circumstance that gave rise to such deferral has been remedied; and
- (D) if “**Deferred Interest Payment Events Option D**” is indicated in the Final Terms, dividends or other distributions on ordinary shares of Assicurazioni Generali have been declared or paid, unless such dividend or distribution is in the form of share capital of any class, warrants, options or other rights where such dividend or relevant share capital issuable upon exercise of such warrants, options or other rights is the same class of share capital as that on which the dividend or distribution is being declared or paid or ranks *pari passu* with or junior to such class of share capital

provided that in any case where interest is not paid pursuant to Condition 5.2.1 or Condition 5.2.2, if it is not practicable to deliver the notice of deferral referred to in sub-paragraph (i) above at least 5 Business Days prior to the relevant Interest Payment Date, such notice shall be delivered as soon as practicable thereafter; and *provided further that* failure to deliver such notice shall not invalidate the relevant deferral of interest.

6 CONDITIONS FOR REDEMPTION

6.1 Any redemption of Notes on the Maturity Date or on any date fixed for optional redemption pursuant to Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the Issuer*), Condition 10.4 (*Optional Redemption due to a Regulatory Event*), Condition 10.5 (*Optional Redemption due to a Rating Event*), Condition 10.6 (*Optional Redemption due to an Accounting Event*) or Condition 10.6A (*Clean-up Call Option*), is subject to (i) satisfaction of the Conditions for Redemption and Purchase on the relevant redemption date or waiver thereof in accordance with Condition 10.11 (*Waiver of Redemption Suspension*); and (ii) redemption of the Notes will not result in, or accelerate, the Issuer becoming insolvent in accordance with the provisions of the relevant insolvency laws and rules and regulations thereunder (including any applicable decision of a court) applicable to the Issuer from time to time.

6.2 In case the conditions set out in Condition 6.1 above are not satisfied, redemption of the Notes shall be suspended and, unless Condition 10.11 (*Waiver of Redemption Suspension*) applies:

- (a) the Maturity Date (in the case of a redemption of the Notes on the scheduled maturity date) shall be postponed in accordance with the provisions set forth in Condition 10.1.1(b) (*Scheduled redemption*);

in each case, regardless of any prior notice of redemption that may already have been delivered to the Noteholders and interest will – subject to the applicable interest deferral provisions of these terms and conditions – continue to accrue on the principal amount outstanding of the Notes in accordance with Condition 8 (*Interest*) until such Notes are redeemed in full pursuant to Condition 10 (*Redemption and Purchase*).

6.3 Failure to redeem the Notes on the original Maturity Date or the date fixed for any optional redemption pursuant to Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the*

Condition 7 below is applicable only to Notes in respect of which the Final Terms state that Change of interest following Optional Redemption Date (Call) applies.

7 INITIAL AND POST-CALL INTEREST PROVISIONS

- 7.1** *Initial Interest Provisions:* The Notes bear interest from and including the Issue Date to but excluding the Optional Redemption Date (Call) at the Initial Rate of Interest payable, subject as provided in these Conditions, in arrear on the Initial Interest Payment Date(s) specified in the Final Terms.
- 7.2** *Post-Call Interest Provisions:* If the Issuer does not redeem the Notes in accordance with Condition 10.3 (*Redemption and Purchase – Redemption at the option of the Issuer*) on the Optional Redemption Date (Call), the Notes will bear interest for each Interest Period falling after the Optional Redemption Date (Call) at such Rate of Interest (Post-Call) as will be indicated in the relevant Final Terms payable, subject as provided in these Conditions, in arrear on each Interest Payment Date falling after the Optional Redemption Date (Call).

8 INTEREST

Condition 8.1 below is applicable to the Notes (a) if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable; and (b) if the Fixed-Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, in respect of those Interest Periods for which the Fixed Rate Note Provisions are stated to apply.

8.1 Interest on Fixed Rate Notes

- 8.1.1** *Accrual of interest:* The Notes bear interest from the Interest Commencement Date (or the applicable Interest Payment Date) at the Rate(s) of Interest payable in arrear on each Interest Payment Date, subject as provided in these Conditions. Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 8 (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

- 8.1.2 **Fixed Coupon Amount:** The amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination. Payment of any Broken Amount will be made on the Interest Payment Date so specified in the Final Terms.
- 8.1.3 **Calculation of interest amount:** The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

Condition 8.2 is applicable to the Notes only if the relevant Final Term specifies that Interest Basis reset on Reset Date as being applicable.

8.2 Interest on Reset Notes

- 8.2.1 **Initial Interest Provisions:** The Notes bear interest from and including the Interest Commencement Date to but excluding the Reset Date (or, if there is more than one Reset Period, the first Reset Date occurring after the Issue Date), at the Initial Rate of Interest payable, subject as provided in these Conditions, in arrear on the Interest Payment Date(s) specified in the Final Terms.
- 8.2.2 **Interest Basis Reset Provisions:** The Notes will bear interest in respect of the Reset Period (or, if there is more than one Reset Period, each successive Reset Period thereafter) at the relevant Reset Rate (as will be determined by the Calculation Agent on the relevant Reset Determination Date in accordance with this Condition 8.2) payable, subject as provided in these Conditions, in arrear on the Interest Payment Date(s) specified in the Final Terms.
- 8.2.3 **Accrual of interest:** Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 8 (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

As used in these Conditions:

“**Mid Swap Maturity**” has the meaning specified in the Final Terms.

“**Mid Swap Rate**” means for any Reset Period the arithmetic mean of the bid and offered rates for the fixed leg payable with a frequency equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (calculated on the day count basis customary for fixed rate payments in the Specified Currency as determined by the Calculation Agent) of a fixed-for-floating interest rate swap transaction in the Specified Currency which transaction (a) has a term equal to the relevant Reset Period commencing on the relevant Reset Date; (b) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market; and (c) has a floating leg based on the Mid Swap Benchmark Rate for the Mid Swap Maturity as specified in the Final Terms (calculated on the day count basis customary for floating rate payments in the Specified Currency as determined by the Calculation Agent).

“Mid Swap Benchmark Rate” means the benchmark rate specified as such in the relevant Final Terms.

“Reference Bond” means for any Reset Period a government security or securities issued by the state responsible for issuing the Specified Currency (which, if the Specified Currency is euro, shall be Germany) selected by the Issuer on the advice of an investment bank of international repute as having an actual or interpolated maturity comparable with the relevant Reset Period that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the same currency as the Notes and of a comparable maturity to the relevant Reset Period.

“Reference Bond Price” means, with respect to any Reset Determination Date, (A) the arithmetic average of the Reference Government Bond Dealer Quotations for such Reset Determination Date, after excluding the highest and lowest such Reference Government Bond Dealer Quotations; or (B) if the Calculation Agent obtains fewer than four such Reference Government Bond Dealer Quotations, the arithmetic average of all such quotations.

“Reference Government Bond Dealer” means each of five banks (selected by the Issuer on the advice of an investment bank of international repute), or their affiliates, which are (A) primary government securities dealers, and their respective successors; or (B) market makers in pricing corporate bond issues.

“Reference Government Bond Dealer Quotations” means, with respect to each Reference Government Bond Dealer and the relevant Reset Determination Date, the arithmetic average, as determined by the Calculation Agent, of the bid and offered prices for the relevant Reference Bond (expressed in each case as a percentage of its nominal amount) at or around the Reset Rate Time on the relevant Reset Determination Date quoted in writing to the Calculation Agent by such Reference Government Bond Dealer.

“Reset Date(s)” means the date(s) specified in the Final Terms.

“Reset Determination Date” means, for each Reset Period, the date as specified in the Final Terms falling on or before the commencement of such Reset Period on which the rate of interest applying during such Reset Period will be determined.

“Reset Margin” means the margin specified as such in the Final Terms.

“Reset Period” means the period from (and including) the first Reset Date to (but excluding) the Maturity Date (if any) if there is only one Reset Period or, if there is more than one Reset Period, each period from (and including) one Reset Date (or the first Reset Date) to (but excluding) the next Reset Date up to (but excluding) the Maturity Date (if any).

“Reset Rate” for any Reset Period means the sum of (i) the applicable Reset Reference Rate and (ii) the applicable Reset Margin (rounded down to three decimal places, with 0.0005 being rounded down).

“Reset Rate Screen Page” has the meaning specified in the Final Terms.

“Reset Rate Time” has the meaning specified in the Final Terms.

“Reset Reference Rate” means either:

- (A) if “Mid Swaps” is specified in the Final Terms, the Mid Swap Rate displayed on the Reset Rate Screen Page at or around the Reset Rate Time on the relevant Reset Determination Date for such Reset Period; or
- (B) if “Reference Bond” is specified in the Final Terms, the annual yield to maturity or interpolated yield to maturity (on the relevant day count basis) of the relevant Reference Bond, assuming a

price for such Reference Bond (expressed as a percentage of its nominal amount) equal to the relevant Reference Bond Price.

8.2.4 **Reset Rate Screen Page:** if the Reset Rate Screen Page is not available, or the Mid-Swap Rate does not appear on the Relevant Screen Page, then subject to Condition 8.4 (*Benchmark discontinuation*), the Calculation Agent shall request each of the Reference Banks to provide it with its offered quotation (expressed as a percentage rate per annum) for the Reset Reference Rate at approximately the Reset Rate Time on the Reset Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Reset Rate for the relevant Reset Period shall be the arithmetic mean (rounded if necessary to the third decimal place, with 0.0005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the applicable Reset Margin (if any), all as determined by the Calculation Agent. If on any Reset Determination Date only one or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the foregoing provisions of this Condition 8.2.4:

- (a) if Option A is indicated in the Final Terms, the Reset Rate shall be determined as at the last preceding Reset Determination Date or, in the case of the first Reset Determination Date, the Reset Rate shall be the Initial Rate of Interest;
- (b) if Option B is indicated in the Final Terms, the Reset Rate shall be the Reset Reference Rate that most recently appeared on the Reset Rate Screen Page plus or minus (as appropriate) the applicable Reset Margin (if any), as determined by the Calculation Agent.

For the purpose of this Condition 8.2.4, “**Reference Banks**” means four (or, if the Principal Financial Centre is Helsinki, five) major banks selected by the Issuer or the Independent Adviser in the swap, money, securities or other market most closely connected with the Reset Reference Rate and “**Independent Adviser**” means an independent financial institution of international repute or an independent adviser of recognised standing with appropriate expertise appointed by the Issuer at its own expense for the purpose of this Condition 8.2.4.

8.2.5 **Calculation of Interest Amount:** The Calculation Agent will calculate the Interest Amount payable on the Reset Notes for each relevant period (in the case of Interest Periods falling after the Reset Date, as soon as practicable after the time at which the Reset Reference Rate is to be determined in relation to such Reset Interest Period) by applying the Initial Rate of Interest or the applicable Reset Rate (as the case may be) to the Calculation Amount and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Note comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

8.2.6 **Publication:** The Calculation Agent will cause the Reset Rate and each Interest Amount for each Reset Period to be notified to the Issuer, the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders.

8.2.7 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent

will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

Condition 8.3 is applicable to the Notes (a) if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable; and (b) if the Fixed-Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, in respect of those Interest Periods for which the Floating Rate Note Provisions are stated to apply.

8.3 Interest on Floating Rate Notes

8.3.1 **Accrual of interest:** The Notes bear interest from the Interest Commencement Date (or the applicable Interest Payment Date) at the Rate(s) of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 11 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

8.3.2 Rate of Interest

(a) Screen Rate Determination:

A. *Floating Rate Notes other than SONIA Linked Interest Notes, SOFR, CMS Linked Interest Notes or €STR Notes*

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as

determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

B. *Floating Rate Notes which are SONIA Linked Interest Notes*

Where the Reference Rate is specified as being SONIA, the Rate of Interest for each Interest Period will be, subject to Condition 8.4 (*Benchmark discontinuation*), Compounded Daily SONIA with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below:

For the purposes of this sub-paragraph B:

“**Compounded Daily SONIA**” means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the third decimal place, with 0.0005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Period;

“**d₀**” is the number of London Banking Days in the relevant Interest Period;

falling “p” London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

“p” means for any Interest Period, the number of London Banking Days included in the Observation Period, as specified in the applicable Final Terms;

the “**SONIA reference rate**”, in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day); and

“**SONIA_{i-pLBD}**” means, in respect of any London Banking Day falling in the relevant Observation Period, the SONIA reference rate for the London Banking Day falling “p” London Banking Days prior to the relevant London Banking Day “i”.

If in respect of any London Banking Day in the relevant Observation Period, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) determines that the applicable SONIA reference rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, the SONIA reference rate in respect of such London Banking Day shall be: (i) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on such London Banking Day; plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five days on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate.

Where the SONIA reference rate is being determined in accordance with the paragraph above, in the event the Bank of England publishes guidance as to (i) how the SONIA reference rate is to be determined; or (ii) any rate that is to replace the SONIA reference rate, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA reference rate for any London Banking Day “i” for the purpose of the relevant Series of Notes for so long as the SONIA reference rate is not available or has not been published by the authorised distributors.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms), subject to Condition 8.4 (*Benchmark discontinuation*), the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to that last preceding Interest Period); or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (including applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

If the relevant Series of Notes become due and payable in accordance with Condition 13 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Notes remain outstanding, be that determined on such date.

C. *Floating Rate Notes which are SOFR Linked Interest Notes*

Where the Reference Rate is specified as being the SOFR, the Rate of Interest for each Interest Period will be, subject to Condition 8.4 (*Benchmark discontinuation*), USD-SOFR-COMPOUND with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below.

For the purposes of this sub-paragraph C:

“**USD-SOFR-COMPOUND**” means the rate of return of a daily compound interest investment (with the Secured Overnight Financing Rate (as defined below) as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on each Interest Determination Date as follows, with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, 0.0000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

D. *Floating Rate Notes which are CMS Linked Interest Notes*

Where the Reference Rate is specified as being the CMS Reference Rate, the Rate of Interest for each Interest Period will be calculated by the Calculation Agent in accordance with the provisions set out below:

- (i) where “**CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

where:

C = Cap (if applicable)

F = Floor

L = Leverage

M = Margin

As used above:

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its quotation for the Relevant Swap Rate (expressed as a percentage rate per annum) at approximately the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent such quotations, the CMS Rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the third decimal place, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

E. *Floating Rate Notes which are €STR Notes*

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If the €STR is not published, as specified above, on any particular TARGET Business Day and no €STR Index Cessation Event (as defined below) has occurred, the €STR for such TARGET Business Day shall be the rate equal to €STR in respect of the last TARGET Business Day for which such rate was published on the Website of the European Central Bank.

If the €STR is not published, as specified above, on any particular TARGET Business Day and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date have occurred, the rate of €STR for each TARGET Business Day in the relevant Observation Period on or after such €STR Index Cessation Effective Date will be determined as if references to €STR were references to the ECB Recommended Rate.

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each TARGET Business Day in the relevant Observation Period on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each TARGET Business Day in the relevant Observation Period occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above, will remain effective for the remaining term to maturity of the Notes.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date, (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each TARGET Business Day in the Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR, or (iii) if there no such preceding Interest Determination Date and there is no published ECB Recommended Rate or Modified EDFR available, the rate of €STR for each TARGET Business Day in the Observation Period on or after such €STR Index Cessation Effective Date were references to the latest published €STR (though substituting, in each case, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Period).

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

The amount of interest payable in respect of any Note for any period will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- 8.3.8 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

8.4 Benchmark discontinuation

Notwithstanding the provisions above in Conditions 8.2 (*Interest on Reset Notes*) or 8.3 (*Interest on Floating Rate Notes*), if a Benchmark Event occurs in relation to an Original Reference Rate when any required Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions of this Condition 8.4 shall apply.

8.4.1 **Independent Adviser:** The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Issuer determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 8.4.2 (*Successor Rate or Alternative Rate*) below) and, in either case, an Adjustment Spread if any (in accordance with Condition 8.4.3 (*Adjustment Spread*) below) and any Benchmark Amendments (in accordance with Condition 8.4.4 (*Benchmark Amendments*) below).

The Independent Adviser appointed pursuant to this Condition 8.4 shall act in good faith and (in the absence of bad faith, gross negligence or fraud) shall have no liability whatsoever to the Fiscal Agent, the Paying Agents, or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition 8.4.

8.4.2 **Successor Rate or Alternative Rate:** If the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines that:

- (A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 8.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 8.4.5 (*Notices, etc.*) below; or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 8.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 8.4.5 (*Notices, etc.*) below.

8.4.3 **Adjustment Spread:** The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be). If the Issuer, following consultation with the Independent Adviser is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Successor Rate or Alternative Rate (as applicable) will apply without an Adjustment Spread.

8.4.4 **Benchmark Amendments**

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread (if any) is determined in accordance with this Condition 8.4 and the Issuer, following consultation with the Independent Adviser and acting in good faith and in commercially reasonable manner, determines (A) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread (if any) and/or necessary or appropriate to comply with applicable regulations or guidelines on the use of benchmarks or other related documents published by the competent regulatory authority (such amendments, the “**Benchmark Amendments**”) and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 8.4.5 (*Notices, etc.*), without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments (subject to prior agreement with the Calculation Agent or Paying Agent, if required under the Agency Agreement) with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 8.4.4 the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 8.4, no Successor Rate, Alternative Rate or Adjustment Spread will be adopted, nor will any other amendment to the terms and conditions of any Series of Notes be made to effect the Benchmark Amendments, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the relevant Notes as Tier 2 Notes, or otherwise result in the relevant authority treating the next Interest Payment Date or Reset Date, as the case may be, as the effective maturity of the Notes, rather than the relevant Maturity Date.

8.4.5 **Notices, etc.**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 8.4 will be notified at least 10 Business Days (or such shorter period as may be agreed between the Issuer and the Fiscal Agent, Calculation Agent and/or Paying Agents (as appropriate)) prior to the relevant Interest Determination Date by the Issuer to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 19 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify (*inter alia*) the date (or the Interest Period) from which the Successor Rate or, as the case may be, Alternative Rate shall take effect, whether any Adjustment Spread shall be applied to the Successor Rate or, as the case may be, Alternative Rate, and the effective date of the Benchmark Amendments, if any.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent, the Calculation Agent and the Paying Agents a certificate signed by an authorised signatory of the Issuer:

- (a) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate and, (iii) where applicable, any Adjustment Spread

and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 8.4; and

- (b) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread.

The Fiscal Agent shall display such certificate at its offices, for inspection by the Noteholders at all reasonable times during normal business hours.

The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent's or the Calculation Agent's or the Paying Agents' ability to rely on such certificate as aforesaid) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 8.4, if following the determination of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (if any), in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 8.4, the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, willful default or fraud) to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, willful default or fraud) shall not incur any liability for not doing so.

8.4.6 *Survival of Original Reference Rate*

Without prejudice to the obligations of the Issuer under Condition 8.4.1 (*Independent Adviser*) to 8.4.5 (*Notices, etc.*), the Original Reference Rate and the fallback provisions provided for in Condition 8.2 (*Interest on Reset Notes*) or Condition 8.3.2.(a) (*Interest on Floating Rate Notes – Screen Rate Determination*) as applicable will continue to apply unless and until the Fiscal Agent, the Calculation Agent and the Noteholders have been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 8.4.5 (*Notices, etc.*).

- (ii) if no such recommendation has been made, or in the case of an Alternative Rate, the Issuer determines, following consultation with the Independent Adviser, is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (iii) if the Issuer determines that no such spread is customarily applied, the Issuer determines, following consultation with the Independent Adviser, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

“**Alternative Rate**” means an alternative benchmark or screen rate which the Issuer determines in accordance with Condition 8.4.2 (*Successor Rate or Alternative Rate*) is customarily applied in international debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) for a commensurate interest period and in the same Specified Currency as the Notes.

provided that the Benchmark Event shall be deemed to occur (a) in the case of sub-paragraphs (ii) and (iii) above, on the date of the cessation of publication of the Original Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (b) in the case of sub-paragraph (iv) above, on the date of the prohibition of use of the Original Reference Rate and (c) in the case of sub-paragraph (v) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement. The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Fiscal Agent, the Calculation Agent and the Paying Agents. 10.11 Waiver of Redemption Suspension

- (a) Notwithstanding the provisions of Condition 6 (*Conditions for Redemption*) and of Condition 10.10 (*Postponement of optional redemption dates*), the Notes may be redeemed even though there is non-compliance with the Solvency Capital Requirement or redemption or repayment would lead to such non-compliance, where all of the following conditions are met:
 - (i) all of the Conditions for Redemption and Purchase are met other than the condition under paragraph (i) of such definition;
 - (ii) the Lead Regulator has exceptionally waived the suspension of redemption of the Notes;

- (b) The Issuer shall give at least 5 Business Days' notice to the Noteholders in accordance with Condition 19 (*Notices*) informing the Noteholders of the day on which any redemption that has been suspended may take place following satisfaction of the Conditions for Waiver of Redemption Suspension. 10.13 Purchase

The Issuer or any of its Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, provided that all unmatured Coupons and unexchanged Talons are purchased therewith. Any purchase of the Notes is subject to the prior approval of the Lead Regulator unless such prior approval is no longer required under applicable legislation at the relevant time in order for the Notes to qualify as Tier 2 Capital of the Issuer. Any such purchase is, unless such purchase is deemed not to be a repayment or redemption in accordance with the Applicable Regulations, subject to the provisions of Condition 6 (Conditions for Redemption) (where references therein to redemption of the Notes shall be construed as purchases of the Notes) and is subject furthermore to any additional requirements under Applicable Regulations at the relevant time in order for the Notes to qualify as Tier 2 Capital of the Issuer.

10.14 Disapplication of call rights

Notwithstanding the provisions above, the Issuer may, at any time and in its sole discretion, waive any of the call rights pursuant to Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the Issuer*), Condition 10.4 (*Optional Redemption due to a Regulatory Event*), Condition 10.5 (*Optional Redemption due to a Rating Event*), Condition 10.6 (*Optional Redemption due to an Accounting Event*), or Condition 10.6A (*Clean-up Call Option*) (each of such call rights, an “**Extraordinary Call Right**”) for a (definite or indefinite) period of time to be determined by the Issuer (the “**Inapplicability Period**”) by notice to the Noteholders in accordance with Condition 19 (*Notices*). Any notice so given will be irrevocable and shall specify the Inapplicability Period(s) during which the Issuer shall cease to have the respective Extraordinary Call Right(s).

10.15 Cancellation

All Notes purchased by or on behalf of the Issuer or any of its Subsidiaries may be surrendered for cancellation by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to the Fiscal Agent and, if so surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations in respect of any such Notes shall be discharged. Any Notes purchased by or on behalf of the Issuer or any of its Subsidiaries and not so surrendered for cancellation may be reissued or resold.

- (b) *Interest*: Payments of interest shall, subject to Condition 11(h) (*Payments other than in respect of matured Coupons*) below, be made only against presentation and (*provided that* payment is made in full) surrender of the appropriate Coupons at the Specified Office of any Paying Agent outside the United States in the manner described in Condition 11(a) (*Principal*) above.
- (c) *Payments in New York City*: Payments of principal or interest may be made at the Specified Office of a Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States

 - (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the “**Relevant Coupons**”) being equal to the amount of principal due for payment; *provided, however, that* where this sub-paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; *provided, however, that*, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 11(a) (*Principal*) above against presentation and (*provided that* payment is made in full) surrender of the relevant missing Coupons.

- (f) *Unmatured Coupons void:* If the relevant Final Terms specifies that this Condition 11(f) is applicable or that the Floating Rate Note Provisions are applicable, on the due date for final redemption of any Note or early redemption of such Note pursuant to Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the Issuer*), Condition 10.4 (*Optional Redemption due to a Regulatory Event*), Condition 10.5 (*Optional Redemption due to a Rating Event*), Condition 10.6 (*Optional Redemption due to an Accounting Event*), Condition 10.6A (*Clean-up Call Option*) or

Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

12 TAXATION

- (a) *Gross up*: All payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed or on behalf of the Republic of Italy or any political subdivision therein or any authority therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts on interest, premium and other income from the Notes (but not, unless permitted by then prevailing Applicable Regulations, principal or any other amount) as will result in receipt by the Noteholders and the Couponholders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Note or Coupon presented for payment:
 - (i) in the Republic of Italy; or
 - (ii) by or on behalf of a holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of its having some connection with the Republic of Italy other than the mere holding of such Note or Coupon; or

- (d) there will at all times be a Paying Agent in a jurisdiction within continental Europe, other than the jurisdiction in which the Issuer is incorporated.

These Conditions may not be amended without the prior approval of the Lead Regulator (unless such approval is not required by applicable law at the relevant time in order for the Notes to qualify as Tier 2 Capital of the Issuer). The Notes, these Conditions and (in case the Notes are governed by English law) the Deed of Covenant may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

and provided further that:

- (1) Assicurazioni Generali obtains approval of the proposed modification or exchange from the Lead Regulator (unless such approval is no longer required by applicable law at the relevant time in order for the Notes to qualify as Tier 2 Capital of the Issuer) or gives prior written notice (if such notice is required to be given) to the Lead Regulator and, following the expiry of all relevant statutory time limits, the Lead Regulator is no longer entitled to object or impose changes to the proposed modification or exchange;
 - (2) the modification or exchange does not give rise to a change in any published rating of the existing Notes in effect at such time (to the extent the existing Notes were rated prior to the occurrence of such Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event);
 - (3) the modification or exchange does not give rise to any right on the part of the Issuer to exercise any option to redeem the modified Notes or the Qualifying Securities that does not already exist prior to such modification or exchange, without prejudice to the provisions under Condition 10.3 (*Redemption and purchase - Redemption at the option of the Issuer*);
 - (4) the Issuer has delivered to the Fiscal Agent a certificate, substantially in the form shown in the Agency Agreement, signed by a duly authorised representative of the Issuer stating that conditions (i) to (iv) and (1) to (3) above have been complied with, such certificate to be made available for inspection by Noteholders; and

- (i) for so long as any Relevant Existing Indebtedness is outstanding, (x) *pari passu* with such Relevant Existing Indebtedness and (y) at least *pari passu* with Senior Dated Subordinated Notes of Assicurazioni Generali (other than, for clarity, Relevant Existing Indebtedness);

- (iii) junior to any unconditional, unsubordinated, unsecured obligations of Assicurazioni Generali (including any Senior Notes of Assicurazioni Generali and the policyholders of Assicurazioni Generali) and
- (iv) senior to any obligations of the Issuer which rank, or are expressed to rank, junior to the obligations of the Issuer under the Notes (including obligations (if any) of Assicurazioni Generali in respect of Deeply Subordinated Notes of Assicurazioni Generali, More Deeply Subordinated Notes of Assicurazioni Generali, Guarantee of More Deeply Subordinated Notes of Generali Finance, Hybrid Obligations of Assicurazioni Generali and, provided that no Relevant Existing Indebtedness is outstanding, Senior Dated Subordinated Notes of Assicurazioni Generali).

By virtue of such subordination, payments to Noteholders will, in the event of the winding-up, dissolution, liquidation or bankruptcy (including, *inter alia*, *Liquidazione Coatta Amministrativa*) of the Issuer, only be made after all preferred and non-preferred unsubordinated obligations admissible in any such winding-up, liquidation or bankruptcy (including, *inter alia*, *Liquidazione Coatta Amministrativa*) of the Issuer have been satisfied in full or after an arrangement or composition has been arrived at with them under which they have given full discharge against receipt of part of their claim.

The Notes rank in priority to claims of holders of any Deeply Subordinated Notes of Assicurazioni Generali; holders of any More Deeply Subordinated Notes of Assicurazioni Generali; holders of any Hybrid Obligations of Assicurazioni Generali; holders of any Senior Dated Subordinated Notes of Assicurazioni Generali other than Relevant Existing Indebtedness to the extent that the claims of such holders rank - at the time of the winding-up, liquidation or bankruptcy of the Issuer - junior to the Notes; and the shareholders of the Issuer.

4.3 *Waiver:* Each holder of a Note unconditionally and irrevocably waives any right of set-off, counterclaim, abatement or other similar remedy which it might otherwise have, under the laws of any jurisdiction, in respect of such Note.

5 DEFERRAL OF INTEREST

5.1 Mandatory Deferral of Interest

5.1.1 *Mandatory Deferral of Interest for Solvency Capital Event*

The Issuer shall defer payment of all of the interest accrued to an Interest Payment Date in respect of the Notes upon the occurrence of a Solvency Capital Event (or, in the case where the payment of interest would itself result in the occurrence of a Solvency Capital Event, all or part of the interest amount that would result in such occurrence), in each case until the Solvency Capital Event has been remedied and any payment of Deferred Interest (as defined in Condition 5.2 below) would not lead to a Solvency Capital Event.

5.1.2 In addition, the Issuer shall defer any payment of interest accrued to an Interest Payment Date or arrears of interest if:

- (a) payment of the relevant interest would result in, or accelerate, the Issuer becoming insolvent in accordance with provisions of the relevant insolvency laws and rules and regulations thereunder (including any applicable decision of a court) applicable to the Issuer from time to time; or
- (b) the Lead Regulator notifies Assicurazioni Generali that it has determined that Assicurazioni Generali's financial and solvency condition is deteriorating in such a manner that its Solvency Margin would fall below the Solvency Capital Requirement in the short term.

5.1.3 Without prejudice to Condition 5.2 (*Arrears of Interest*), if the Issuer is required to defer all or part of an interest payment pursuant to Condition 5.1.1 (*Mandatory Deferral of Interest for Solvency Capital Event*) or otherwise defers any payment of interest pursuant to Condition 5.1.2, it shall not have any obligation to make such interest payment on the relevant Interest Payment Date, and the failure to pay such interest on such Interest Payment Date shall not constitute a default of the Issuer, or any other breach of obligations under the Conditions or for any purpose. The Issuer shall give notice of such deferral of interest to the Noteholders pursuant to Condition 5.3 (*Notice of Interest Deferral*).

5.1.4 Notwithstanding the provisions set out in Conditions 5.1.1 and 5.1.2 above, interest accrued to an Interest Payment Date in respect of the Notes which the Issuer has deferred, or would otherwise be required to defer, upon the occurrence of a Solvency Capital Event may be paid by the Issuer if the Lead Regulator has, under the then Applicable Regulations, the authority to give and has then given (and has not withdrawn) its prior consent to payment of the relevant interest amount or has otherwise waived the deferral of interest, and the conditions for such payment (or for the waiver of deferral) have been satisfied. Where this Condition 5.1.4 applies, the Issuer will make the relevant interest payment on the relevant Interest Payment Date or, if later, the date following satisfaction of all the aforementioned conditions (which date shall be specified by the Issuer in the notice to the Noteholders), provided that no additional interest shall be due from the Issuer even if such date falls after the relevant Interest Payment Date.

5.2 Arrears of Interest

- (a) Any unpaid amounts of interest deferred pursuant to 5.1 (*Mandatory Deferral of Interest*) will constitute arrears of interest ("**Deferred Interest**"). Deferred Interest shall not bear interest.
- (b) Deferred Interest:
 - (i) may – subject to the provisions of Condition 5.1.1 and Condition 5.1.2 – at the option of the Issuer be paid in whole or in part at any time; and
 - (ii) shall become due and payable on the earliest of:

- (x) the first Interest Payment Date following the occurrence of a Deferred Interest Payment Event and on which mandatory deferral of interest pursuant to the provisions of Condition 5.1.1 and Condition 5.1.2 is not required;
- (y) subject to the provisions of Condition 6 (*Conditions for Redemption*), the date fixed for any optional or mandatory redemption of the Notes; or
- (z) the date on which the *Liquidazione Coatta Amministrativa* of Assicurazioni Generali is commenced pursuant to the Consolidated Law on Private Insurance Companies or on which the Issuer becomes subject to a liquidation order,

provided that the Lead Regulator has given and has not withdrawn its prior consent to payment of the relevant amounts (to the extent required at the time in accordance with then applicable regulations in order for the Notes to qualify as Tier 3 Capital).

“**Deferred Interest Payment Event**” means the Fiscal Agent having received written notice from the Issuer stating that the event or circumstance that gave rise to the interest deferral has been remedied.

5.3 Notice of Interest Deferral

The Issuer shall give not less than 5 Business Days prior notice to the Paying Agents and to the Noteholders in accordance with Condition 19 (*Notices*):

- (i) of any Interest Payment Date on which, pursuant to the provisions of Condition 5.1 (*Mandatory Deferral of Interest*), interest (or, as appropriate, the part thereof specified in the notice) will be deferred; and
- (ii) of any date on which any interest amount will be paid in accordance with Condition 5.1.4 (if Noteholders have been previously notified of the deferral of interest), or amounts in respect of any Deferred Interest shall be paid in accordance with Condition 5.2 (*Arrears of Interest*),

provided that in any case where interest is not paid pursuant to Condition 5.1.1 or Condition 5.1.2, if it is not practicable to deliver the notice of deferral referred to in sub-paragraph (i) above at least 5 Business Days prior to the relevant Interest Payment Date, such notice shall be delivered as soon as practicable thereafter; and *provided further that* failure to deliver such notice shall not invalidate the relevant deferral of interest.

in each case, regardless of any prior notice of redemption that may already have been delivered to the Noteholders and interest will – subject to the applicable interest deferral provisions of these terms and conditions – continue to accrue on the principal amount outstanding of the Notes in accordance with Condition 8 (*Interest*) until such Notes are redeemed in full pursuant to Condition 10 (*Redemption and Purchase*).

- 6.4** The Issuer shall give not less than 5 Business Days prior notice to the Paying Agents and to the Noteholders in accordance with Condition 19 (*Notices*) of any date on which redemption of the Notes is to be suspended and the Maturity Date or, as applicable, the date fixed for optional redemption of the Notes will be postponed pursuant to Condition 6.2 above, *provided that* if it is not practicable to deliver such notice at least 5 Business Days prior to the Maturity Date or, as applicable, the date fixed for any optional redemption pursuant to Condition 10.2 (*Redemption for tax reasons*), Condition 10.3 (*Redemption at the option of the Issuer*), Condition 10.4 (*Optional Redemption due to a Regulatory Event*), Condition 10.5 (*Optional Redemption due to a Rating Event*), Condition 10.6 (*Optional Redemption due to an Accounting Event*) or Condition 10.6A (*Clean-up Call Option*), such notice shall be delivered as soon as practicable thereafter; *provided further that* failure to deliver such notice shall not invalidate the suspension of redemption of the Notes.

For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

Condition 8.2 is applicable to the Notes only if the relevant Final Term specifies that Interest Basis reset on Reset Date as being applicable.

- 8.2.3 **Accrual of interest:** Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused,

in which case it will continue to bear interest in accordance with this Condition 8 (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

As used in these Conditions:

“**Mid Swap Maturity**” has the meaning specified in the Final Terms.

“**Mid Swap Rate**” means for any Reset Period the arithmetic mean of the bid and offered rates for the fixed leg payable with a frequency equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (calculated on the day count basis customary for fixed rate payments in the Specified Currency as determined by the Calculation Agent) of a fixed-for-floating interest rate swap transaction in the Specified Currency which transaction (a) has a term equal to the relevant Reset Period commencing on the relevant Reset Date; (b) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market; and (c) has a floating leg based on the Mid-Swap Benchmark Rate for the Mid Swap Maturity as specified in the Final Terms (calculated on the day count basis customary for floating rate payments in the Specified Currency as determined by the Calculation Agent).

“**Mid Swap Benchmark Rate**” means the benchmark rate specified as such in the relevant Final Terms.

“**Reference Bond**” means for any Reset Period a government security or securities issued by the state responsible for issuing the Specified Currency (which, if the Specified Currency is euro, shall be Germany) selected by the Issuer on the advice of an investment bank of international repute as having an actual or interpolated maturity comparable with the relevant Reset Period that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities denominated in the same currency as the Notes and of a comparable maturity to the relevant Reset Period.

“**Reference Bond Price**” means, with respect to any Reset Determination Date, (A) the arithmetic average of the Reference Government Bond Dealer Quotations for such Reset Determination Date, after excluding the highest and lowest such Reference Government Bond Dealer Quotations; or (B) if the Calculation Agent obtains fewer than four such Reference Government Bond Dealer Quotations, the arithmetic average of all such quotations.

“**Reference Government Bond Dealer**” means each of five banks (selected by the Issuer on the advice of an investment bank of international repute), or their affiliates, which are (A) primary government securities dealers, and their respective successors; or (B) market makers in pricing corporate bond issues.

“**Reference Government Bond Dealer Quotations**” means, with respect to each Reference Government Bond Dealer and the relevant Reset Determination Date, the arithmetic average, as determined by the Calculation Agent, of the bid and offered prices for the relevant Reference Bond (expressed in each case as a percentage of its nominal amount) at or around the Reset Rate Time on the relevant Reset Determination Date quoted in writing to the Calculation Agent by such Reference Government Bond Dealer.

“**Reset Date(s)**” means the date(s) specified in the Final Terms.

“**Reset Determination Date**” means, for each Reset Period, the date as specified in the Final Terms falling on or before the commencement of such Reset Period on which the rate of interest applying during such Reset Period will be determined.

“**Reset Margin**” means the margin specified as such in the Final Terms.

“**Reset Period**” means the period from (and including) the first Reset Date to (but excluding) the Maturity Date (if any) if there is only one Reset Period or, if there is more than one Reset Period, each period from (and including) one Reset Date (or the first Reset Date) to (but excluding) the next Reset Date up to (but excluding) the Maturity Date (if any).

“**Reset Rate**” for any Reset Period means the sum of (i) the applicable Reset Reference Rate and (ii) the applicable Reset Margin (rounded down to three decimal places, with 0.0005 being rounded down).

“**Reset Rate Screen Page**” has the meaning specified in the Final Terms.

“**Reset Rate Time**” has the meaning specified in the Final Terms.

“**Reset Reference Rate**” means either:

- (A) if “Mid Swaps” is specified in the Final Terms, the Mid Swap Rate displayed on the Reset Rate Screen Page at or around the Reset Rate Time on the relevant Reset Determination Date for such Reset Period; or
- (B) if “Reference Bond” is specified in the Final Terms, the annual yield to maturity or interpolated yield to maturity (on the relevant day count basis) of the relevant Reference Bond, assuming a price for such Reference Bond (expressed as a percentage of its nominal amount) equal to the relevant Reference Bond Price.

8.2.4 **Reset Rate Screen Page:** if the Reset Rate Screen Page is not available, or the Mid-Swap Rate does not appear on the Relevant Screen Page, then subject to Condition 8.4 (*Benchmark discontinuation*), the Calculation Agent shall request each of the Reference Banks to provide it with its offered quotation (expressed as a percentage rate per annum) for the Reset Reference Rate at approximately the Reset Rate Time on the Reset Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Reset Rate for the relevant Reset Period shall be the arithmetic mean (rounded if necessary to the third decimal place, with 0.0005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the applicable Reset Margin (if any), all as determined by the Calculation Agent. If on any Reset Determination Date only one or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the foregoing provisions of this Condition 8.2.4:

- (a) if Option A is indicated in the Final Terms the Reset Rate shall be determined as at the last preceding Reset Determination Date or, in the case of the first Reset Determination Date, the Reset Rate shall be the Initial Rate of Interest;
- (b) if Option B is indicated in the Final Terms, the Reset Rate shall be the Reset Reference Rate that most recently appeared on the Reset Rate Screen Page plus or minus (as appropriate) the applicable Reset Margin (if any), as determined by the Calculation Agent.

For the purpose of this Condition 8.2.4, “**Reference Banks**” means four (or, if the Principal Financial Centre is Helsinki, five) major banks selected by the Issuer or the Independent Adviser in the swap,

money, securities or other market most closely connected with the Reset Reference Rate and “**Independent Adviser**” means an independent financial institution of international repute or an independent adviser of recognised standing with appropriate expertise appointed by the Issuer at its own expense for the purpose of this Condition 8.2.4.

- 8.2.5 **Calculation of Interest Amount:** The Calculation Agent will calculate the Interest Amount payable on the Reset Notes for each relevant period (in the case of Interest Periods falling after the Reset Date, as soon as practicable after the time at which the Reset Reference Rate is to be determined in relation to such Reset Interest Period) by applying the Initial Rate of Interest or the applicable Reset Rate (as the case may be) to the Calculation Amount and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a “sub-unit” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Note comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.
- 8.2.6 **Publication:** The Calculation Agent will cause the Reset Rate and each Interest Amount for each Reset Period to be notified to the Issuer, the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders.
- 8.2.7 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

Condition 8.3 is applicable to the Notes (a) if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable; and (b) if the Fixed-Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, in respect of those Interest Periods for which the Floating Rate Note Provisions are stated to apply.

8.3 Interest on Floating Rate Notes

- 8.3.1 **Accrual of interest:** The Notes bear interest from the Interest Commencement Date (or the applicable Interest Payment Date) at the Rate(s) of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 11 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).
- 8.3.2 **Rate of Interest**
- (a) **Screen Rate Determination:**

A. *Floating Rate Notes other than SONIA Linked Interest Notes, SOFR, CMS Linked Interest Notes or €STR Notes*

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

B. *Floating Rate Notes which are SONIA Linked Interest Notes*

Where the Reference Rate is specified as being SONIA, the Rate of Interest for each Interest Period will be, subject to Condition 8.4 (*Benchmark discontinuation*), Compounded Daily SONIA with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below.

For the purposes of this sub-paragraph B:

“**Compounded Daily SONIA**” means, with respect to an Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the

calculation of interest) and will be calculated by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the third decimal place, with 0.0005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

“**d**” is the number of calendar days in the relevant Interest Period;

“**d₀**” is the number of London Banking Days in the relevant Interest Period;

“**i**” is a series of whole numbers from one to **d₀**, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in the relevant Interest Period to, but excluding, the last London Banking Day in the relevant Interest Period;

“**London Banking Day**” or “**LBD**” means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

“**n_i**”, for any London Banking Day “**i**”, means the number of calendar days from and including such London Banking Day “**i**” up to but excluding the following London Banking Day;

“**Observation Period**” means, in respect of each Interest Period, the period from and including the date falling “**p**” London Banking Days prior to the first day of the relevant Interest Period and ending on, but excluding, the date falling “**p**” London Banking Days prior to the end of such Interest Period (or the date falling “**p**” London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

“**p**” means for any Interest Period, the number of London Banking Days included in the Observation Period, as specified in the applicable Final Terms;

the “**SONIA reference rate**”, in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day); and

“**SONIA_{i-pLBD}**” means, in respect of any London Banking Day falling in the relevant Observation Period, the SONIA reference rate for the London Banking Day falling “**p**” London Banking Days prior to the relevant London Banking Day “**i**”.

If in respect of any London Banking Day in the relevant Observation Period, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) determines that the applicable SONIA reference rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, the SONIA reference rate in respect of such London Banking Day shall be: (i) the Bank of England’s Bank Rate (the “**Bank Rate**”) prevailing at close of business on such London Banking Day; plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five days on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate.

Where the SONIA reference rate is being determined in accordance with the paragraph above, in the event the Bank of England publishes guidance as to (i) how the SONIA reference rate is to be determined; or (ii) any rate that is to replace the SONIA reference rate, the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms) shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA reference rate for any London Banking Day “i” for the purpose of the relevant Series of Notes for so long as the SONIA reference rate is not available or has not been published by the authorised distributors.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Final Terms), subject to Condition 8.4 (*Benchmark discontinuation*), the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to that last preceding Interest Period); or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (including applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

If the relevant Series of Notes become due and payable in accordance with Condition 13 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Notes remain outstanding, be that determined on such date.

C. *Floating Rate Notes which are SOFR Linked Interest Notes*

Where the Reference Rate is specified as being the SOFR, the Rate of Interest for each Interest Period will be, subject to Condition 8.4 (*Benchmark discontinuation*), USD-SOFR-COMPOUND with respect to such Interest Period plus or minus (as indicated in the applicable Final Terms) the applicable Margin, all as determined by the Calculation Agent in accordance with the provisions set out below.

For the purposes of this sub-paragraph C:

“**USD-SOFR-COMPOUND**” means the rate of return of a daily compound interest investment (with the Secured Overnight Financing Rate (as defined below) as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent on each Interest Determination Date as follows, with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

“**d₀**”, for any Interest Period, means the number of U.S. Government Securities Business Days in the relevant Interest Period;

“**n_i**”, for any U.S. Government Securities Business Day “**i**”, means the number of calendar days from, and including, such U.S. Government Securities Business Day “**i**” up to, but excluding, the following U.S. Government Securities Business Day;

“**d**” means the number of calendar days in the relevant Interest Period;

“**Observation Period**” means, in respect of each Interest Period, the period from and including the date falling “**p**” U.S. Government Securities Business Day prior to the first day of the relevant Interest Period and ending on, but excluding, the date falling “**p**” U.S. Government Securities Business Day prior to the end of such Interest Period (or the date falling “**p**” U.S. Government Securities Business Day prior to such earlier date, if any, on which the Notes become due and payable);

“**Cut-off Date**” means each U.S. Government Securities Business Day in the relevant Interest Period, other than any U.S. Government Securities Business Day in the period from, and including, the day following the Interest Determination Date to, but excluding, the corresponding Interest Payment Date (such period, the “**Cut-off Period**”). For any U.S. Government Securities Business Day in the Cut-off Period, the Secured Overnight Financing Rate (as defined below) in respect of the U.S. Government Securities Business Day immediately preceding the last Cut-off Date in the relevant Interest Period (such last Cut-off Date coinciding with the Interest Determination Date) shall apply;

“**Secured Overnight Financing Rate**” means:

- (a) the daily secured overnight financing rate as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) on the website of the Federal Reserve Bank of New York currently at <http://www.newyorkfed.org>, or any successor website of the Federal Reserve Bank of New York (the “New York Fed’s Website”) on or about 5:00 p.m. (New York City time) on each U.S. Government Securities Business Day in respect of the U.S. Government Securities Business Day immediately preceding such day; or

- (b) if the daily secured overnight financing rate does not appear on a U.S. Government Securities Business Day as specified above, unless both a SOFR Index Cessation Event and a SOFR Index Cessation Effective Date (each as defined below) have occurred, the daily secured overnight financing rate in respect of the last U.S. Government Securities Business Day for which such rate was published on the New York Fed's Website,

provided that if the daily secured overnight financing rate does not appear on a U.S. Government Securities Business Day as specified in paragraph (a), and both a SOFR Index Cessation Event and a SOFR Index Cessation Effective Date have occurred, the provisions of Condition 8.4 (*Benchmark discontinuation*) below shall apply;

“SOFR Index Cessation Event” means the occurrence of one or more of the following events:

- (a) a public statement by the Federal Reserve Bank of New York (or any successor administrator of the daily secured overnight financing rate) announcing that it has ceased or will cease to provide the daily secured overnight financing rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to provide a daily secured overnight financing rate; or
- (b) the publication of information which reasonably confirms that the Federal Reserve Bank of New York (or any successor administrator of the daily secured overnight financing rate) has ceased or will cease to provide the daily secured overnight financing rate permanently or indefinitely, provided that, at that time, there is no successor administrator that will continue to provide the daily secured overnight financing rate; or
- (c) a public statement by a U.S. regulator or other U.S. official sector entity prohibiting the use of the daily secured overnight financing rate that applies to, but need not be limited to, all swap transactions, including existing swap transactions;

“SOFR Index Cessation Effective Date” means, in respect of a SOFR Index Cessation Event, the date on which the Federal Reserve Bank of New York (or any successor administrator of the daily secured overnight financing rate), ceases to publish the daily secured overnight financing rate, or the date as of which the daily secured overnight financing rate may no longer be used.

“U.S. Government Securities Business Day” means any day except for a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

(and excluding) the Interest Commencement Date (including applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

D. *Floating Rate Notes which are CMS Linked Interest Notes*

Where the Reference Rate is specified as being the CMS Reference Rate, the Rate of Interest for each Interest Period will be calculated by the Calculation Agent in accordance with the provisions set out below:

- (v) where “**CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

- (vi) where “**Leveraged CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (a) $L \times \text{CMS Rate} + M$
(b) $\text{Min} [\text{max} (L \times \text{CMS Rate} + M; F); C]$

- (vii) where “**Steeper CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

- (e) where “**Steeper CMS Reference Rate: Unleveraged**” is specified in the applicable Final Terms:

$$\text{Min} \{ [\text{max} (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C \}$$

or

- (f) where “**Steeper CMS Reference Rate: Leveraged**” is specified in the applicable Final Terms:

$$\text{Min} \{ [\text{max} [L \times (\text{CMS Rate 1} - \text{CMS Rate 2}) + M; F]; C \}$$

- (viii) where “**Call Spread CMS Reference Rate**” is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$L \times \text{Min} [\text{Max} (\text{CMS Rate} + M; F); C]$$

where:

$$C = \text{Cap (if applicable)}$$

$$F = \text{Floor}$$

$$L = \text{Leverage}$$

$$M = \text{Margin}$$

As used above:

“**CMS Rate**” shall mean the Relevant Swap Rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity (expressed as a percentage rate per annum) which appears on the

Relevant Screen Page as at the Relevant Time on the Interest Determination Date in question, all as determined by the Calculation Agent.

"Cap", "CMS Rate 1", "CMS Rate 2", "Floor", "Leverage", "Margin", "Relevant Screen Page" and "Relevant Time" shall have the meanings specified in the applicable Final Terms.

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its quotation for the Relevant Swap Rate (expressed as a percentage rate per annum) at approximately the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent such quotations, the CMS Rate for such Interest Period shall be the arithmetic mean (rounded if necessary to the third decimal place, with 0.0005 being rounded upwards) of the quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

For the purpose of this Condition 8.3.2D:

"Reference Banks" means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case as selected by the Calculation Agent.

"Relevant Swap Rate" means:

- (i) where the Reference Currency is euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the ISDA Definitions) with a designated maturity determined by the Calculation Agent by reference to standard market practice and/or the ISDA Definitions; and
- (ii) where the Reference Currency is any other currency, the mid-market swap rate as determined by the Calculation Agent in its sole and absolute discretion on a commercial basis as it shall consider appropriate and in accordance with standard market practice.

"Representative Amount" means an amount that is representative for a single transaction in the relevant market at the relevant time.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in its sole and absolute discretion on a commercial basis as it shall consider appropriate and in accordance with standard market practice.

E. *Floating Rate Notes which are €STR Notes*

Where the Reference Rate is specified as being €STR, the Rate of Interest for each Interest Period will, subject as provided below, be the rate of return of a daily compound interest investment (with the daily

euro short-term rate as the reference rate for the calculation of interest) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) and will be calculated by the Calculation Agent on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If the €STR is not published, as specified above, on any particular TARGET Business Day and no €STR Index Cessation Event (as defined below) has occurred, the €STR for such TARGET Business Day shall be the rate equal to €STR in respect of the last TARGET Business Day for which such rate was published on the Website of the European Central Bank.

If the €STR is not published, as specified above, on any particular TARGET Business Day and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date have occurred, the rate of €STR for each TARGET Business Day in the relevant Observation Period on or after such €STR Index Cessation Effective Date will be determined as if references to €STR were references to the ECB Recommended Rate.

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each TARGET Business Day in the relevant Observation Period on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each TARGET Business Day in the relevant Observation Period occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above, will remain effective for the remaining term to maturity of the Notes.

- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

The amount of interest payable in respect of any Note for any period will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.

8.3.8 **Notifications etc.:** All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

8.4 **Benchmark discontinuation**

Notwithstanding the provisions above in Conditions 8.2 (*Interest on Reset Notes*) or 8.3 (*Interest on Floating Rate Notes*), if a Benchmark Event occurs in relation to an Original Reference Rate when any required Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions of this Condition 8.4 shall apply.

8.4.1 **Independent Adviser:** The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Issuer determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 8.4.2 (*Successor Rate or Alternative Rate*) below) and, in either case, an Adjustment Spread if any (in accordance with Condition 8.4.3 (*Adjustment Spread*) below) and any Benchmark Amendments (in accordance with Condition 8.4.4 (*Benchmark Amendments*) below).

The Independent Adviser appointed pursuant to this Condition 8.4 shall act in good faith and (in the absence of bad faith, gross negligence or fraud) shall have no liability whatsoever to the Fiscal Agent, the Paying Agents, or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer, pursuant to this Condition 8.4.

8.4.2 **Successor Rate or Alternative Rate:** If the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines that:

(A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 8.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 8.4.5 (*Notices, etc.*) below; or

(B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 8.4), with effect as from the date or, as the case may be, Interest Period, as specified in the notice delivered pursuant to Condition 8.4.5 (*Notices, etc.*) below.

8.4.3 **Adjustment Spread:** The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be). If the Issuer, following consultation with the Independent Adviser is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, the then Successor Rate or Alternative Rate (as applicable) will apply without an Adjustment Spread.

8.4.4 **Benchmark Amendments**

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread (if any) is determined in accordance with this Condition 8.4 and the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines (A) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread (if any) and/or necessary or appropriate to comply with applicable regulations or guidelines on the use of benchmarks or other related documents published by the competent regulatory authority (such amendments, the “**Benchmark Amendments**”) and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 8.4.5 (*Notices, etc.*), without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments (subject to prior agreement with the Calculation Agent or Paying Agent, if required under the Agency Agreement) with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 8.4.4 the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Notwithstanding any other provision of this Condition 8.4, no Successor Rate, Alternative Rate or Adjustment Spread will be adopted, nor will any other amendment to the terms and conditions of any Series of Notes be made to effect the Benchmark Amendments, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the relevant Notes as Tier 3 Notes, or otherwise result in the relevant authority treating the next Interest Payment Date or Reset Date, as the case may be, as the effective maturity of the Notes, rather than the relevant Maturity Date.

8.4.5 *Notices, etc.*

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 8.4 will be notified at least 10 Business Days (or such shorter period as may be agreed between the Issuer and the Fiscal Agent, Calculation Agent and/or Paying Agents (as appropriate)) prior to the relevant Interest Determination Date by the Issuer to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 19(*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify (*inter alia*) the date (or the Interest Period) from which the Successor Rate or, as the case may be, Alternative Rate shall take effect, whether any Adjustment Spread shall be applied to the Successor Rate or, as the case may be, Alternative Rate, and the effective date of the Benchmark Amendments, if any.

No later than notifying the Fiscal Agent of the same, the Issuer shall deliver to the Fiscal Agent, the Calculation Agent and the Paying Agents a certificate signed by an authorised signatory of the Issuer:

- (a) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate and, (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provisions of this Condition 8.4; and
- (b) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or (in either case) the applicable Adjustment Spread.

The Fiscal Agent shall display such certificate at its offices, for inspection by the Noteholders at all reasonable times during normal business hours.

The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent's or the Calculation Agent's or the Paying Agents' ability to rely on such certificate as aforesaid be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 8.4, if following the determination of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (if any), in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 8.4, the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with

such direction, or is otherwise unable (other than due to its own gross negligence, willful default or fraud) to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, willful default or fraud) shall not incur any liability for not doing so.

8.4.6 *Survival of Original Reference Rate*

Without prejudice to the obligations of the Issuer under Condition 8.4.1 (*Independent Adviser*) to 8.4.5 (*Notices, etc.*), the Original Reference Rate and the fallback provisions provided for in Condition 8.2 (*Interest on Reset Notes*) or Condition 8.3.2.(a) (*Interest on Floating Rate Notes – Screen Rate Determination*) as applicable will continue to apply unless and until the Fiscal Agent, the Calculation Agent and the Noteholders have been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 8.4.5 (*Notices, etc.*).

For the avoidance of doubt, if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by the Issuer fails to determine a Successor Rate or Alternative Rate (as applicable) on or before the date falling five Business Days prior to the Interest Determination Date (or Reset Determination Date) relating to the next Interest Period, or if a Successor Rate or an Alternative Rate is not determined or adopted pursuant to the operation of this Condition 8.4 prior to such date, then the Rate of Interest (or the Reset Rate of Interest) for the next Interest Period shall be determined by reference to the fallback provisions of Condition 8.2 (*Interest on Reset Notes*) or Condition 8.3 (*Interest on Floating Rate Notes*).

- (iii) if the Issuer determines that no such spread is customarily applied, the Issuer determines, following consultation with the Independent Adviser, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

“**Alternative Rate**” means an alternative benchmark or screen rate which the Issuer determines in accordance with Condition 8.4.2 (*Successor Rate or Alternative Rate*) is customarily applied in international debt capital markets transactions for the purposes of determining rates of interest (or the

17.3 Modification

These Conditions may not be amended without the prior approval of the Lead Regulator (unless such approval is not required by applicable law at the relevant time in order for the Notes to qualify as Tier 3 Capital of the Issuer). The Notes, these Conditions and (in case the Notes are governed by English law) the Deed of Covenant may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

- (a) Where a Regulatory Event, a Tax Event, a Rating Event or an Accounting Event, which is stated in the relevant Final Terms as being applicable for the purposes of this Condition 17.4, has occurred and is continuing, then the Issuer may, without any requirement for the consent or approval of the Noteholders,
- (A) where the Final Terms state that Regulatory/Tax/Rating/Accounting Event Modification Provisions are applicable, modify the terms of the Notes to the extent that such modification is reasonably necessary to ensure that no such Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event, would exist after such modification; or
 - (B) where the Final Terms state that Regulatory/Tax/Rating/Accounting Event Exchange Provisions are applicable, exchange all (but not some only) of the Notes for Qualifying Securities so that the relevant Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event that has occurred would no longer exist in relation to the Qualifying Securities,

in each case, provided that, following such modification or, as applicable, exchange:

- (i) the terms and conditions of, in the case of sub-(A) above, the Notes, as so modified (the “**modified Notes**”) or, in the case of sub-(B) above, the Qualifying Securities, are – in the Issuer’s reasonable determination after having consulted an independent investment bank of international standing - no more prejudicial to Noteholders than the terms and conditions applicable to the Notes prior to such modification or exchange (the “**existing Notes**”) *provided that* any modification may be made in accordance with paragraphs (ii) to (iv) below or, as applicable, any exchange of existing Notes for a basic own-fund item of at least the same quality that meet the requirements set out in paragraphs (ii) to (iv) below (“**Qualifying Securities**”), shall not constitute a breach of this paragraph (i); and
- (ii) either the person having the obligations of the Issuer under the modified Notes or, as applicable, Qualifying Securities (x) continues to be the Issuer, or (y) is substituted in accordance with Condition 17.5 (*Substitution*); and

- (iv) the modified Notes or, as applicable, Qualifying Securities continue to be listed on a regulated market (for the purposes of the Markets in Financial Instruments Directive 2014/65/EC) of an internationally recognised stock exchange as selected by the Issuer (*provided that* the existing Notes were so listed prior to the occurrence of such Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event),

and provided further that:

- (1) Assicurazioni Generali obtains approval of the proposed modification or exchange from the Lead Regulator (unless such approval is no longer required by applicable law at the relevant time in order for the Notes to qualify as Tier 3 Capital of the Issuer) or gives prior written notice (if such notice is required to be given) to the Lead Regulator and, following the expiry of all relevant statutory time limits, the Lead Regulator is no longer entitled to object or impose changes to the proposed modification or exchange;
 - (2) the modification or exchange does not give rise to a change in any published rating of the existing Notes in effect at such time (to the extent the existing Notes were rated prior to the occurrence of such Regulatory Event, Tax Event, Rating Event or, as applicable, Accounting Event);
 - (3) the modification or exchange does not give rise to any right on the part of the Issuer to exercise any option to redeem the modified Notes or the Qualifying Securities that does not already exist prior to such modification or exchange, without prejudice to the provisions under Condition 10.3 (*Redemption and purchase - Redemption at the option of the Issuer*);
 - (4) the Issuer has delivered to the Fiscal Agent a certificate, substantially in the form shown in the Agency Agreement, signed by a duly authorised representative of the Issuer stating that conditions (i) to (iv) and (1) to (3) above have been complied with, such certificate to be made available for inspection by Noteholders; and
 - (5) in the case of any proposed modifications or an exchange owing to a Tax Event, the Issuer has delivered to the Fiscal Agent an opinion of independent legal or tax advisers of recognised standing to the effect that the Tax Event can be avoided by the proposed modifications or exchange.
- (b) In connection with any modification or exchange as indicated in this Condition 17.4, the Issuer shall comply with the rules of any stock exchange or other relevant authority on which the Notes are then listed or admitted to trading.

18 FURTHER ISSUES

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes.

19 NOTICES

Notices to the Noteholders shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) (or if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe) or, if the Notes which are listed or admitted to trading on the Luxembourg Stock Exchange and the rules of that exchange so require, on the website of the Luxembourg Stock Exchange (www.bourse.lu). Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders.

20 CURRENCY INDEMNITY

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the “**first currency**”) in which the same is payable under these Conditions or such order or judgment into another currency (the “**second currency**”) for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

22 GOVERNING LAW AND JURISDICTION

The following provisions shall apply if it is specified in the Final Terms that English law is applicable to the Notes

- (a) *Governing law:* The Notes and any non-contractual obligations arising out of or in connection with the Notes are governed by, and shall be construed in accordance with, English law, except that provisions concerning the status of the Notes issued by Assicurazioni Generali are governed by the laws of the Republic of Italy. Condition 17.1(b) (*Meetings of Noteholders*) and the relevant provisions of the Agency Agreement concerning meetings of Noteholders of Assicurazioni Generali and the appointment of a Noteholders' Representative (*rappresentante comune*), where applicable, are subject to compliance with the laws of the Republic of Italy.
- (b) *Jurisdictions:* The Issuer agrees for the benefit of the Noteholders that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Notes (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.
- (c) *Appropriate forum:* The Issuer irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.
- (d) *Service of Process:* The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to the person or persons for the time being registered at the Companies Register under Parts 34 and 37 of the Companies Act 2006 and authorised to accept service of process in England on behalf of the Issuer. If such person is not or ceases to be effectively appointed to accept service of process on behalf of the Issuer, the Issuer shall, on the written demand of any Noteholder addressed to the Issuer and delivered to the Issuer, appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law. This clause applies to Proceedings in England and to Proceedings elsewhere.
- (e) *Non-exclusivity:* The submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of any Noteholder to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.

The following provisions shall apply if it is specified in the Final Terms that Italian law is applicable to the Notes

- (a) *Governing law:* The Notes are governed by, and shall be construed in accordance with, Italian law.

- (c) *Appropriate forum:* The Issuer irrevocably waives any objection which it might now or hereafter have to the courts of Milan being nominated as the forum to hear and determine any Proceedings and to

settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

- (d) *Non-exclusivity*: The submission to the jurisdiction of the courts of Milan shall not (and shall not be construed so as to) limit the right of any Noteholder to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.
- (e) *Waiver of trial by jury*: Without prejudice to the remaining paragraphs of this Condition 22, the Issuer waives any right it may have to a jury of trial or cause of action in connection with the Agency Agreement and the Notes. These Conditions may be filed as a written consent to a bench trial.
- (f) *Italian Civil Code*: The Notes do not have the benefit of Article 1186 of the Italian Civil Code nor, to the extent applicable, Article 1819 of the Italian Civil Code.

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”) or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended or superseded, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested]. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.

UK MIFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“**COBS**”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA (“**UK MiFIR**”); and (ii) all

channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer[’s/s’] target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[’s/s’] target market assessment) and determining appropriate distribution channels.

OVERVIEW OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Clearing System Accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Senior Conditions, the Tier 2 Conditions or, as applicable, the Tier 3 Conditions to “Noteholder” are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of a NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder’s share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Exchange of Temporary Global Notes

Whenever any interest in a Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure:

- (a) in the case of first exchange, the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note; or
- (b) in the case of any subsequent exchange, an increase in the principal amount of such Permanent Global Note in accordance with its terms,

in each case in an aggregate principal amount equal to the aggregate of the principal amounts specified in the certificates issued by Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and received by the Fiscal Agent against presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 7 days of the bearer requesting such exchange.

Whenever a Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) a Permanent Global Note has not been delivered or the principal amount thereof increased by 5.00 p.m. (Luxembourg time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part thereof) has become due and payable in accordance with the Senior Conditions, the Tier 2 Conditions or the Tier 3 Conditions, as applicable, or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligation to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (Luxembourg time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but, in the case of Notes specified in the relevant Final Terms to be governed by English law, without prejudice to the rights which the bearer of the Temporary Global Note or others may have under a deed of covenant dated 25 May 2022 (the “**Deed of Covenant**”) executed by the Issuer). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note (each, an “**Accountholder**”) will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. In the case of Notes specified in the relevant Final Terms to be governed by Italian law, the Temporary Global Note shall include an undertaking by the Issuer in favour of each Accountholder that it will make all payments in respect of the principal amount of Notes for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg, as being held by the Accountholder and represented by the Temporary Global Note to the bearer of the Temporary Global Note and an acknowledgement by the Issuer that each Accountholder may take proceedings to enforce this undertaking directly against the Issuer.

Exchange of Permanent Global Notes

Whenever a Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the Specified Office of the Fiscal Agent within 30 days of the bearer requesting such exchange.

If:

- (a) Definitive Notes have not been delivered by 5.00 p.m. (Luxembourg time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Notes;
- (b) a Permanent Global Note was originally issued in exchange for part only of a Temporary Global Note representing the Notes and such Temporary Global Note becomes void in accordance with its terms; or
- (c) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Senior Conditions, the Tier 2 Conditions or the Tier 3 Conditions, as applicable, or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (Luxembourg time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (Luxembourg time) on the date on which such Temporary Global Note becomes void (in the case of (b) above) or at 5.00 p.m. (Luxembourg time) on such due date (in the case of (c) above) and the bearer of the Permanent Global Note will have no further rights thereunder (but, in the case of Notes specified in the relevant Final Terms to be governed by English law, without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note (each, an “**Accountholder**”) will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. In the case of Notes specified in the relevant Final Terms to be governed by Italian law, the Permanent Global Note shall include an undertaking by the Issuer in favour of each Accountholder that it will make all payments in respect of the principal amount of Notes for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg, as being held by the Accountholder and represented by the Permanent Global Note to the bearer of the Permanent Global Note and an acknowledgement by the Issuer that each Accountholder may take proceedings to enforce this undertaking directly against the Issuer.

New Group organisational structure

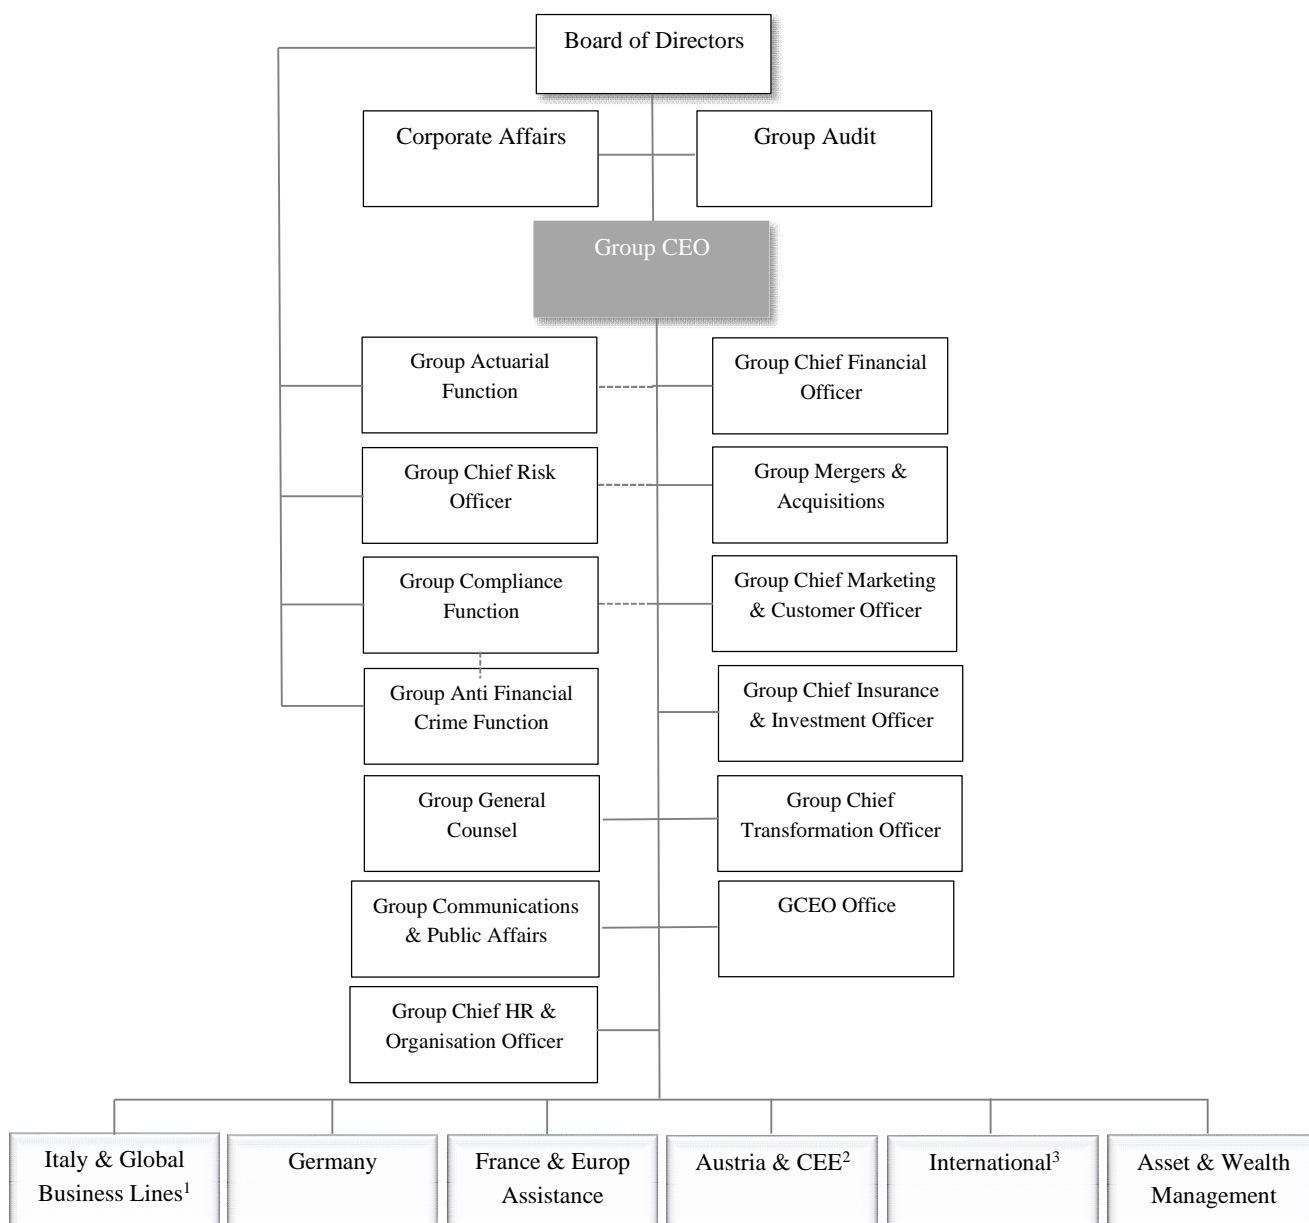

The Group’s organisational structure, first adopted in January 2021, is designed to address key strategic priorities for the continued successful delivery of its strategic plans. The organisational structure aims to:

- enhance further discipline in asset liability management, in order to continue increasing balance sheet resilience against volatile markets, in line with the progress made since the launch of the Strategic Plan. Insurance products development capabilities will be further strengthened by integrating the Group investment management and the insurance domain. This will allow for superior matching of customers’ needs while granting sustainable returns for shareholders in a “lower for longer” interest rate environment;
- accelerate the implementation of the Asset Management multi-boutique platform strategy, a key pillar for profitable growth, improved earnings diversification and reduced capital absorption, also through adding complimentary skills;
- speed up the pace of digital transformation, streamline operating processes and continue delivering the LifeTime Partner strategic ambition, establishing an integrated oversight on all levers supporting digital and technological transformation.

Under this streamlined organisational structure, senior executives report directly to the Group CEO to deliver the targets of the Strategic Plan, including the following officers who have been appointed as officers of business/organisational units:

- Group Chief Insurance & Investment Officer, who heads the new organisational unit that will integrate the competencies of the Group Head Office Insurance and Reinsurance areas with Investment Management;
- CEO Asset & Wealth Management, head of the new business unit with responsibility to coordinate the activities of Group asset management companies and Banca Generali;
- Group Chief Transformation Officer, a newly established role integrating responsibilities linked to Strategy with Operations and the digital and technological transformation.

Generali Group Asset Management business

The Group first announced its new strategy for the asset management division in May 2017 and set up the Investments, Asset and Wealth Management business unit. The objective is to address the needs of insurance companies and individuals in a low interest rate environment and to support the Group's shift towards a greater contribution from fee-based business. The asset management strategy is based on two pillars: broadening investment capabilities and offering bespoke investment solutions to European companies and savings products to individual clients. This business unit operates in: investment management (implementation of the Asset Liability Management and Strategic Asset Allocation models on behalf of the Group Insurance companies), Asset Management (asset management for the most part addressed to insurance clients, with its clients base expanded to comprise external institutional clients (such as pension funds and foundations) and retail clients; and Wealth Management (financial planning and asset protection for customers through a network of consultants at the top end of the sector in terms of skills and professionalism, mainly through Banca Generali).

During the year ended 31 December 2021, the Asset and Wealth Management business unit (including also the Asset Management result of Central and Eastern European countries) recorded an operating result of €1,044 million, an increase of 22.4% from €853 million in 2020, with a contribution of €405 million from Wealth Management (up by about 14.6% compared to €353 million in 2020); and a contribution of €672 million from Asset Management (up by about 22.9% from €546 million in 2020).

This business unit aims to pursue its strategic objectives by:

- exploiting cross-selling opportunities, by promoting the growth of a capital-light business, such as the services of LDI ("Liability Driven Investments") Solutions, which seek to offer institutional customers the expertise developed in investment management; and
- expanding the multi-boutique platform in order to increase the range of products and services for all customers. Multi-boutiques are companies acquired on the market or created in partnership with operators with acknowledged investment skills in highly specialised asset classes, both in traditional asset classes and alternative ones.

The boutiques operating in the Investment, Asset & Wealth Management business unit are:

- Generali Global Infrastructure (GGI), a partnership created with the aim of investing in infrastructure debt with a diversified portfolio, both in terms of geography and sector;
- Aperture Investors, an innovative asset management company based on a revenue model that is radically different from that present on the market;
- Lumyhna, a leading company in developing alternative UCITS (Undertakings for the Collective Investment of Transferable Securities) strategies, with an important international clientele that positively contributes to increasing Generali's offer and distribution;
- Sycomore Factory SAS, a benchmark in ESG/SRI investment solutions in France;
- Axis Retail Partners, an advisory boutique in real estate, focusing on shopping centre investments;
- Plenifer Investments SGR, which offers an innovative and integrated approach for a wide range of asset classes.

With reference only to the Asset Management business, its operating result in 2021 was €672 million (€546 million in 2020) and net result was €504 million (€386 million in 2020). Total assets under management as at 31 December 2021 amounted to €575 billion (€561 billion as at 31 December 2020). Third party assets under management increased from €104 billion as the end of 2020 to €113 billion at the end of 2021, driven by positive net inflows.

Regulatory

Italian insurance and reinsurance companies are subject to the application of a multi-level system of rules.

From an Italian law perspective, *in primis*, the Italian Civil Code contains certain provisions applicable to the insurance matter, including, in particular, life and non-life insurance contracts. In addition to the Italian Civil Code provisions, insurance laws are consolidated into the Legislative Decree No. 209/2005, as amended from time to time ("**Code of Private Insurance**" (*Codice delle Assicurazioni Private*)). Such provisions of law related to the insurance sector are integrated, at national level, by regulations issued by the *Ministero dello Sviluppo Economico* (the "**Ministry of Economic Development**" formerly, *Ministero delle Attività Produttive* (the Ministry of Industry and Commerce)) and implemented by regulations issued by the *Istituto per la Vigilanza sulle Assicurazioni* ("**IVASS**").

From a European law perspective, Italian insurance companies are subject to EU Directives mainly concerning the insurance sector and to the relevant applicable implementing rules (including, without limitation, the EU Directives on life insurance, non-life insurance, solvency matters, etc.). Among the most recent and relevant European laws, it is worth mentioning the EU Directive 2009/138/EC of 25 November 2009 (so called "**Solvency II Directive**") providing for new rules on: (i) minimum financial requirements to cover risks; (ii) governance and risk management requirements; and (iii) disclosure and transparency requirements. The Solvency II Directive has been implemented in Italy by Legislative Decree No. 74 of 12 May 2015, that integrated and amended the aforementioned Code of Private Insurance

Under the national legal framework, the provisions of the Code of Private Insurance, *inter alia*: (i) regulate access to insurance and reinsurance activities; (ii) require the maintenance of certain solvency margins, in part through a guarantee fund; (iii) determine the form of financial statements for insurance companies; and (iv) regulate the activities of insurance intermediaries. Following the entry into force of Legislative Decree No. 74 of 12 May 2015, implementing Solvency II Directive in Italy, many articles of the Code of Private Insurance, including articles 44 and 44-*bis* concerning the solvency margin of insurance undertakings, were repealed or amended. In addition, mainly during 2015 and 2016, in order to implement Solvency II Directive, IVASS published a considerable number of consultation papers and new regulations on different matters (by way of example, Regulation No. 33/2016 concerning public disclosure and reporting to IVASS; Regulation No. 32/2016 on risk and solvency assessment – ORSA; Regulation No. 24/2016 on investments and assets covering technical provisions; Regulation No. 13/2015 concerning the ancillary own-fund items and several regulations concerning the application of the risk modules provided by the Solvency II framework). Under the national regulatory framework currently in force, a very important role is granted to IVASS. In particular, with the exception of certain powers specifically reserved for

the Ministry of Economic Development, all control and supervisory powers in respect of the insurance industry are autonomously exercised by IVASS. IVASS's role includes, *inter alia*: (i) monitoring technical, financial and asset and liability management and monitoring solvency ratios; (ii) reviewing financial statements; (iii) supervising the activities of insurance intermediaries; (iv) granting authorisation to conduct insurance and reinsurance activities; (v) applying sanctions and proposing disciplinary measures *vis-à-vis* insurance and reinsurance companies as well as insurance intermediaries, including suspension or revocation of authorisations to conduct insurance and reinsurance activities; (vi) approving restructuring plans; (vii) advising the Ministry of Economic Development with respect to admission to the compulsory liquidation procedure for financially troubled insurance entities; and (viii) communicating and collaborating with other EU insurance regulatory authorities. IVASS has the power to request information from insurance companies, conduct audits of their activities, question their legal representatives, managing directors and statutory auditors and convene shareholders', directors' and statutory auditors' meetings in order to propose measures necessary to conform the management of insurance companies to the requirements provided by applicable laws and regulations. Furthermore, IVASS has the power to order the sale or decrease of shareholdings held by an insurance undertaking in other companies, if they do not meet the requirements set forth in applicable laws and regulations and there is a risk to the soundness of the insurance company.

Finally, the regulatory framework applicable to Italian insurance companies, requires insurance and reinsurance undertakings to establish and maintain a regular contact with IVASS. In particular, intragroup transactions carried out by Italian insurance and reinsurance companies with relevant counterparties, exceeding certain thresholds or not carried out at market conditions, are subject to monitoring by IVASS, in accordance with IVASS Regulation No. 30 of 26 October 2016.

In accordance with Generali's Code of Corporate Governance and its internal regulations (Regulation of the Board of Directors and of the Board Committees), a "significant shareholder" is defined as *"a natural person or corporation who directly or indirectly, also through subsidiaries, trustees or third parties, controls the Company or is able to exercise a significant influence over it or who is part, directly or indirectly, of a shareholders' agreement through which one or more parties exercise control or a significant influence over the Company. In this connection, "significant influence" indicates a situation where a natural person or corporation holds, directly or indirectly, also through subsidiaries, trustees or third parties, an interest greater than 3% of the Company shares with voting rights."* Therefore, a shareholder director for which applies one of the aforementioned situations, as well as a director who is, or has been, in the previous three years, an executive director or employee of a significant shareholder of the Company, is considered non-independent.

The business address of each of the Directors is Piazza Duca degli Abruzzi, 2, 34132 Trieste, Italy.

Conflicts of Interest of members of the Board of Directors

The Directors of Assicurazioni Generali may, from time to time, hold directorships or other significant interests with companies outside the Generali Group, which may have business relationships with the Generali Group. Assicurazioni Generali has in place procedures, as required by Articles 2391 and 2391-*bis* of the Italian Civil Code, aimed at identifying and managing any conflicts or potential conflicts of interests, to ensure, where possible, that no actual or potential conflicts of interest will arise, and to guarantee, as required by the Regulation 17221 of 12 March 2010, as amended (*Regolamento Operazioni con Parti Correlate*) approved by CONSOB (the Italian Securities and Exchange Commission), that related party transactions are performed in accordance with the principle of transparency and substantive and procedural correctness.

There are no conflicts of interest between any of the Directors' duties to Assicurazioni Generali and their private interests or other duties, other than that Clemente Rebecchini is a manager of Mediobanca – Banca di Credito Finanziario S.p.A., a significant shareholder of Generali and who is also a dealer to the Programme. See also *"Board of Directors"* above for the other directors who are considered to be non-independent.

Board of Statutory Auditors

Pursuant to Italian law, Assicurazioni Generali maintains a Board of Statutory Auditors (*Collegio Sindacale*), whose members must meet the requirements of professionalism, respectability and independence laid down by the applicable legislation and must also be registered in the register of auditors.

The Board of Statutory Auditors consists of three permanent and two alternate auditors, who may be re-elected. Once elected, auditors shall forfeit their assignment should situations of incompatibility arise, as envisaged by the law, and should they hold the office of permanent auditor in more than five Italian firms listed on the Italian regulated markets. At least one third of permanent and alternate auditors are chosen from among candidates complying with the professional and competence requirements established for the office of chair of the Board of Statutory Auditors.

Voluntary tender offer on Cattolica

On 31 May 2021, the Board of Directors of Assicurazioni Generali approved the launch of a cash voluntary public tender offer (the "**Offer**") on no. 174,293,926 ordinary shares of Società Cattolica di Assicurazione S.p.A. ("**Cattolica**"), being all of the shares issued by Cattolica as of such date, including the treasury shares held by Cattolica and reduced by no. 54,054,054 shares already owned by Generali as of such date, as announced by the notice published by Generali pursuant to article 102, paragraph 1 of Legislative Decree no. 58 of 24 February 1998 (the "**Italian Consolidated Financial Act**") and pursuant to article 37 of the Regulation adopted by CONSOB with resolution no. 11971 of 14 May 1999 (the "**Notice**").

The Offer was subject to prior authorisations required by applicable law (the "**Prior Authorisations**", including authorisation by IVASS for the acquisition of a controlling participation in Cattolica), as well as the satisfaction of a number of conditions precedent, including (*inter alia*) approval by CONSOB of the offer document submitted by Generali on 18 June 2021 pursuant to Article 102, paragraph 3, of the Italian Consolidated Financial Act (the "**Offer Document**"), unconditional approval to the acquisition by the competent antitrust authorities and the holding by Generali of a shareholding equal to at least 66.67% of Cattolica (however Generali reserved the right to partially waive this condition, provided that the participation that Generali would hold upon completion of the Offer would be in any case at least equal to 50% of Cattolica's voting capital plus one share), all as set out in the Notice and the Offer Document published by Generali after its approval by CONSOB, following obtainment of the Prior Authorisations, pursuant to Article 102, paragraph 4 of the Italian Consolidated Financial Act.

On 17 September 2021, Generali announced that it had received the authorization from IVASS for the acquisition of a controlling interest in Cattolica pursuant to the Offer, in accordance with Articles 68 and following of the Italian Code of Private Insurance and, accordingly, in the insurance companies controlled by Cattolica or in which Cattolica has a qualified interest. In addition, prior authorization from *Commissariat aux Assurances* for the acquisition of the indirect control in CATTRE S.A. and the prior authorization from Central Bank of Ireland for the acquisition of the indirect control in Vera Financial Dac were also obtained, while authorisation from European Commission for the acquisition of a controlling interest in Cattolica was received on 21 October 2021.

Following approval of the Offer Document by CONSOB on 22 September 2021, the acceptance period of the Offer commenced on 4 October 2021 and terminated on 29 October 2021. On 3 November 2021, Generali announced the satisfaction of all conditions precedent and completion of the Offer, pursuant to which Generali purchased 138,842,677 shares of Cattolica tendered in the Offer at a consideration per share of €6.75 (cum dividend). Settlement took place on 5 November 2021 and taking into account the 54,054,054 Cattolica shares already owned by Generali, Generali held, following settlement of the Offer, a total of 192,896,731 Cattolica shares (or 84.475% of its share capital).

The Offer was promoted by Generali with the aim of consolidating its position in the Italian insurance market consistently with the guidelines of the Generali 2021 Strategic Plan: “*Leveraging strengths to accelerate growth.*”, with the objective of enabling Generali to become a leading group in the P&C insurance market and to strengthen its presence in the life insurance market. Management believes that the transaction will serve to enhance the Cattolica brand and to expand the Group’s agency network, as well as to strengthen the ability to offer innovative products with a high quality of service through the combination of the assets, skills and excellence of Generali and Cattolica. The transaction will enable Generali to achieve further up-selling and cross-selling potential on Cattolica’s customers, considering the more comprehensive range of products and services offered by Generali, and will offer inorganic profitable growth opportunities in the property, health as well as agricultural and third sector segments, thanks to the distinctive skills and expertise of Cattolica in these segments. Management believes that the transaction has limited risk of integration execution – in view of the strategic partnership already in place with Cattolica and the proven track record of the Generali Group in the management of industrial integrations – and aims to generate significant value creation in the medium and long term, taking into account the synergies achievable through the transaction.

Acquisitions in Malaysia

On 22 June 2021, Generali signed an agreement to acquire a majority stake in the AXA Affin joint ventures (approximately 53% of AXA Affin General Insurance Berhad and AXA Affin Life Insurance Berhad). The Group has also submitted an application to the local regulator in order to acquire the remaining shares of MPI Generali Insurans Berhad (“**MPI Generali**”) currently held by Multi-Purpose Capital Holdings Berhad (“**MPHB Capital**”, Generali’s Malaysian joint venture partner). The transactions are subject to approval of the Malaysian Minister of Finance and the Central Bank of Malaysia.

The total consideration for the combined transactions is RM 1,290 million (or €262 million at an exchange rate as of 18 June 2021 of €1 = RM 4.9328, source: Bloomberg), subject to closing adjustments. The estimated impact on the Group’s regulatory solvency ratio is approximately -3.5 p.p.

As a result of the transactions, Generali will operate in Malaysia through two companies, one in the P&C segment and the other in the Life segment. In the P&C segment, Generali plans to merge the businesses of MPI Generali with AXA Affin General Insurance. Once the transactions are completed, Generali will hold 70% in both the Life and P&C entities, which will trade under the Generali name. Affin Bank will hold the remaining 30%.

Through the acquisitions, management aims to position Generali as one of the leading insurers in the Malaysian market as well as to increase its P&C market share and to enter the country’s life insurance segment. Generali will commence the necessary integration planning to develop an organisation that leverages the skills, experience and expertise of all the staff of the combined business and as part of the transaction, will enter into an exclusive bancassurance agreement with Affin Bank for the sale of conventional P&C and Life insurance products. The expected completion date of the acquisitions is the second quarter of 2022.

The Group uses its Partial Internal Model (“**PIM**”) which has been approved by IVASS to calculate capital requirements to better reflect its risk profile. The Group IM authorisation was granted for all major business units, being Italy, Germany, France, Austria, Switzerland, Czech Republic and Spain, and at Group level, the Group’s PIM covers all quantifiable risks (main risks according to the Group risk map) of the Group. The Solvency Ratio is calculated with the IM for the Group legal entities for which authorisation has been granted, while other insurance entities adopt the standard formula. Other financial regulated entities contribute to the Group Solvency Ratio based on local sectorial regulatory requirements (mostly banks, pension funds and asset managers). See further the paragraph headed “*Group Partial Internal Model (Group PIM)*” in Part C (Solvency Position) of the Risk Report (pages 148-149) contained in the 2021 Annual Integrated Report, incorporated by reference in this Base Prospectus.

Sensitivity Analysis

In addition to the calculation of the Solvency Capital Requirement, the Group regularly performs sensitivity analyses of the variability of its Solvency Ratio to changes in specific risk factors. The aim of these analyses is to assess the resilience of the Group capital position to the main risk drivers and evaluate the impact of a wider range of shocks. See further the paragraph headed “Sensitivity Analysis” in Part C (*Solvency Position*) of the Risk Report (pages 148-149) contained in the 2021 Annual Integrated Report, incorporated by reference in this Base Prospectus.

Financial indebtedness

The following table sets forth the Group’s financial debt composition as of 31 December 2020 and 2021.

| | As of 31 December | |
|--|---------------------|---------------------|
| | 2020 ⁽²⁾ | 2021 ⁽³⁾ |
| Total financial debt (<i>euros in millions</i>) ⁽¹⁾ , of which: | 9,692 | 10,660 |
| - Subordinated liabilities (<i>euros in millions</i>) | 7,681 | 8,760 |
| - Senior bonds (<i>euros in millions</i>) | 1,738 | 1,737 |
| Other non-subordinated liabilities linked to financing activities | 273 | 163 |

(1) Book value of liabilities linked to financing activities.

(2) Takes into account the redemption of a senior bond in January 2020 and a liability management transaction involving the buyback of €600 million of subordinated liabilities with call date of 2022 and the issuance of a new green bond for the same amount.

(3) Takes into account the €500,000,000 1.713 per cent. Tier 2 Notes due 30 June 2032 issued on 30 June 2021 and the inclusion of liabilities linked to financing activities of the Cattolica group. Does not take into account the redemption, in February 2022, of the legacy tier 1 notes in a principal amount of £167,150,000.

For completeness, following completion of Generali’s voluntary tender offer on Cattolica, financial indebtedness of Generali at group level consolidates also the financial debt of Cattolica, which includes subordinated Tier 2 instruments debt of Cattolica in an aggregate principal amount outstanding of €725 million, with first call dates in 2023 (€100 million), 2025 (€125 million) and 2027 (€500 million), respectively. This is reflected in the Group’s total financial debt as at 31 December 2021.

Generali has a proactive approach to debt optimisation aimed at rebalancing the debt maturity profile while optimising its Solvency II position, in terms of capital quality. This approach has been implemented through the following transactions:

- redemption in early 2019 of €750 million subordinated debt partially funded through the issuance of €500 million subordinated debt, thus reducing Generali’s external financial debt by €250 million;
- two liability management transactions launched in September 2019 and July 2020, in order to smoothen the 2022 maturity peak resulting in a more balanced debt profile: the first transaction led to €250 deleveraging while the second transaction, through neutral in terms of outstanding debt, contributed to further reduce the refinancing risk; and
- redemption in January 2020 of €1.25 billion senior debt with internal resources.

In addition, Generali issued in June 2021 a €500 million Tier 2 subordinated instrument, and redeemed a legacy Tier 1 instrument with a principal amount outstanding of £167 million on the call date in February 2022.

The Group’s maturity profile has been significantly reshaped due to these transactions, thus avoiding peaks in specific years and with a longer average duration. The Group furthermore confirms its focus and innovation on

sustainability as well as its commitment towards the achievement of sustainability targets through the issuance of bonds under its sustainability bond framework.

See further description of the relevant frameworks for the issuance of green, social and sustainability bonds and green insurance linked securities in the paragraph headed “*The Generali 2021 Strategy – Capital Management and Financial Optimisation*” of the Management Report in the 2021 Annual Integrated Report (pages 42-45) and the paragraph headed “*Group’s Financial Position*” of the Management Report contained in the 2021 Annual Integrated Report (pages 88-102), incorporated by reference in this Base Prospectus.

TAXATION

The following is a general overview of certain tax consequences in Italy and the Grand Duchy of Luxembourg of acquiring, holding and disposing of Notes. It does not purport to be a complete analysis of all tax considerations that may be relevant to the decision to purchase, own or dispose of Notes and does not purport to deal with the tax consequences applicable to all categories of prospective beneficial owners of Notes, some of which may be subject to special rules. This overview is based upon tax laws and/or practice in force as at the date of this Base Prospectus, which are subject to any changes in law and/or practice occurring after such date, which could be made on a retroactive basis. The Issuer will not update this overview to reflect changes in law and, if any such change occurs, the information in this overview could be superseded.

Prospective purchasers of Notes should consult their tax advisers as to the overall tax consequences of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws. In particular, the Issuer does not have knowledge of certain information that is pertinent to the imposition of withholding taxes on payments in respect of the Notes and Coupons and, where taxes are to be withheld or deducted, the Noteholders and Couponholders' entitlement (if any) to receive additional amounts under Condition 10 (Taxation) of the Senior Conditions and Condition 12 (Taxation) of the Tier 2 Conditions and the Tier 3 Conditions. Noteholders should, in all instances, consult their own tax advisers or financial intermediaries as to whether payments in respect of the Notes and Coupons received by them are subject to withholding tax, and/or whether they are entitled to any additional amounts referred to in Condition 10 (Taxation) of the Senior Conditions and Condition 12 (Taxation) of the Tier 2 Conditions and the Tier 3 Conditions. Prospective purchasers of Notes should not apply any of the information below to other areas including (but not limited to) the legality of transactions involving the Notes.

ITALY

Interest

Interest and other proceeds – Notes that qualify as bonds (“obbligazioni”) or debentures similar to bonds (“titoli similari alle obbligazioni”) or as financial instruments that are relevant for regulatory capital adequacy purposes

Pursuant to Legislative Decree No. 239 of 1 April 1996 (“**Decree No. 239**”), as subsequently amended and restated, interest and other proceeds (including the difference between the redemption amount and the issue price) (“**Interest**”) in respect of notes that qualify as “bonds” (“*obbligazioni*”) or “debentures similar to bonds” (“*titoli similari alle obbligazioni*”) for Italian tax purposes and that are issued, *inter alia*, by Italian tax resident companies whose shares are traded on a European regulated market may be subject to an Italian substitute tax (*imposta sostitutiva*) depending on, among others, the legal status of the beneficial owner of such Interest and other proceeds.

Pursuant to Article 44, paragraph 2, letter (c) of Decree No. 917 of 22 December 1986 (“**Decree No. 917**”), Notes qualify as “bonds” or “debentures similar to bonds” for Italian tax purposes if they (i) incorporate an unconditional obligation to pay, at maturity or redemption, an amount not less than their nominal amount, (ii) do not give any right to directly or indirectly participate in the management of the relevant issuer or the business in relation to which they are issued nor any type of control on such management, and (iii) do not provide for a remuneration which is linked to profits.

Pursuant to Article 2(22) of Law Decree 13 August 2011 No. 138, converted into Law 14 September 2011 No. 148, the tax regime set out by Decree No. 239 is applicable to the Interest due under financial instruments that are relevant, according to the EU and Italian domestic provisions, for regulatory capital adequacy purposes,

issued by Italian tax resident entities supervised by the Italian insurance agency IVASS, other than shares or securities assimilated to shares.

Italian tax resident Noteholders

Interest on the Notes (either when the Interest is paid by the Issuer, or when payment thereof is obtained by the Noteholder on a sale of the relevant Notes) is subject to a 26 per cent. substitute tax (“*imposta sostitutiva*”) if the recipient is included among the following categories of Italian tax residents: (i) individuals not engaged in an entrepreneurial activity to which the Notes are connected, (ii) non-commercial partnerships, (iii) non-commercial private or public institutions or (iv) entities that are exempt from Italian corporate income taxation. In the event that the Noteholders described under (i) and (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax and it may be credited against the overall corporate income tax due by the taxpayer in respect of the income derived from its business activity which will include the Interest.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Notes not in connection with an entrepreneurial activity may be exempt from any income tax, including the *imposta sostitutiva*, on interest, premium and other income relating to the Notes if the Notes are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of Law No. 232 of 11 December 2016, as subsequently amended and supplemented (the “**Finance Act 2017**”), Article 1 (211-215) of Law No. 145 of 30 December 2018, as subsequently amended and supplemented (the “**Finance Act 2019**”), or Article 13-bis of Law Decree No. 124 of 26 October 2019, converted into Law No. 157 of 19 December 2019, as subsequently amended and supplemented (the “**Fiscal Decree Linked to Finance Act 2020**”), Article 136 of Law Decree No. 34 of 19 May 2020, converted into Law No. 77 of 17 July 2020, as subsequently amended and supplemented (the “**Decree No. 34**”), Article 1 (219-225) of Law No. 178 of 30 December 2020, as subsequently amended and supplemented (the “**Finance Act 2021**”), Article 1 (26-27) Law No. 234 of 2021, as subsequently amended and supplemented (the “**Finance Act 2022**”).

Pursuant to Decree No. 239, *imposta sostitutiva* is levied by banks, *società di intermediazione mobiliare* (“**SIMs**”), fiduciary companies, SGRs, stockbrokers, and other entities identified by a Decree of the Ministry of Finance, as subsequently amended (the “**Intermediaries**”). In order to be entitled to apply the *imposta sostitutiva*, the Intermediaries must:

- A. be: (a) tax resident in Italy; or (b) non-Italian tax resident with a permanent establishment in Italy; or (c) an entity or a company not resident in Italy, which is a member of a system of centralised administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Finance (which includes Euroclear and Clearstream) having appointed an Italian representative for the purposes of Decree No. 239; and
- B. intervene, in any way, in the collection of Interest or in the transfer of the Notes.

Where the Notes are not deposited with an Intermediary, the substitute tax is applied and withheld by any entity paying Interest to the Noteholder, or absent that, by the Issuer. If Interest on the Notes is not collected through an Intermediary, or absent that, by the Issuer, the Italian resident Noteholders listed above under (i) to (iv) will be required to include Interest in their annual income tax return and subject them to a final substitute tax at a rate of 26%.

The 26 per cent. *imposta sostitutiva* does not apply where the Notes are held in a discretionary investment portfolio managed by an Italian authorised financial intermediary and the beneficial owner thereof, where possible, has opted to be taxed at a flat rate of 26 per cent. on the year-end increase in value of the investment portfolio accrued, even if not realised (which increase in value includes any Interest accrued on the Notes),

pursuant to the so-called “portfolio management tax regime” (*regime del risparmio gestito*) provided for by Article 7 of Legislative Decree 21 November 1997, No. 461 (“**Decree 461/1997**”).

The *imposta sostitutiva* does not apply also to the following Italian resident persons, to the extent that the Notes and the relevant coupons are deposited in a timely manner, directly or indirectly, with an Intermediary:

(A) *Corporate investors*

where an Italian resident Noteholder is a company or similar commercial entity (including a permanent establishment in Italy of a foreign company to which the Notes are effectively connected), Interest accrued on the Notes must be included in: (I) the relevant Noteholder’s yearly taxable income for the purposes of corporate income tax (“**IRES**”), generally applying at the current ordinary rate of 24% (certain categories of taxpayers, including banks and financial entities are subject to an IRES surcharge equal to 3.5%); and (II) in certain circumstances, depending on the status of the Noteholder, also in its net value of production for the purposes of regional tax on productive activities (“**IRAP**”), generally applying at the rate of 3.9% (certain categories of taxpayers, including banks, financial entities and insurance companies, are subject to higher IRAP rates). The IRAP rate can be increased by regional laws up to 0.92%. Said Interest is therefore subject to general Italian corporate taxation according to the ordinary rules;

(B) *Investment funds*

Interest accrued on the Notes held by Italian open-ended or closed-ended investment funds (“**Investment Funds**”), by *società di investimento a capitale variabile* (“**SICAV**”) or by *società di investimento a capitale fisso* not exclusively or primarily investing in real estate (“**SICAF**”) is neither subject to such *imposta sostitutiva* nor to any other income tax in the hands of the Investment Funds, SICAV or SICAF. A withholding tax of 26 per cent. will be levied on proceeds distributed by the Investment Funds, the SICAV, the SICAF or received by certain categories of unitholders upon redemption or disposal of the units;

(C) *Pension funds*

Interest accrued on the Notes held by Italian pension funds subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005 (“**Pension Funds**”) is included in the aggregate income of the pension funds which is subject to a substitute tax at the rate of 20 per cent. Subject to certain conditions (including a minimum holding period) and limitations, Interest accrued on the Notes may be excluded from the taxable base of the Pension Funds if the Notes are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13-bis of the Fiscal Decree Linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021, Article 1 (26-27) of the Finance Act 2022;

(D) *Real estate investment funds*

under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 (“**Decree No. 351**”), Interest on the Notes held by Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994 (“**Real Estate Fund**”) are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a Real Estate Fund. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by the Real Estate Funds and, in certain cases a tax transparency regime may apply in respect of certain categories of investors in the Real Estate Funds owning more than 5 per cent. of the fund’s units. Pursuant to Article 9 of Legislative Decree No. 44 of 4 March 2014, the same regime applicable to Real Estate Funds applies also to *società di investimento a capitale fisso* ruled by Legislative Decree No. 58 of 24

February 1998 exclusively or primarily investing in real estate in the measures provided under the applicable implementing regulations (“**Real Estate SICAF**”).

Non-Italian tax resident Noteholders

Non-resident holders, without a permanent establishment in the Republic of Italy to which the Notes are effectively connected, are not subject to such 26 per cent. *imposta sostitutiva* according to Article 6, paragraph 1, Decree No. 239, provided that they are: (i) beneficial owners resident for tax purposes in a State which allows an adequate exchange of information with Italy as listed in the Italian Ministerial Decree dated 4 September 1996 (“**White List**”), as amended from time to time; or (ii) institutional investors (regardless of whether subject to tax or not) established in any such a State; or, (iii) supranational entities set up in accordance with an international treaty executed by Italy; or (iv) central banks or other authorities engaged in the management of the official reserves (of a foreign State) (together referred to as “**Qualified Noteholders**”).

The exemption procedure for Noteholders who are non-resident in Italy and are resident in a White List country identifies two categories of intermediaries:

- (a) an Italian or foreign bank or financial institution (there is no requirement for the bank or financial institution to be EU tax resident) (the “**First Level Bank**”), acting as intermediary in the deposit of the Notes held, directly or indirectly, by the Noteholder with a Second Level Bank (as defined below); and
- (b) an Italian tax resident bank or SIM, or an Italian permanent establishment of a non-resident bank or brokerage company, acting as depositary or sub-depositary of the Notes, which is electronically connected with the Italian Ministry of Finance (the “**Second Level Bank**”). Non-resident entities or companies which have an account with a centralised clearance system which has a direct relationship with the Italian Ministry of Economy and Finance (such as Euroclear or Clearstream, Luxembourg) are treated as Second Level Banks, provided that they appoint an Italian representative (an Italian resident bank or SIM, or permanent establishment in Italy of a non-resident bank or SIM, or a central depositary of financial instruments pursuant to Article 80 of Legislative Decree No. 58 of 24 February 1998) for the purposes of the application of Decree No. 239.

In the event that a non-Italian resident Noteholder deposits the Notes directly with a Second Level Bank, the latter shall be treated both as a First Level Bank and a Second Level Bank.

The exemption from the *imposta sostitutiva* for the Noteholders who are non-resident in Italy is conditional upon:

- (a) the timely deposit of the Notes, either directly or indirectly, with an institution which qualifies as a Second Level Bank; and
- (b) the timely submission to the First Level Bank or the Second Level Bank of a self-declaration from the relevant Noteholder in which it declares that it is eligible for the exemption from the *imposta sostitutiva*. The self-declaration, which must be in conformity with the form approved with ministerial decree of 12 December 2001, is valid until it is revoked or withdrawn. However, such self-declaration is not required for non-Italian resident investors that are international bodies or entities set up in accordance with international agreements entered into force in the Republic of Italy or Central Banks or entities also authorised to manage the official reserves of a State.

Non-resident holders are subject to the 26 per cent. *imposta sostitutiva* on Interest if any of the above conditions is not satisfied. Under certain conditions, Noteholders who are subject to the *imposta sostitutiva* might, nevertheless, be eligible for a total or partial relief under an applicable tax treaty between the Republic of Italy and the country of residence of the relevant holder, subject to certain compliance requirements.

Interest and other proceeds – Notes that qualify as atypical securities (titoli atipici)

Interest payments relating to Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) nor in the category of shares (*azioni*) or securities similar to shares (*titoli similari alle azioni*) may be subject to a withholding tax, levied at the rate of 26 per cent.

Subject to certain limitations and requirements (including a minimum holding period), Interest in respect of Notes received by (i) Pension Funds and (ii) Italian resident individuals holding the Notes not in connection with an entrepreneurial activity may be exempt from taxation, including the withholding tax on interest, premium and other income relating to "titoli atipici", if those Notes are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13-*bis* of the Fiscal Decree Linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021, Article 1 (26-27) of the Finance Act 2022. In the case of Notes issued by an Italian-resident issuer, where the Noteholder is (i) an Italian individual engaged in an entrepreneurial activity to which the Notes are connected, (ii) an Italian company or a similar Italian commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected, (iv) an Italian commercial partnership or (v) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax.

In all other cases, the withholding tax is a final withholding tax. For non-Italian resident Noteholders, the 26 per cent. withholding tax rate may be reduced (generally to 10%) by any applicable double tax treaty or eliminated under certain applicable double tax treaties entered into by Italy, if more favourable, subject to timely filing of the required documentation.

Fungible issues

Pursuant to Article 11, paragraph 2 of Decree No. 239, where the relevant issuer issues a new Tranche forming part of a single series with a previous Tranche, for the purposes of calculating the amount of Interest subject to *imposta sostitutiva*, the issue price of the new Tranche will be deemed to be the same as the issue price of the original Tranche. This rule applies where (a) the new Tranche is issued within 12 months from the issue date of the previous Tranche and (b) the difference between the issue price of the new Tranche and that of the original Tranche does not exceed 1 per cent. multiplied by the number of years of maturity of the Notes.

Capital gains

Italian resident Noteholders

Any gain obtained from the sale or redemption of the Notes would be treated as part of the taxable income (and, in certain circumstances, depending on the *status* of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Pursuant to Decree 461/1997, a 26 per cent. *imposta sostitutiva* is applicable on capital gains realised on the disposal of Notes by Noteholders included among the following categories of Italian residents: individuals holding the Notes not in connection with an entrepreneurial activity, non-commercial partnerships, non-profit organisations, the Italian State and public entities or entities that are exempt from IRES.

For the purposes of determining the taxable capital gain, any Interest on the Notes accrued and unpaid up to the time of the purchase and the sale of the Notes must be deducted from the purchase price and the sale price, respectively.

In respect of the application of such substitute tax, Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes under the so-called “non-discretionary investment portfolio regime” (*regime del risparmio amministrato*). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express election for the *regime del risparmio amministrato* being timely made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *regime del risparmio amministrato*, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *regime del risparmio amministrato*, the Noteholder is not required to declare the capital gains in the annual tax return.

Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called “discretionary investment portfolio regime” (*regime del risparmio gestito*) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *regime del risparmio gestito*, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *regime del risparmio gestito*, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals holding the Notes not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the 26 per cent. *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Notes if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13-bis of the Fiscal Decree Linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021, Article 1 (26-27) of the Finance Act 2022.

The *imposta sostitutiva* does not apply to the following taxpayers:

(A) *Corporate investors*

Capital gains realised on the Notes by Italian resident corporate entities (including a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected) form part of their aggregate income subject to IRES. In certain cases, capital gains may also be included in the taxable net value of production of such entities for IRAP purposes. The capital gains are calculated as the difference between the sale price and the relevant tax basis of the Notes. Upon fulfilment of certain conditions, the gains may be taxed in equal instalments over up to five fiscal years.

(B) *Investment Funds*

Capital gains realised on the Notes by Investment Funds, SICAVs and SICAFs are subject neither to CGT nor to any other income tax (see section named “Interest”, “Italian Resident Noteholders”, above).

(C) *Pension Funds*

Any capital gains realised through the transfer for consideration or redemption of the Notes by beneficial owners which are Pension Funds are included in the calculation of the management result of the fund, accrued in each year, subject to a 20 per cent. substitute tax (see section named “Interest”, “Italian Resident Noteholders”, above). Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains realised through the transfer for consideration or redemption of the Notes may be excluded from the taxable base of the Pension Funds if the Notes are included in a long-term individual savings plan (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1 (100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13-bis of the Fiscal Decree Linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021, Article 1 (26-27) of the Finance Act 2022.

(D) *Real Estate Investment Funds*

Capital gains on the Notes held by Real Estate Funds or Real Estate SICAFs to which the provisions of Decree No. 351, as subsequently amended, apply, will be subject neither to substitute tax nor to any other income tax at the level of the Real Estate Fund or the Real Estate SICAF. A withholding tax may apply in certain circumstances at the rate of up to 26 per cent. on distributions made by the Real Estate Funds or Real Estate SICAFs and, in certain cases, a tax transparency regime may apply in respect of certain categories of investors in the Real Estate Funds or Real Estate SICAFs owning more than 5 per cent. of the fund’s units.

Non-Italian tax resident Noteholders

Capital gains from the sale or redemption of the Notes realised by non-Italian resident Noteholders without a permanent establishment in the Republic of Italy to which the Notes are effectively connected are in principle subject to a 26 per cent. substitute tax. However, such gains are exempt from tax in Italy if:

- (a) the Notes are listed and traded on a regulated market; or
- (b) the Notes are not listed on a regulated market but the beneficial owner of the Notes qualifies as a Qualified Noteholder and is entitled to the exemption from the 26 per cent. substitute tax on Interest pursuant to Article 5 of Decree 461/1997; or
- (c) the Noteholder may benefit from a double tax treaty with Italy providing that capital gains realised upon the sale or redemption of the Notes are to be taxed only in the country of tax residence of the recipient.

Transfer Tax

Pursuant to Article 11 of the Tariff (Part I) attached to Presidential Decree No. 131 of 26 April 1986 and Article 2 of the same Tariff (Part II), any acts, agreements and deeds regulating the transfer of Notes may be subject, in certain cases, to Italian registration tax consisting of a one-off payment of €200.00.

Stamp duty

The Law Decree No. 201 of 6 December 2011 (“**Decree No. 201**”), converted into law with amendments by Law No. 214 of 22 December 2011, has replaced paragraphs 2-*bis* and 2-*ter* and related notes (3-*bis* and 3-*ter*) of Article 13, Tariff annexed to stamp duty law approved with Presidential Decree No. 642 of 26 October 1972.

Pursuant to Decree No. 201, statements sent to customers and related to all the financial products and instruments, including those not deposited, are subject to stamp duty at the rate of 0.20%. The maximum amount due is set at €14,000 for Noteholders other than individuals.

The tax is applied to each statement, on the total market value, or in its absence, on the face or repayment value of securities and financial products. The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable pro rata. Based on the wording of the law and the implementing decree issued by the Italian Ministry of Finance on 25 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 15 July 2015) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Wealth tax on securities deposited abroad

Pursuant to Article 19, (18-23), of Decree No. 201, as subsequently amended and supplemented, Italian resident individuals, non-commercial entities and certain partnerships including *società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917 holding the Notes outside the Italian territory are required to pay an additional tax at a rate of 0.20% for each year. The maximum amount due is set at €14,000 for Noteholders other than individuals.

The tax is calculated on the fair market value of the Notes at the end of the relevant year or, in the case the fair market value cannot be determined, on their nominal values or redemption values, or in the case the face or redemption values cannot be determined, on the purchase value of any financial asset (including banking bonds, *obbligazioni* and capital adequacy financial instruments) held abroad by Italian resident individuals. A tax credit is granted for any foreign property tax levied abroad on such financial assets.

Inheritance and Gift Tax

Pursuant to Law Decree No. 262 of 3 October 2006, as converted with amendments by Law No. 286 of 24 November 2006, inheritance and gift taxes have been re-introduced in Italy, with effect as of 3 October 2006.

Inheritance and gift taxes apply according to the following rates and exclusions:

- (a) if assets (including money) pass to a spouse, as well as to any linear descendent, tax is levied at a rate of 4 per cent. The tax applies to the value of the assets (net of liabilities) left to each heir/beneficiary which exceeded €1,000,000;
- (b) assets (including money) pass to a relative within the fourth degree or to a linear relative-in-law, as well as to a collateral relative within the third degree, tax is levied at a rate of 6 per cent. The tax applies to the value of the assets (net of liabilities) exceeding €100,000, if assets are left to a brother or sister;

(c) 8 per cent. in all other cases.

If the transfer is made in favour of persons affected by a handicap deemed as “critical” pursuant to Law No. 104 of 5 February 1992, inheritance and gift taxes apply only on the value exceeding €1,500,000.

Under Article 1 (114) of the Finance Act 2017, the *mortis causa* transfer of financial instruments included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1(100-114) of the Finance Act 2017, Article 1 (211-215) of the Finance Act 2019 or Article 13-*bis* of the Fiscal Decree Linked to the Finance Act 2020, Article 136 of the Decree No. 34, Article 1 (219-225) of the Finance Act 2021, Article 1 (26-27) of the Finance Act 2022 are exempt from inheritance taxes.

Tax monitoring obligations

Pursuant to Italian Law Decree No. 167 of 28 June 1990, as amended by Law No. 97 of 6 August 2013 and by Law No. 50 of 28 March 2014, individuals, non-profit entities and certain partnerships (in particular, *società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917) resident in Italy are required to report in their yearly income tax declaration, for tax monitoring purposes the amount of Notes issued by Assicurazioni Generali held abroad during each tax year.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the beneficial owner of the instrument for anti-money laundering purposes. The above reporting is not required to be complied with respect to Notes deposited for management with qualified Italian intermediaries and with respect to contracts entered into through their intervention, provided that the financial flows and income derived from the Notes are subject to tax by the same intermediaries.

EU Directive on Administrative Cooperation in the field of Taxation

On 9 July 2015, the Italian Parliament adopted Law No. 114 delegating the Italian Government to implement in Italy certain EU Council Directives, including Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). Such Directive is aimed at broadening the scope of the operational mechanism of intra-EU automatic exchange of information in order to fight cross-border tax fraud and evasion. The Italian government implemented the above-mentioned Council Directive 2014/107/EU in the Ministerial Decree issued by the Ministry of Finance on 28 December 2015, as amended by the Ministerial Decree of 17 January 2017. Following the Ministerial Decree quoted, the Italian tax authorities may communicate to other EU Member States information about interest and other categories of financial income of Italian source, including income from the Notes.

Furthermore, the Italian Government implemented the later changes to the Council Directive 2011/16/EU, including the changes introduced by the Council Directive 2376/2015/EU on the mandatory automatic exchange of information on advance cross-border rulings and advance pricing arrangements, through the issue of the Legislative Decree 15 March 2017, no. 32, and by the Council Directive 2016/2258/EU as regards access to anti-money-laundering information by tax authorities, through the issue of the Legislative Decree 18 May 2018, no. 60.

LUXEMBOURG

The following is a general description of certain Luxembourg tax considerations relating to the Notes. It specifically contains information on taxes on the income from the Notes withheld at source and provides an indication as to whether the Issuer assumes responsibility for the withholding of taxes at the source. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in Luxembourg or elsewhere. Prospective purchasers of the Notes should consult their own tax advisers as to which countries’

tax laws could be relevant to acquiring, holding and disposing of the Notes payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of Luxembourg. This overview is based upon the law as in effect on the date of this Prospectus. The information contained within this section is limited to general withholding, income, wealth and value added taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005 as amended (the “**Relibi Law**”), and of circular Relibi no. 1 issued by the Luxembourg tax administration on 27 February 2017 (the “**Relibi Circular**”), which provides for a 20 per cent withholding tax on savings income paid by a Luxembourg paying agent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for withholding the 20 per cent. tax in application of the Relibi Law and the Relibi Circular is assumed by the Luxembourg paying agent. In addition, pursuant to the Luxembourg law of 17 July 2008 and to the Relibi Circular, Luxembourg resident individuals can opt to self-declare and pay a 20 per cent. tax (which is final when the Luxembourg resident individuals are acting in the context of the management of their private wealth) on interest payments made by certain paying agents not established in Luxembourg, *i.e.*, paying agents located in an EU member state other than Luxembourg or a member state of the European Economic Area other than an EU member state.

Taxes on Income and Capital Gains

Luxembourg resident individual Noteholders are not subject to taxation on capital gains upon the disposal of the Notes, unless the disposal of the Notes precedes the acquisition of the Notes or the Notes are disposed of within six months of the date of acquisition of these Notes. Upon the sale, redemption or exchange of the Notes, accrued but unpaid interest will be subject to the 20 per cent. withholding tax or the self-applied tax, if applicable. Individual Luxembourg resident Noteholders receiving the interest as business income must include the portion of the price corresponding to this interest in their taxable income. The 20 per cent. Luxembourg withholding tax levied will be credited against their final income tax liability.

Luxembourg resident corporate Noteholders, or non-resident Noteholders which have a permanent establishment, a permanent representative or a fixed base of business in Luxembourg with which the holding of the Notes is connected, must for income tax purposes include in their taxable income any interest (including accrued but unpaid interest) as well as the difference between the sale or redemption price and the lower of the cost or book value of the Notes sold or redeemed.

Luxembourg resident corporate Noteholders which are companies benefiting from a special tax regime (such as family wealth management companies subject to the law of 11 May 2007, undertakings for collective investment subject to the law of 17 December 2010 or specialised investment funds subject to the law of 13 February 2007, or reserved alternative investment funds governed by the law of 23 July 2016, provided it is not foreseen in the incorporation documents that (i) the exclusive object is the investment in risk capital and that (ii) article 48 of the aforementioned law of 23 July 2016 applies) are tax exempt entities in Luxembourg, and are thus not subject to any Luxembourg tax (*i.e.*, corporate income tax, municipal business tax and net wealth tax) other than the annual subscription tax calculated on their (paid up) share capital (and share premium) or net asset value and the minimum net wealth tax.

Net Wealth Tax

Luxembourg net wealth tax will not be levied on the Notes held by an individual Noteholder or a corporate Noteholder, unless (a) such Noteholder is a corporate Noteholder resident in Luxembourg other than a Noteholder governed by (i) the laws of 17 December 2010 and 13 February 2007 on undertakings for collective investment; (ii) the law of 22 March 2004 on securitisation; (iii) the law of 15 June 2004 on the investment company in risk capital; or (iv) the law of 11 May 2007 on family estate management companies; or (v) the law of 23 July 2016 on the reserved alternative investment funds, or (b) the Notes held by a corporate Noteholder which is not resident in Luxembourg are attributable to an enterprise or part thereof which is carried on in Luxembourg through a permanent establishment or a permanent representative.

However, a securitisation company subject to the law of 22 March 2004 and a company subject to the law of 15 June 2004 on investment company in risk capital are subject to a minimum net wealth tax, as well as a reserved alternative investment fund subject to the law of 23 July 2016, provided it is foreseen in the incorporation documents that (i) the exclusive object is the investment in risk capital and that (ii) article 48 of the aforementioned law of 23 July 2016 applies.

Value Added Tax

There is no Luxembourg value added tax payable by a holder of a Note in respect of payments in consideration for the issue of the Notes or in respect of the payment of interest or principal under the Notes, or the transfer of the Notes.

Other Taxes and Duties

There is no Luxembourg registration tax, capital tax, stamp duty or any similar tax or duty payable in Luxembourg in respect of or in connection with the issue, execution, delivery and enforcement by legal proceedings (including any foreign judgment in the courts of Luxembourg) of the Notes or the performance of the Issuer's obligations under the Notes, except in the case (i) of a voluntary registration of the Notes in Luxembourg or (ii) should the Notes be appended to a document that requires mandatory registration in Luxembourg.

Residence

A Noteholder will not become resident, or deemed to be resident, in Luxembourg by reason only of its holding of Notes or the execution, performance, delivery and/or enforcement of that or any other Notes.

THE PROPOSED FINANCIAL TRANSACTIONS TAX ("FTT")

On 14 February 2013, the European Commission published its detailed proposal for a common FTT in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovenia, Slovakia and Spain (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

Following the meeting of the Council of the EU of 14 June 2019, the FTT currently being considered by the participating Member States would be levied on the acquisition of shares or similar instruments of listed companies which have their head office in a member state of the EU (and market capitalisation in excess of €1 billion on 1 December of the preceding year), rather than on any type of financial instrument. In order to reach a final agreement among the participating Member States, further work in the Council and its preparatory bodies will be required in order to ensure that the competences, rights and obligations of non-participating EU member states are respected.

If the proposed directive or any similar tax was adopted and depending on the final terms and scope of the FTT, transactions on the Notes could be subject to higher costs, and the liquidity of the market for the Notes may be diminished.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, as amended, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“**foreign passthru payments**”), to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Italy) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“**IGAs**”), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, under proposed U.S. Treasury Regulations, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. In the preamble to the proposed regulations, the U.S. Treasury Department indicated that taxpayers may rely on these proposed regulations until the issuance of final regulations. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes.

Notes may be sold from time to time by the Issuer to any one or more of Banco Bilbao Vizcaya Argentaria, S.A., Banco Santander, S.A., Barclays Bank Ireland PLC, BNP Paribas, BofA Securities Europe SA, Citigroup Global Markets Limited, Citigroup Global Markets Europe AG, Crédit Agricole Corporate and Investment Bank, Deutsche Bank Aktiengesellschaft, Goldman Sachs International, HSBC Continental Europe, J.P. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealers or any of them are set out in a Dealer Agreement dated 25 May 2022 (the “**Dealer Agreement**”) and made between the Issuer and the Dealers. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Each Series of Notes may also be subject to such further US Selling Restrictions as the Issuer and the relevant Dealer may agree and as indicated in the relevant Final Terms.

Public Offer Selling Restriction Under the Prospectus Regulation

If the Final Terms (or, as the case may be, Drawdown Prospectus) in respect of any Notes specifies the “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, in relation to each Member State of the EEA (each, a “**Member State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Base Prospectus as completed by the relevant Final Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes and the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129, as amended.

United Kingdom public offer selling restriction for prospectuses

Prohibition of Sales to EEA Retail Investors

Unless the relevant Final Terms (or, as the case may be, Drawdown Prospectus) in respect of the Notes specifies the “Prohibition of sales to EEA Retail Investors” as “Not Applicable”, each Dealer has represented

and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to any retail investor in the EEA.

For the purposes of this provision:

where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;

- (b) *Financial promotion*: it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21 (1) of the FSMA does not apply to the Issuer; and

Interests of Natural and Legal Persons

Certain of the Dealers and their affiliates (including their parent companies) have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, or provide financing to, Assicurazioni Generali and its affiliates in the ordinary course of business. Furthermore, certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates (including their parent companies) may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of any of Assicurazioni Generali or any of its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default

swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates (including parent companies) may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Potential conflicts of interest may exist between the Calculation Agent (if any) and Noteholders (including where a Dealer acts as a calculation agent), including with respect to certain determinations and judgements that such Calculation Agent may make pursuant to the Conditions that may influence amounts receivable by the Noteholders during the term of the Notes and upon their redemption. For a discussion of these risks, see *“Risk Factors - Potential conflict of interest of a Dealer acting as Calculation Agent”* on page 51.
