MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

2. RATINGS

Ratings: The Notes to be issued have been rated:

Fitch: BBB+

Moody's: Baa2(hyb)

According to the definitions published by Fitch on its website as of the date of these Final Terms, Fitch's credit rating scale for issuers and issues is expressed using the categories 'AAA' to 'BBB' (investment grade) and 'BB' to 'D' (speculative grade) with an additional +/- for 'AA' through 'CCC' levels, indicating relative differences of probability of default or recovery for issues. "BBB" ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

According to definitions published by Moody's on its website as of the date of these Final Terms, obligations rated "Baa" are subject to moderate credit risk. They are considered medium-grade and as such may possess speculative characteristics. In addition, Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from 'Aa' to 'Caa'; the modifier 2 indicates a mid-range ranking of the generic rating category. Additionally, a "(hyb)" indicator is appended to all ratings of hybrid securities issued by banks, insurers, finance companies, and securities firms.

Each of Fitch Ratings Ireland Limited and Moody's Deutschland GmbH is established in the EEA and registered under Regulation (EC) No 1060/2009, as amended (the "EU CRA Regulation").

In general, European regulated investors are restricted under the EU CRA Regulation and UK regulated investors are restricted under the UK CRA Regulation from using a rating for regulatory purposes unless (1) such rating is issued by a credit rating agency established in the EEA or the UK and registered under the relevant CRA Regulation; or (2) the rating is provided by a credit rating agency not established in the EEA or the UK but is endorsed by a credit rating agency established in the EEA or the UK and registered under the relevant CRA Regulation; or (3) the rating is provided by a credit rating agency not established in the

EEA or the UK which is certified under the relevant CRA Regulation.
